

Table 7.8.3-6 Required TMDL Implementation Measures for Sediment Discharges Associated with Rural Lands¹

Sources and Performance Standards	Actions	Implementing Parties	Completion Dates
<p>Roads: Design, construct, and maintain rural roads to minimize road-related sediment delivery to stream channels ; and</p> <p>Gullies and/or shallow landslides: Promote natural recovery, and minimize human caused increases in sediment delivery from unstable areas.</p>	<p>Submit a Report of Waste Discharge² to the Water Board that provides, at a minimum, the following: description of the property; identification of site-specific erosion control measures to achieve performance standard(s) specified in this table; and a schedule for implementation of identified erosion control measures.</p>	<p>Landowners</p>	<p>June 2014</p>
	<p>Comply with applicable Waste Discharge Requirements (WDRs) or waiver of WDRs.</p>	<p>Landowners</p>	<p>As specified in applicable WDRs or waiver of WDRs</p>
	<p>Report progress on implementation of site specific erosion control measures.³</p>	<p>Landowners</p>	<p>As specified in applicable WDRs or waiver of WDRs</p>
<p>1. Rural lands include: non-farmed and non-grazing portions of parcels >10 acres that contain one or more residences, and/or a winery; vacant residential parcels >10 acres; and/or portions of 10-acres or larger parcels with secondary vineyard, orchard, and/or grazing. Parcels smaller than 10 acres, but that are identified by Water Board staff as posing a threat to water quality, may also be required to implement the specified actions.</p> <p>2. Or compliance with applicable conditional waivers of WDRs that may be adopted by the Water Board</p> <p>3. These reports may be prepared individually or jointly or through a recognized third party.</p>
