Subject: Municipal Regional Permit (MRP) – Regional Water Board Working Draft

Dear Mr. Wolfe:

Thank you for the opportunity to submit comments regarding the Regional Water Board's working draft permit of the Municipal Regional Permit (MRP), issued on October 16, 2006.

As one of the co-permittees of San Mateo Countywide Stormwater Program (STOPPP), the City of Burlingame would like to extend its support to the comments that Matt Fabry, STOPPP Program Coordinator, has submitted on behalf of its member agencies as well as those provided by the Bay Area Stormwater Management Agencies Association (November 8, 2006) regarding the Regional Water Board staff's working draft permit. The City remains optimistic the Regional Board staff will take into consideration the merits of these comments and provide an opportunity to negotiate and work collaboratively in achieving a permit that is acceptable to all.

Sincerely,

Eva Justimbaste
Stormwater Coordinator
