Complaint No. R8-2004-0038
for
Mandatory Penalties

Attention: Jenna Lawrence)

YOU ARE HEREBY GIVEN NOTICE THAT:

1. ExxonMobil Refining & Supply Company (ExxonMobil) is alleged to have violated provisions of law for which the California Regional Water Quality Control Board, Santa Ana Region (Board), must impose mandatory penalties pursuant to California Water Code (Water Code) Section 13385(h).
2. A hearing concerning this Complaint is scheduled for the Board's regular meeting on April 30, 2004. ExxonMobil or its representatives will have an opportunity to appear and be heard and to contest the allegations in this complaint and the imposition of mandatory penalties by the Board. An agenda for the meeting and the staff report related to the Complaint will be mailed to you not less than 10 days prior to the hearing date.
3. If a hearing is held, the Board will consider whether to affirm, reject or modify the proposed mandatory penalties or whether to refer this matter to the Attorney General for recovery of judicial civil liability.
4. This complaint is based on the following facts:
 - a. ExxonMobil operates Mobil Service Station No. 18-668 located at 16230 Harbor Boulevard in Fountain Valley. A groundwater extraction system at the site treated and discharged groundwater from the site. On January 23, 2002, the Board adopted Waste Discharge Requirements, Order No. R8-2002-0007 (NPDES No. CAG918001), General Groundwater Cleanup Permit (Permit). The Permit regulates discharges of extracted and treated groundwater resulting from the cleanup of groundwater polluted by petroleum hydrocarbons and/or solvents within the Santa Ana Region. The Permit includes effluent limits for a number of constituents including tertiary butyl alcohol (TBA). On April 29, 2002, ExxonMobil was authorized to discharge treated water from its groundwater cleanup system at the subject site and was required to monitor the discharge in accordance with Monitoring and Reporting Program No. R8-2002-0007-066. On October 3, 2003, the Board amended this permit with Order No. R8-2003-0085, which

established effluent limits for several additional contaminants that were not previously regulated and revised the daily maximum effluent limits for other chemicals.

- b. ExxonMobil submitted monthly and quarterly self-monitoring reports. The January 12, 2004, report indicated that ExxonMobil discharged TBA on various dates at the concentrations shown on Table 1. The concentrations exceeded the effluent maximum daily concentration of 34 ppb. The average effluent quality for the months of November 2002, and October and November 2003 also exceeded the average monthly concentration limit of 12 ppb for TBA. These exceedences are serious violations as defined under Water Code Section 13385(h).
5. Water Code Section 13385(h) requires the Board to assess a mandatory minimum penalty of three thousand dollars (\$3,000) for each serious violation.
6. In accordance with Water Code Section 13385(h), the mandatory minimum penalties for the effluent limitation violations cited in Section 4, above, are \$21,000.
7. In addition, the Board may also assess administrative civil liability of \$10,000 per day for each day of violation and \$10 per gallon for each gallon discharged in excess of 1,000 gallons in accordance with Water Code Section 13385(c).
8. The Executive Officer proposes that the mandatory minimum penalties of \$21,000 be imposed on ExxonMobil by the Board for the violations cited above.
9. You may waive your right to a hearing. If you waive your right to a hearing, please sign the attached waiver form and return it to Sacramento in the enclosed envelope together with a check for \$21,000 payable to the State Water Resources Control Board and the bottom portion of the invoice.

If you have any questions regarding this complaint, please contact Ken Williams at (909) 782-4496 or Rose Scott at (909) 320-6375, or the Board's legal counsel, Jorge Leon, at (916) 341-5180.

MANDATORY PENALTIES COMPLAINT NO. R8-2004-0038

Dear Ms. Lawrence:

We are enclosing a certified copy of Complaint No. R8-2004-0038 proposing mandatory penalties of \$21,000. The complaint is issued pursuant to California Water Code Section 13385(h), for seven serious violations of the effluent limitations specified in Waste Discharge Requirements, Order No. R8-2002-0007. An invoice for this amount is also enclosed.

A public hearing on this matter is scheduled for the Regional Board meeting on April 30, 2004. The staff report regarding this complaint and a meeting agenda will be mailed to you not less than 10 days prior to the Board meeting.

You have the option to waive your right to a hearing. Should you decide to waive your right and pay the proposed assessment, the Regional Board may not hold a public hearing on this matter. If you choose to waive your right to a hearing, please sign the enclosed waiver form and submit the form with a check or money order for \$21,000. The waiver form, the bottom portion of the invoice and the check should be mailed to Sacramento using the enclosed envelope. All other correspondence regarding this complaint should be directed to this office at the address listed on this letterhead.

If you do not wish to waive your right to a hearing, a pre-hearing meeting with Board staff is recommended. Should you wish to schedule a pre-hearing meeting, please contact us prior to April 1, 2004. At that time, you may submit information that may not have been previously available to staff regarding these violations. This information should address the accuracy of the findings in the complaint.
