Dear Mr. Fah:

We are enclosing a certified copy of Complaint No. R8-2004-0103, proposing a mandatory penalty of \$3,000. This complaint is issued pursuant to California Water Code Section 13385(h), for a violation of effluent limitations established in Waste Discharge Requirements, Order No. R8-2002-0007 (NPDES No. CAG918001). An invoice for this amount is also enclosed.

If necessary, consideration of this matter will be scheduled for the Board's meeting on December 20, 2004. The staff report regarding this complaint and a meeting agenda will be mailed to you not less than 10 days prior to the Board meeting.

You have the option to waive your right to a hearing. Should you decide to waive your right and pay the proposed assessment, the Regional Board may not hold a public hearing on this matter. If you choose to waive your right to a hearing, please sign the enclosed waiver form and submit the form with a check or money order for \$3,000. The waiver form, the bottom portion of the invoice and the check or money order should be mailed to Sacramento using the enclosed envelope. All other correspondence regarding this complaint, including the opportunity to participate in a Supplemental Environmental Project, should be directed to this office at the address on this letterhead.

If you do not wish to waive your right to a hearing, a pre-hearing meeting with Board staff is recommended. Should you wish to schedule a pre-hearing meeting, please contact us prior to December 1, 2004. At that time, you may submit information that might not have been previously available to staff regarding this violation. This information should address the accuracy of the findings in the complaint.

IN THE MATTER OF:)	Complaint No. R8-2004-0103
)	for
Atlantic Richfield Company)	Mandatory Penalty
4 Centerpointe Drive)	
La Palma, CA 90623)	
Attention: Darrell Fah)	

YOU ARE HEREBY GIVEN NOTICE THAT:

1. Atlantic Richfield Company (ARCO) is alleged to have violated provisions of law for which the California Regional Water Quality Control Board, Santa Ana Region (Board) must impose mandatory penalties pursuant to California Water Code (Water Code) Section 13385(h).
2. A hearing concerning this Complaint is scheduled for the Board's regular meeting on December 20, 2004. ARCO or its representatives will have an opportunity to appear and be heard, and to contest the allegations in this complaint and the imposition of a mandatory penalty by the Board. An agenda announcement and the staff report related to this Complaint will be mailed to you not less than 10 days prior to the hearing date.
3. If the hearing is necessary, the Board will consider whether to affirm, reject or modify the proposed mandatory penalty or whether to refer this matter to the Attorney General for recovery of judicial civil liability.
4. This complaint is based on the following facts:
 - a) ARCO currently operates a service station at 5981 Warner Avenue, in the City of Huntington Beach. A remediation system treats and discharges groundwater to mitigate the effects of an underground storage tank release at the site.
 - b) On January 23, 2002, the Board adopted Waste Discharge Requirements, Order No. 2002-0007 (NPDES No. CAG918001), General Groundwater Cleanup Permit (Permit), which regulates discharges of extracted and treated groundwater resulting from the cleanup of petroleum hydrocarbons and/or solvents within the Santa Ana Region by establishing effluent limits for a number of constituents, including tertiary butyl alcohol (TBA).
 - c) On July 16, 2002, ARCO was authorized to discharge treated groundwater resulting from its groundwater treatment system under Order R8-2002-0007

and was required to monitor the discharge in accordance with Monitoring and Reporting Program No. 2002-0007-089.

- d) On October 22, 2003, the Board adopted Order No. 2003-0085, which amended maximum daily effluent limit concentrations for a number of compounds, including TBA, and established effluent limits for other chemical constituents, including perchlorate and 1,4-dioxane. The discharger was notified of these revisions.
 - e) ARCO has submitted a self-monitoring report, which indicates that it discharged effluent containing tertiary butyl alcohol (TBA) at concentrations of 56 micrograms per liter ($\mu\text{g/l}$) on March 3, 2004. This concentration exceeds the daily effluent limitation for TBA of 34 $\mu\text{g/l}$ specified in the waste discharge requirements, Order No. R8-2003-0085. This exceedence is a serious violation as defined under Water Code Section 13385(h) and is subject to a mandatory minimum penalty.
5. Water Code Section 13385(h) requires the Board to assess a mandatory minimum penalty of three thousand dollars (\$3,000) for each serious violation.
 6. In accordance with Water Code Section 13385(h), the mandatory minimum penalty for the violation cited in Section 4, above, is \$3,000.
 7. In addition, the Board may also assess administrative civil liability of \$10,000 per day for each day of violation and \$10 per gallon for each gallon discharged in excess of 1,000 gallons in accordance with Water Code Section 13385(c). The maximum administrative civil liability that may be imposed for these violations is \$24,260 (\$10,000 for one day of violation and \$14,260 based on $2,426 - 1,000 = 1,426$ gallons @ \$10 per gallon).
 8. The Executive Officer proposes that mandatory minimum penalty of \$3,000 be imposed on ARCO, by the Board, for the violations cited above.
 9. You may waive your right to a hearing. If you wish to waive this right, please sign the attached waiver form and return it, along with a check for \$3,000 made payable to the State Water Resources Control Board and the bottom portion of the invoice, to Sacramento in the enclosed envelope.

If you have any questions regarding this complaint, please contact Ken Williams at (951) 782-4496, or Valerie Jahn-Bull at (951) 782-4903, or the Board's legal counsel, Jorge Leon, at (916) 341-5180.
