As circulated for public comment, Finding 21 of the Tentative Resolution provided as follows:

As of the date of this Resolution, the United Parties are substantively and/or partially complying with Required Actions 1(c), 2(c), 3(c), 4(c) and 5(c), such that judicial enforcement against the E-Z Serve Parties is not warranted at this time with respect to the Commingled Plume Area. Based on subsequent developments, Finding 21 should be revised as follows:
