

**2017-18 Fee Schedules**

**CALIFORNIA CODE OF REGULATIONS  
TITLE 23. Division 3. Chapter 9. Waste Discharge Reports and Requirements  
Article 1. Fees**

**Section 2200. Annual Fee Schedules.**

Each person for whom waste discharge requirements have been prescribed pursuant to Section 13263 of the Water Code shall submit, to the state board, an annual fee in accordance with the following schedules. The fee shall be submitted for each waste discharge requirement order issued to that person.<sup>1</sup>

(a) The annual fees for persons issued waste discharge requirements (WDRs), except as provided in subdivisions (a)(3), (a)(4), (b), and (c), shall be based on the discharge's threat to water quality (TTWQ) and complexity (CPLX) rating according to the following fee schedule, plus applicable surcharge(s). For Fiscal Year 2017-18, Land Disposal dischargers will receive a 12.6 percent fee reduction of the calculated fee, prior to the addition of any applicable surcharge.

<b>ANNUAL FEE SCHEDULE FOR WASTE DISCHARGE REQUIREMENTS</b>				
<b>Threat to Water Quality (TTWQ)</b>	<b>Complexity (CPLX)</b>	<b>Type of Discharge</b>		
		<b>Discharge to Land or Surface Waters<sup>2</sup></b>	<b>Land Disposal<sup>3</sup></b>	
			<b>Not Paying a Tipping Fee<sup>4</sup></b>	<b>Paying a Tipping Fee<sup>5</sup></b>
1	A	\$109,095	\$70,781 <sup>6</sup>	\$59,252 <sup>6</sup>
1	B	\$68,901	\$57,168	\$47,856
1	C	\$37,178	\$36,751	\$30,766
2	A	\$24,833	\$30,625	\$25,638
2	B	\$14,929	\$24,502	\$20,510
2	C	\$11,195	\$18,376	\$15,383
3	A	\$8,823	\$12,250	\$10,256

<sup>1</sup> Federal facilities will generally not be invoiced for the portion of the annual fee that is attributable to the state board's ambient water monitoring programs. See *Massachusetts v. United States* (1978) 435 U.S. 444.

<sup>2</sup> For this table, discharges to land or surface waters are those discharges of waste to land or surface waters not covered by NPDES permits that are regulated pursuant to Water Code Section 13263 that do not implement the requirements of Title 27 of the California Code of Regulations (CCR). Examples include, but are not limited to, wastewater treatment plants, erosion control projects, and septic tank systems. It does not include discharge of dredge or fill material, discharges from agricultural lands, including irrigated lands, or discharge from animal feeding operations.

Dischargers covered by a WDR for municipal and domestic discharges with permitted flows of less than 50,000 gallons per day in categories 2-B, 2-C, 3-B and 3-C will receive a 50 percent fee discount. The design flow shall be used where no permitted flow is present. Municipal and domestic discharges receiving the discount are defined as discharges from facilities that treat domestic wastewater or a mixture of wastewater that is predominately domestic wastewater. Domestic wastewater consists of wastes from bathroom toilets, showers, and sinks from residential kitchens and residential clothes washing. It does not include discharges from food preparation and dish washing in restaurants or from commercial laundromats. Dischargers covered by a Landscape Irrigation General Permit issued by the state board will be assessed a fee associated with TTWQ/CPLX rating of 3B.

<sup>3</sup> For this table, land disposal discharges are those discharges of waste to land that are regulated pursuant to Water Code Section 13263 that implement the requirements of CCR Title 27, Division 2, except Chapter 7, Subchapter 2, §22560-22565 (confined animal facilities). Examples include, but are not limited to, discharges associated with active and closed landfills, waste piles, surface impoundments, and mines.

<sup>4</sup> For this table, Not Paying a Tipping Fee are those land disposal dischargers not subject to Public Resources Code (PRC) § 48000 et seq.

<sup>5</sup> For this table, Paying a Tipping Fee are those land disposal dischargers subject to PRC § 48000 et seq.

<sup>6</sup> A surcharge of \$12,000 will be added for Class I landfills. Class I landfills are those that, during the time they are, or were, in operation, are so classified by the regional board under 23 CCR Chapter 15, have WDRs that allow (or, for closed units, allowed) them to receive hazardous waste, and have a permit issued by the Department of Toxic Substances Control under 22 CCR Chapter 10, § 66270.1 et seq.

## 2017-18 Fee Schedules

3	B	\$4,699	\$9,188	\$7,690
3	C	\$2,088	\$4,082	\$3,419

Oil and gas produced water storage and disposal facilities regulated by waste discharge requirements are subject to a surcharge according to the following schedule:

TTWQ & CPLX Rating	Surcharge per Barrels of Waste Water Discharged in the Prior 12 Months		
	No Barrels	1 to 999,999 Barrels	1,000,000 or more Barrels
<b>1A</b>	\$600	\$1,000	\$50,000
<b>1B</b>	\$600	\$1,000	\$50,000
<b>1C</b>	\$600	\$1,000	\$50,000
<b>2A</b>	\$600	\$1,000	\$40,000
<b>2B</b>	\$600	\$1,000	\$30,000
<b>2C</b>	\$600	\$1,000	\$10,000
<b>3A</b>	\$600	\$1,000	\$4,000
<b>3B</b>	\$600	\$1,000	\$2,000
<b>3C</b>	\$600	\$600	\$600

(1) Threat to water quality (TTWQ)<sup>7</sup> and complexity (CPLX) of the discharge is assigned by the regional board in accordance with the following definitions:

### THREAT TO WATER QUALITY

Category “1” – Those discharges of waste that could cause the long-term loss of a designated beneficial use of the receiving water. Examples of long-term loss of a beneficial use include the loss of drinking water supply, the closure of an area used for water contact recreation, or the posting of an area used for spawning or growth of aquatic resources, including shellfish and migratory fish.

Category “2” – Those discharges of waste that could impair the designated beneficial uses of the receiving water, cause short-term violations of water quality objectives, cause secondary drinking water standards to be violated, or cause a nuisance.

Category “3” – Those discharges of waste that could degrade water quality without violating water quality objectives, or could cause a minor impairment of designated beneficial uses as compared with Category 1 and Category 2.

### COMPLEXITY

Category “A” – Any discharge of toxic wastes; any small volume discharge containing toxic waste; any facility having numerous discharge points and groundwater monitoring; or any Class 1 waste management unit.

<sup>7</sup> In assigning a category for TTWQ, a regional board should consider duration, frequency, seasonality, and other factors that might limit the impact of the discharge.

## 2017-18 Fee Schedules

Category “B” – Any discharger not included in Category A that has physical, chemical, or biological treatment systems (except for septic systems with subsurface disposal), or any Class 2 or Class 3 waste management units.

Category “C” – Any discharger for which waste discharge requirements have been prescribed pursuant to Section 13263 of the Water Code not included in Category A or Category B as described above. Included are dischargers having no waste treatment systems or that must comply with best management practices, dischargers having passive treatment and disposal systems, or dischargers having waste storage systems with land disposal.

(2) For dischargers covered under Statewide General WDRs for Sanitary Sewer Systems, the TTWQ and CPLX designations are assigned based on the population served by the sanitary sewer system. The table below describes the correlation between population served and TTWQ and CPLX designations to determine the appropriate annual fee:

Population Served <sup>8</sup>	Threat and Complexity Designation
Less than 50,000	3C
50,000 or more	2C

(3) The fees for discharges of dredge and fill material shall be as follows.<sup>9</sup>

<b>STANDARD FEE<sup>10</sup></b>			
Discharge Category	Application Fee <sup>11</sup>	Project Fee	Annual Fee <sup>12</sup>
<b>(A) Fill and Excavation<sup>13</sup> Discharges</b> Discharge area expressed in acres rounded to two decimal places (0.01 acre)	\$1,500	Impact area in acres x \$13,268, minus application fee, up to a maximum of \$130,000 (if balance equals less than the application fee, no fee is required).	\$1,500

<sup>8</sup> Assumes 2.5 persons per equivalent dwelling unit (EDU).

<sup>9</sup> Fees shall be based on impact amounts to be authorized by the order. Impacts include both the excavation and fill area and the dredging area. If water quality certification is issued in conjunction with dredge or fill WDRs or issued for a discharge regulated under preexisting WDRs for the same project, the project will be assessed a single fee derived from this dredge and fill fee schedule. Discharges requiring certification and regulated under a federal permit or license other than a US Army Corps of Engineers Clean Water Act Section 404 permit or a Federal Energy Regulatory Commission License shall be assessed a fee determined from Section 2200(a).

<sup>10</sup> Fees shall be based on the sum of project impacts. Projects that include both category (A) and category (B) discharges shall be subject to the category (A) application and project fees. A single annual fee shall be assessed based on the higher of the applicable annual fee categories.

<sup>11</sup> Dischargers shall pay a one-time application fee for each project at the time that the application or report of waste discharge is submitted.

<sup>12</sup> Consistent with Section 2200.2, the sum of the Application Fee and the Project Fee shall serve as the first annual fee. If the submittal of this first annual fee does not coincide with the current fiscal year billing cycle, then the next, and only the next, fiscal year billing shall be adjusted to account for the payment of the Application Fee and the Project Fee. The annual fee for category (B) dredging discharges will be calculated using the annual dredge volume authorized in the applicable Order.

<sup>13</sup> “Excavation” refers to removing sediment or soil in shallow waters or under no-flow conditions, typically for purposes other than navigation. Examples include, but are not limited to, trenching for utility lines; other earthwork preliminary to discharge; removing sediment to increase channel capacity; and other flood control and drainage maintenance activities (e.g., debris removal, vegetation management and removal, detention basin maintenance and erosion control of slopes along open channels and other drainage facilities).

## 2017-18 Fee Schedules

<b>(B) Dredging<sup>14</sup> Discharges</b> (except Sand Mining-see (C) below) Dredge volume expressed in cubic yards.	\$1,500	N/A	Annual dredge volume in cubic yards x \$0.328, up to a project maximum of \$130,000. The minimum annual fee is \$1,500.
<b>SPECIAL/FLAT FEE<sup>15</sup></b>			
<b>Discharge Category</b>		<b>Application Fee<sup>11</sup></b>	<b>Annual Fee</b>
<b>(C) Sand Mining Dredging Discharges</b> Aggregate extraction in marine waters where source material is free of pollutants and the dredging operation will not violate any basin plan provisions.	\$1,500	\$720	
<b>(D) Ecological Restoration and Enhancement Projects</b> Projects undertaken for the sole purpose of restoring or enhancing the beneficial uses of water. This schedule does not apply to projects required under a regulatory mandate or to projects that are not primarily intended for ecological restoration or enhancement, e.g., land development. This category does not include mitigation banking or in-lieu fee programs.	\$400	\$200	
<b>(E) Low Impact Discharges</b> Projects may be classified as low impact discharges if they meet all of the following criteria: <ol style="list-style-type: none"> <li>1. The discharge size is less than all of the following: (a) for fill, 0.1 acre, and 200 linear feet, and (b) for dredging, 25 cubic yards.</li> <li>2. The discharger demonstrates that: (a) all practicable measures will be taken to avoid impacts; (b) where unavoidable temporary impacts take place, waters and vegetation will be restored to pre-project conditions as quickly as practicable; and (c) where unavoidable permanent impacts take place, there will be no net loss of wetland, riparian area, or headwater functions, including onsite habitat, habitat connectivity, floodwater retention, and pollutant removal.</li> <li>3. The discharge will not do any of the following: (a) directly or indirectly destabilize a bed of a receiving water; (b) contribute to significant cumulative effects; (c) cause pollution, contamination, or nuisance; (d) adversely affect candidate, threatened, or endangered species; (e) degrade water quality or beneficial uses; (f) be toxic; or (g) include "hazardous" or "designated" material.</li> </ol>	\$1,500	\$200	
<b>(F) Emergency Projects Authorized by a Water Board General Order</b>	\$1,500	\$200	
<b>(G) Amended Orders</b> Amendments of WDRs or water quality certifications previously issued. <ol style="list-style-type: none"> <li>(a) Minor project changes, not requiring technical analysis and involving only minimal processing time.</li> <li>(b) Changes to projects eligible for flat fees (fee categories C and D) where technical analysis is needed to assure continuing eligibility for flat fee and that beneficial uses are still protected.</li> <li>(c) Project changes not involving an increased discharge amount, but requiring some technical analysis to assure that beneficial uses are still protected and that original conditions are still valid, or need to be modified.</li> <li>(d) Project changes involving an increased discharge amount and requiring some technical analysis to assure that beneficial uses are still protected and that original conditions are still valid, or need to be modified.</li> <li>(e) Major project changes requiring an essentially new analysis and re-issuance of WDRs or water quality certification.</li> </ol>	(a) No fee required  (b) \$300 flat fee  (c) \$200 flat fee  (d) Additional standard fee assessed per increased amount of discharge(s)  (e) New standard fee assessed		

<sup>14</sup> "Dredging" refers to removing sediment or aquatic vegetation in deeper water, typically for navigation purposes. For fee purposes, this fee category includes aggregate extraction within stream channels, where the substrate is composed of coarse sediment (e.g., gravel) and is reshaped by normal winter flows (e.g., point bars).

<sup>15</sup> To qualify for a special/flat fee category, the whole of a project must meet the fee category description (i.e., all project discharges are limited to those defined by the fee category).

## 2017-18 Fee Schedules

(b) The annual fees for persons issued NPDES permits shall be based on the following schedules, plus any applicable surcharge(s).

(1)(A) Each public entity that owns and/or operates a storm water conveyance system, or part of such a system, that is subject to a NPDES permit for storm water discharges from a municipal separate storm sewer system (MS4) shall pay an annual fee according to the following schedule. The fee shall be based on the population of the public entity according to the most recently published United States Census. For public entities other than cities or counties (Non-Traditional Small MS4s<sup>16</sup>), shall pay an annual fee according to the following schedule, based on the average daily population<sup>17</sup> using the entities' facilities, unless otherwise provided in the schedule. Flood control districts or other special districts named as co-permittees to MS4 permits and school districts, serving students between kindergarten and fourteenth grade, shall not pay an annual fee if the city or county within whose jurisdiction the district lies, pays an annual fee.

<b>ANNUAL FEE SCHEDULE FOR AREAWIDE MUNICIPAL STORM WATER SEWER SYSTEM PERMITS AND CO-PERMITTEES</b>	
Population equal to or greater than 250,000	\$56,921
Population between 200,000 and 249,999	\$49,805
Population between 150,000 and 199,999	\$42,974
Population between 100,000 and 149,999	\$35,577
Population between 75,000 and 99,999	\$28,461
Population between 50,000 and 74,999	\$21,344
Population between 25,000 and 49,999	\$14,230
Population between 10,000 and 24,999	\$8,539
Population between 1,000 and 9,999	\$5,692
Less than 1,000 population	\$2,847
Statewide Permit Holders	\$227,682
High Speed Rail Authority	\$133,500

(B) Dischargers applying for the Small MS4 Waiver of a General Permit to Discharge Storm Water Associated with Small Municipal Activity issued by the state board shall pay an application fee of \$200.

(2) Any entity or entities submitting a watershed improvement plan to the regional board for review pursuant to Section 16102 of the Water Code shall reimburse the regional board for its costs<sup>18</sup> to review and oversee the implementation of the plan, which shall be calculated using a rate of \$150.00 per hour.

(3) Facilities that discharge storm water associated with industrial activities that are regulated by a state board or regional board general NPDES storm water permit shall pay an annual fee of \$1,400. An amount equal to the fee prescribed shall be submitted with the discharger's Notice of Intent (NOI) to be regulated under a general NPDES permit and will serve as the first annual fee. For the purposes of this section, an NOI is considered to be a report of waste discharge.

<sup>16</sup> Non-Traditional Small MS4s are facilities that have systems similar to separate storm sewer systems in municipalities, such as systems at military bases, large hospital or prison complexes, and highways and other thoroughfares. (40 C.F.R. § 122.26(b)(16)(iii)).

<sup>17</sup> Total daily population must include resident and commuter populations. For community services districts, total daily population must include resident population and non-residents regularly employed in the areas served by the district.

<sup>18</sup> These costs include labor, state board and regional board administrative costs, and overhead costs.

## 2017-18 Fee Schedules

(4)(A) Storm water discharges associated with construction activities that are regulated by a general NPDES storm water permit other than those covered under (b)(5), including those issued by a regional board, shall pay an annual fee of \$400 plus \$42 per acre (rounded to the nearest whole acre and dollar amount), to a maximum fee of \$6,700, based on the total acreage to be disturbed during the life of the project as listed on the NOI. An amount equal to the fee prescribed shall be submitted with the discharger's NOI to be regulated under a general NPDES permit and will serve as the first annual fee. For the purposes of this section, an NOI is considered to be a report of waste discharge.

(B) Dischargers applying for the Small Construction Rainfall Erosivity Waiver of a General Permit to Discharge Storm Water Associated with Construction Activity issued by the state board shall pay an application fee of \$200.

(5) Discharges associated with mosquito and vector control activities<sup>19</sup> that are regulated by an individual or general NPDES permit adopted specifically for these purposes, including those issued by a regional board, shall pay a fee of \$241. Dischargers filing an application for a mosquito and vector control permit shall pay a fee of \$241. The fee shall be paid each time an application for initial certification or renewal of certification is submitted. Mosquito and vector control fees are not subject to ambient water monitoring surcharges.

(6) Planned and emergency discharges from community water systems that are regulated by a general NPDES permit adopted specifically for this purpose shall pay an application fee and subsequent annual fees (if applicable) based on the number of service connections for the public water system in accordance with the following schedule. The application fee shall be submitted with the discharger's NOI to be regulated by the general NPDES permit. For purposes of this section, an NOI is considered to be a report of waste discharge.

<b>Dischargers with a Single System</b>		
<b>Service Connections</b>	<b>Application Fee</b>	<b>Annual Fee</b>
15 – 999	\$100	No Annual Fee
1,000 – 9,999	\$500	\$500
10,000+	\$2,062	\$2,062
Transmission System or Water Wholesaler	\$2,062	\$2,062

<sup>19</sup> A mosquito and vector control activity involves discharge of pesticides into a designated area for the maintenance and control of mosquito larva for the protection of public health from the outbreak of lethal diseases. A mosquito and vector control agency discharges pesticides into surface waters for the control of mosquito larva.

## 2017-18 Fee Schedules

Dischargers with Multiple Systems		
Total Number of Service Connections	Application Fee	Annual Fee <sup>20</sup>
15 – 999	\$100	No Annual Fee
1,000 – 9,999	\$500	\$500 per Primary System fee plus \$100 per Secondary System
10,000+	\$2,062	\$2,062 per Primary System fee plus \$100 per Secondary System
Transmission System or Water Wholesaler System	\$2,062	\$2,062 per Primary System fee plus \$100 per Secondary System

(7) Discharges from public wastewater treatment facilities that are regulated by a general NPDES permit adopted specifically for this purpose and all other NPDES permitted discharges, except as provided in (b)(8), (b)(9), and (c), shall pay a fee according to the following formula:

Fee equals \$2,062 plus 3,646 multiplied by the permitted flow, in mgd, with a maximum fee of \$515,537 plus any applicable surcharge(s).

If there is no permitted effluent flow specified, the fee shall be based on the design flow of the facility.

NPDES permitted industrial discharges<sup>21</sup> with a threat/complexity<sup>22</sup> rating of 1A, 1B, or 1C are subject to a surcharge as follows:

- Threat/Complexity Rating 1A - \$15,000
- Threat/Complexity Rating 1B - \$10,000
- Threat/Complexity Rating 1C - \$5,000

Public wastewater treatment facilities with approved pretreatment programs are subject to a surcharge of \$10,000. Agencies with multiple facilities under one approved pretreatment program shall pay a \$10,000 surcharge per program.

(8)(A) Flow for wet weather municipal facilities<sup>23</sup> will be based on the previous five years' actual monthly average flow<sup>24</sup>, as of the date the permit is issued.

(B) Notwithstanding (8)(A), the minimum annual fee for wet weather municipal facilities shall be \$20,000.

<sup>20</sup> All Transmission Systems and Water Wholesaler Systems are Primary Systems. If the Discharger does not have a Transmission System or a Water Wholesaler System, the Discharger's individual water system with the highest number of service connections will be designated as the Primary System. All systems that are not Primary Systems are designated as Secondary Systems.

<sup>21</sup> NPDES permitted industrial discharger(s) means those industries identified in the Standard Industrial Classification Manual, Bureau of Budget, 1967, as amended and supplemented, under the category "Division D-Manufacturing" and such other classes of significant waste producers as, by regulation, the U.S. EPA Administrator deems appropriate. (33 USC Sec. 1362).

<sup>22</sup> Threat/complexity categories are listed under (a)(1) of this document.

<sup>23</sup> Wet weather municipal facilities are intermittently operated facilities that are designated specifically to handle flows during wet weather conditions.

<sup>24</sup> The actual monthly average flow is defined as the average of the flows during each of the months that the discharge occurred during the previous five-year period.

## 2017-18 Fee Schedules

(9) All other general NPDES permits and de minimis discharges<sup>25</sup> that are regulated by an individual or general NPDES permit, including those issued by a regional board, shall pay a fee as follows:

Category 1 – Discharges that require treatment systems to meet priority toxic pollutant limits and that could impair beneficial uses if limits are violated: \$11,877

Category 2 – Discharges that require treatment systems to meet non-priority pollutant limits, but are not expected to impair beneficial uses if limits are violated. Examples of non-priority pollutants include, but are not limited to, nutrients, inorganic compounds, pH, and temperature: \$7,177

Category 3 – Discharges that require minimal or no treatment systems to meet limits and pose no significant threat to water quality: \$2,062

---

<sup>25</sup> De minimis discharge activities include, but are not limited to, the following: aquaculture activities (as defined in Chapter 40, Section 122.25(b) of the Code of Federal Regulations) defined as managed water areas that use discharges of pollutants into that designated area for maintenance or reproduction of harvestable freshwater, estuarine, or marine plants or animals including fish hatcheries; geothermal facilities that utilize, extract, or produce energy from geothermal fluids for heating, generating power, or other beneficial uses, and discharge geothermal fluids to surface waters; aquatic pesticide applications; evaporative condensate; swimming and landscape pool drainage; discharges from fire hydrant testing or flushing; discharges resulting from construction dewatering; discharges associated with supply well installation, development, test pumping, and purging; discharges resulting from the maintenance of uncontaminated water supply wells, pipelines, tanks, etc.; discharges resulting from hydrostatic testing of water supply vessels, pipelines, tanks, etc.; discharges resulting from the disinfection of water supply pipelines, tanks, reservoirs, etc.; discharges from water supply systems resulting from system failures, pressure releases, etc.; discharges of non-contact cooling water, not including steam/electric power plants; discharges resulting from diverted stream flows; water treatment plant discharges; and other similar types of wastes that have low pollutant concentrations and are not likely to cause or have a reasonable potential to cause or contribute to an adverse impact on the beneficial uses of receiving waters yet technically must be regulated under an NPDES permit.

## 2017-18 Fee Schedules

(c) The annual fees for waste discharge requirements and waivers of waste discharge requirements for discharges from confined animal facilities shall be based on the following schedules.

<b>FEEDLOTS (not at a dairy)</b>	
<b>Type of Facility</b>	
<b>Number of Animals</b>	<b>Fee</b>
<b>Cattle or Cow/Calf Pairs</b>	
100,000 or more	\$9,937
10,000 to 99,999	\$4,968
5,000 to 9,999	\$2,649
1,000 to 4,999	\$1,324
100 to 999	\$663
0 to 99	\$0
<b>Calves</b>	
10,000 or more	\$4,968
5,000 to 9,999	\$2,649
1,000 to 4,999	\$1,324
300 to 999	\$663
0 to 299	\$0
<b>Heifers</b>	
10,000 or more	\$9,937
5,000 to 9,999	\$4,968
1,000 to 4,999	\$2,649
300 to 999	\$1,324
100 to 299	\$663
0 to 99	\$0
<b>Finishing Yards/Auction Yards</b>	
1,000 or more	\$2,649
300 to 999	\$1,324
100 to 299	\$663
0 to 99	\$0

<b>DAIRIES</b>	
<b>Type of Facility</b>	
<b>Number of Animals</b>	<b>Fee</b>
<b>Mature Dairy Cattle</b>	
3,000 or more	\$13,248
1,500 to 2,999	\$8,279
700 to 1,499	\$3,974
300 to 699	\$1,987
150 to 299	\$994
50 to 149	\$497
0 to 49	\$0
<b>Goat Dairies</b>	
1,000 or more	\$1,324
550 to 999	\$663
0 to 549	\$0
<b>OTHER</b>	
<b>HOGS</b>	
<b>Swine (&gt; 55 pounds)</b>	
5,000 or more	\$4,968
2,500 to 4,999	\$2,649
750 to 2,499	\$1,324
150 to 749	\$663
0 to 149	\$0
<b>Swine (&lt; 55 pounds)</b>	
20,000 or more	\$4,968
10,000 to 19,999	\$2,649
3,000 to 9,999	\$1,324
300 to 2,999	\$663
0 to 299	\$0
<b>Horses</b>	
500 or more	\$2,649
150 to 499	\$1,324
75 to 149	\$663
0 or 74	\$0
<b>Sheep or Lambs</b>	
10,000 or more	\$2,649
3,000 to 9,999	\$1,324
550 to 2,999	\$663
0 to 549	\$0

## 2017-18 Fee Schedules

<b>POULTRY</b>		
<b>Number of Animal Equivalent Units (AEU)</b>	<b>Discharges with Low Threat to Water Quality<sup>26</sup></b>	<b>All Other Discharges</b>
2000+	\$2,319	\$6,623
700 - 1,999	\$1,656	\$3,313
300 - 699	\$1,159	\$2,485
10 - 299	\$663	\$1,324
2 - 9	\$332	\$663
0 - 1	\$0	\$0

<b>Animal Count to Animal Equivalent Unit (AEU) Conversion Matrix</b>		
<b>Animal Type</b>	<b>AEU Multiplier</b>	<b>Number of Animals per AEU</b>
Chicken - layer	0.004	250
Chicken - broiler	0.005	200
Duck	0.008	125
Turkey	0.015	67

(1) Facilities that are certified under a Quality Assurance Program approved by the state board or under a County regulatory program approved by the appropriate regional board, will receive a 50 percent fee reduction. Any facility that is issued a notice of violation by a regional board for an off-property discharge shall not be eligible to receive this fee reduction for a minimum of one billing cycle, and for all subsequent billing cycles until recertification and all corrective actions are complete as determined by the regional board.

(2) Facilities that pose no potential to discharge, as determined by a regional board, shall pay a fee of \$200. The fee shall be paid each time an application for initial certification or renewal of certification is submitted.

(3) Facilities that are required to submit a report of waste discharge (ROWD) while the facility is under construction and remains so subsequent to the billing cycle will have the annual fee waived until the facility is in operation and animals are present at the facility.

(4) Facility closures that are required to maintain a permit until all requirements are met shall continue to be assessed a fee based at the same rate as when the facility was in operation.

---

<sup>26</sup> These fees apply to discharges from poultry operations that are identified as posing a "low threat to water quality" in the applicable waste discharge requirements or waiver of waste discharge requirements.

## 2017-18 Fee Schedules

(5) Facilities covered under a waste discharge requirement or waiver of waste discharge requirement that do not pay annual fees shall pay an application fee for initial coverage and renewals of coverage of \$200. The fee shall be paid each time an application for coverage or report of waste discharge is submitted.

Note: Authority cited: Sections 185 and 1058 of the Water Code. Reference: Section 13260 of the Water Code.

### **Section 2200.1.**

The state board shall notify each discharger annually of the fee to be submitted, the basis upon which the fee was calculated, and the date upon which the fee is due.

Note: Authority cited: Sections 185 and 1058 of the Water Code. Reference: Section 13260 of the Water Code.

### **Section 2200.2.**

Persons proposing a new discharge shall submit to the state board or regional board a report of waste discharge. Unless Section 2200 provides otherwise, or the discharger is specifically instructed otherwise by the state board, a fee equal in amount to the annual fee based on the fee schedules in Section 2200 shall be submitted with the discharger's report of waste discharge. Except as otherwise provided in Section 2200, this fee shall serve as the first annual fee. If the submittal of this first annual fee does not coincide with the current fiscal year billing cycle, then the next, and only the next, fiscal year billing shall be adjusted to account for the payment of a full annual fee that accompanied the discharger's report of waste discharge. Persons proposing a material change in an existing discharge are not required to submit a fee with the report of waste discharge.

Note: Authority cited: Sections 185 and 1058 of the Water Code. Reference: Section 13260 of the Water Code.

### **Section 2200.3.**

Failure to pay the annual fee is a misdemeanor and will result in the state board or regional board seeking the collection of fees through the enforcement provisions provided pursuant to Water Code Section 13261.

Note: Authority cited: Sections 185 and 1058 of the Water Code. Reference: Section 13261 of the Water Code.

### **Section 2200.4.**

Any refund made pursuant to Water Code Section 13260(e) or for any other reason, shall withhold sufficient funds to cover actual staff time spent in reviewing the report of waste discharge, which shall be calculated using a rate of \$100.00 per hour.

Note: Authority cited: Sections 185 and 1058 of the Water Code. Reference: Section 13260 of the Water Code.

## 2017-18 Fee Schedules

### Section 2200.5. No Exposure Certification.

Dischargers filing an application for a No Exposure Certification (NEC) shall pay a fee of \$150 for each facility for which an application is submitted, as prescribed in a general industrial storm water permit. The fee shall be paid each time an application for initial certification or renewal of certification is submitted. NEC fees are not subject to any surcharges.

Note: Authority cited: Sections 185 and 1058 of the Water Code. Reference: Sections 13260 and 13260.2 of the Water Code.

### Section 2200.6. Annual Agricultural and Irrigated Lands Fee Schedule.

(a) Annual fees for waste discharge requirements and waivers of waste discharge requirements for discharges from agricultural lands<sup>1</sup>, including irrigated lands, shall be as follows:

(1) Tier I: If a discharger is a member of a group that has been approved by the state board to manage fee collection and payment, then the fee shall be \$100 per group plus \$0.87 per acre of land.

(2) Tier II: If a discharger is a member of a group that has been approved by the state board but that does not manage fee collection and payment, then the fee shall be \$100 per farm plus \$1.47 per acre of land.

(3) Tier III: If a discharger is not a member of a group that has been approved by the state board, the following fee schedule applies:

Acres	Fee Rate	Min Fee	Max Fee
0-10	\$469 + \$15.66/Acre	\$469	\$625
11-100	\$1,172 + \$7.77/Acre	\$1,257	\$1,949
101-500	\$3,123 + \$3.94/Acre	\$3,521	\$5,095
501 or More	\$6,245 + \$3.13/Acre	\$7,815	No Max Fee

(b) Upon approval by the regional board to join a group subject to waste discharge requirements or waivers of waste discharge requirements for discharges from agricultural lands, including irrigated lands, the discharger shall submit to the state board an application fee, unless such fee is not required by the regional board. The application fee is a one-time fee of \$200 for dischargers that have received a written request to submit an application or report of waste discharge, and \$50 for all other dischargers. This application fee shall not apply to dischargers who were members of a group on or before June 30, 2008.

(c) For purposes of this section, the words "agricultural lands," "irrigated lands," "farm," and "discharger" have the meaning contained in the applicable regional board or state board waste discharge requirements or waiver of waste discharge requirements for discharges from agricultural lands, including irrigated lands. These fees shall apply whether or not a regional board or the state board has previously waived the payment of fees for the discharge of waste.

<sup>1</sup> As used in this section, the acreage on which the fee is based refers to the area that has been irrigated or cultivated by the farmer or discharger at any time in the previous five years.

Note: Authority cited: Sections 185 and 1058 of the Water Code. Reference: Section 13260 and 13269 of the Water Code.

**2017-18 Fee Schedules**

**2200.7. Annual Fee Schedule for Cannabis Cultivation.**

(a) Annual fees for waste discharge requirements and waivers of waste discharge requirements for discharges associated with cannabis cultivation shall be as follows:

(1) Category 1: If a discharger is not a member of a group that has been approved by the appropriate regional board, the following fee schedule applies:

<b>Tier</b>	<b>Discharge Threat<sup>1</sup></b>	<b>Annual Fee</b>
1	Low Threat to Water Quality	\$1,000
2	Moderate Threat to Water Quality	\$2,500
3	Elevated Threat to Water Quality	\$10,000

(2) Category 2: If a discharger is a member of a group that has been approved by the appropriate regional board, the following fee schedule applies:

<b>Tier</b>	<b>Discharge Threat<sup>1</sup></b>	<b>Annual Fee<sup>2</sup></b>
1	Low Threat to Water Quality	\$700
2	Moderate Threat to Water Quality	\$1,750
3	Elevated Threat to Water Quality	N/A

<sup>1</sup> As assigned by the appropriate regional board.

<sup>2</sup> Dischargers in Tier 3 may join a third-party group, but must pay the Category 1 fee unless the regional board subsequently assigns the Discharger to a lower tier. Any Discharger that is required by the regional board to take corrective action shall be subject to the fee schedule in Category 1 for a minimum of one billing cycle, and for all subsequent billing cycles until all corrective actions are complete as determined by the regional board.

(b) Annual fees for dischargers covered under Statewide General Waste Discharge Requirements for Discharges of Waste Associated with Cannabis Cultivation shall be as follows:

(1) Tier 1 – Dischargers that have a disturbed area greater than 2,000 square feet and less than one acre:

<b>Risk Designation</b>	<b>Annual Fee</b>
Low Risk	\$600
Moderate Risk	\$1,800
High Risk	\$4,800

(2) Tier 2 – Dischargers that have a disturbed area equal to or greater than one acre:

<b>Risk Designation</b>	<b>Annual Fee</b>
Low Risk	\$1,000
Moderate Risk	\$3,000
High Risk	\$8,000

(3) Waiver of Waste Discharge Requirements – Dischargers with indoor cultivation sites or conditionally exempt sites shall pay an application fee for initial coverage and renewals of coverage of \$600. The fee shall be paid each time an application for coverage is submitted.

Note: Authority cited: Sections 185 and 1058 of the Water Code. Reference: Sections 13260 and 13269 of the Water Code.

## 2017-18 Fee Schedules

### **2200.8. General Requirements for the Use of Recycled Water.**

Any person who serves as an Administrator under a General Order authorizing the use of recycled water shall pay an annual fee in accordance with the threat/complexity ratings in Section 2200(a)(1) for each recycled water program that the person administers. The first annual fee shall be submitted with the Notice of Intent to be covered by the General Order.

Note: Authority cited: Sections 185 and 1058 of the Water Code. Reference: Section 13260 of the Water Code.

### **2200.9. Annual Fee Schedule for Waivers of Waste Discharge Requirements.**

(a) Any person for whom waste discharge requirements have been waived pursuant to Section 13269 of the Water Code shall submit an annual fee to the state board if a fee is specified for the waiver in this section. These fees shall apply whether or not a regional board or the state board has previously waived the payment of fees for the discharge of waste.

(b) [reserved]

Note: Authority cited: Sections 185 and 1058 of the Water Code. Reference: Section 13260 and 13269 of the Water Code.
