

## **Notice of Section 401 Application Reception**

**File Number:** 362020-17

**Project Name:** Vila Borba Off-Site Drainage Basin Project

**Date Application Date Posted:** 6/29/2021

**Received:** 12/30/2020

**Project City:** Chino Hills

**Project County:** San Bernardino

**Applicant Organization:** Lennar Corporation

**Applicant Name:** Craig Moraes

**Waterboard Staff:** TBA

### **Brief Description of Project:**

Project Description: To mitigate peak flows for the 100-year, 24-hour storm event.

Project Activities: Restricting structure, access road and bypass pipe installation. The 336-acre Vila Borba development (WDR No. R8-2007-0011) was designed to utilize and modify the existing City of Chino Hills' Off-site Drainage Basin and road culvert to mitigate peak flows for the 100- year, 24-hour storm event. The modifications will consist of installation of a restricting structure, installation of a paved access road and forebay expansion to stabilize the structure and allow for regular sediment and vegetation removal, and installation of a secondary overflow storm drain (approximately 1.83 acres).
