Brief Description of Project:

Project Description: To perform preventive maintenance on the Graham Street Bridge over Wintersburg Channel and rehabilitate the bridge to facilitate continued use of the bridge for vehicular and pedestrian access and meet current standards of public health and safety.

Project Activities: To perform preventive maintenance on the Graham Street Bridge. The following activities are proposed: 1) Replacement or rehabilitation of the concrete barrier and chain link fence on both sides of the bridge to contain damage in existing barrier and fence posts; 2) Replacement of the deteriorated joint seals in the sidewalk and barriers to prevent water leakage through the joints from entering the channel below the bridge; 3) Removing unsound concrete and repairing deteriorated concrete portions of the bridge piers and abutment walls at select local zones with deterioration.
