

## **Notice of Section 401 Application Reception**

**File Number:** 332023-04

**Project Name:** Second Street Improvement

**Received:** 3/22/2023

**Date Posted:** 3/29/2023

**End of 21 Day Public Comment Period:** 4/19/2023

**Project City:** Beaumont

**Project County:** Riverside

**Applicant Organization:** City of Beaumont

**Applicant Name:** Jeff Hart

**Waterboard Staff:** TBA

### **Brief Description of Project:**

**Project Description:** The City of Beaumont plans to alleviate traffic congestion on 1st Street between Highland Springs and Pennsylvania Avenue by extending 2nd Street, from the westerly boundary of the Home Depot shopping center to the proposed intersection at Pennsylvania Avenue.

**Project Activities:** The improvements include extending 2nd Street approximately 1,622 linear feet from the current terminus at the westerly boundary of First Street Self and RV Storage, to Pennsylvania Avenue. Also, this project entails widening approximately 846 linear feet of 2nd Street from its current terminus to the westerly boundary of the Home Depot shopping center. The project will require construction of a new storm drain facility and may require improvements to existing drainage. Cozad & Fox, Inc. will design a road section over the existing culvert and design new culverts for the water crossings on the west side of the project. The designed culverts will convey the proper water flow to the requirements set forth by the City of Beaumont and the Riverside County Flood Control and Water Conservation District. The roadway will be designed to be functional as well as compliant with the approved cross section.
