

Notice of Intent Application Reception

File Number: 332023-26

Project Name: Calimesa Boulevard Realignment Project

Received: 9/08/2023

Date Posted: 9/14/2023

End of 21 Day Public Comment Period: 10/05/2023

Project City: Calimesa

Project County: Riverside

Applicant Organization: The City of Calimesa

Applicant Name: Will Kolbow

Waterboard Staff: TBA

Brief Description of Project:

Project Description: At the time the City's 2013 General Plan update was prepared, the Circulation Element classified Calimesa Boulevard as a four-lane major arterial that could be improved to a four to six-lane major arterial road within its existing alignment. Within the project site, Singleton Road is classified as a two-lane major arterial road that is proposed as a four-lane to six-lane major arterial road within its existing alignment. As part of the project, the proposed modifications include realigning an approximately 0.6-mile portion of Calimesa Boulevard, such that the intersection of Calimesa Boulevard and Singleton Road would be located approximately 300 feet to the east of its existing location and approximately 400 feet from the 1-10 westbound ramps.

Project Activities: In compliance with the improvements identified in the General Plan, Calimesa Boulevard and Singleton Road would remain classified as four-lane to six-lane major arterials and both would be widened to approximately 75 feet. Singleton Road would remain in its current alignment and would be widened to a length of approximately 700 feet. A portion of an existing open concrete channel on the north side of Calimesa Boulevard would be replaced with a box culvert and headwalls.
