

## **Notice of Waste Discharge Requirements (WDR) Application Reception**

**File Number:** 362025-13

**Project Name:** San Timoteo Sanitary Landfill Stockpile 3 Project

**Received:** 4/21/2025

**Date Posted:** 4/23/2025

**End of 21 Day Public Comment Period:** 5/14/2025

**Project Location:** 34.012621° N, -117.215119° W

**Project City and County:** Redlands, San Bernardino

**Applicant Organization:** San Bernardino County Department of Public Works, Solid Waste Management Division

**Applicant Name:** Marc Rodabaugh

**Waterboard Staff:** TBA

### **Brief Description of Project:**

**Project Description:** The Stockpile 3 Project will allow establishment of a stockpile area and continued operation as regional Class III landfill.

**Project Activities:** The permitted area of the STSL consists of two units and includes Unit 1 that is closed, Unit 2 Phases 1, 2, 3-1, 3-2, 4, and Unit 2 Phase 5 that is proposed for construction. The current active working face for landfilling is occurring in Unit 2 Phases 1, 2, 3-1, 3-2, and 4 that located on the southwestern side limit of disturbance associated with the landfill (Figure 2). During the construction of Unit 2 Phase 5, there will be 2,620,000 cubic yards of excavated earthen materials that would have to be stockpiled in an area designated as Stockpile 3, which is within the landfill site limits but outside the current permit limits of disturbance (Figure 2). During excavation of Unit 2 Phase 5, the current trash haul road would be used by excavators to remove materials from Unit 2 Phase 5 and to create Stockpile 3. The public and contract trash disposers would use an existing road on the western side of the landfill to access Phase 4 for trash disposal.
