Subject: Poseidon Huntington Beach Cumulative Impacts Study
Attachments: Cumulative Impacts Analysis for Poseidon Project final.pdf

Hi Milasol,

I am submitting the attached Cumulative Impacts Study for the Poseidon Project for your consideration in the Regional Board's Ocean Plan Compliance determination and NPDES permit renewal for the Poseidon Huntington Beach Project. In summary the report documents the lack of a comprehensive cumulative impacts analysis on the Huntington Beach Wetlands from Poseidon or the three other adjacent and concurrent projects in the area. It is Coastkeeper's opinion that a comprehensive cumulative impacts analysis for the Poseidon project is necessary for the Regional Board to adequately review the project and that the Regional Board should conduct such an analysis. Additionally the report has specific comments on the Impingement and Entrainment analysis used in the mitigation calculations for the project. Please let me know if you have any questions regarding the report.
