### NOTICE OF PUBLIC HEARING

#### PROPOSED GENERAL WASTE DISCHARGE REQUIREMENTS FOR AQUIFER STORAGE AND RECOVERY PROJECTS THAT INJECT DRINKING WATER INTO GROUNDWATER

**NOTICE IS HEREBY GIVEN** that the State Water Resources Control Board (State Water Board) will hold a public hearing to receive public comments on proposed General Waste Discharge Requirements for Aquifer Storage and Recovery Projects that Inject Drinking Water into Groundwater (General Order) and an associated Initial Study/Mitigated Negative Declaration. The State Water Board may adopt the General Order and Mitigated Negative Declaration at the end of the hearing. The location and time of the public hearing is provided below.

**Wednesday, September 19, 2012 – 9:00 a.m.**  
**Joe Serna Jr.-Cal/EPA Headquarters Building**  
**Coastal Hearing Room**  
**1001 I Street, Second Floor**  
**Sacramento, CA 95814**

#### **BACKGROUND**

Some water agencies treat water to meet drinking water standards at an existing water treatment plant and then pump the treated water through one or more injection wells into an aquifer. The stored water is later extracted from the aquifer as needed, treated again, if necessary, and conveyed to water users through the agency's distribution system. The purpose of the proposed General Order is to achieve consistent regulation of these aquifer storage and recovery (ASR) projects statewide and to streamline the permitting process.

#### **AVAILABILITY OF DOCUMENTS**

The proposed General Order, Monitoring and Reporting Program, and Draft Initial Study/Mitigated Negative Declaration are available on the State Water Board's web site at: [http://www.waterboards.ca.gov/water\\_issues/programs/asr/index.shtml](http://www.waterboards.ca.gov/water_issues/programs/asr/index.shtml)
