Subject: Solana Beach Council / Important Water Action Item for HOAs and all SB and Lomas Santa Fe HOA residents

As a homeowner and resident of Solana Beach, I object to the continued overreaching and un-needed water restrictions being imposed on the residents of Solana Beach by both our state and local government. I have obliged to every request and restriction to date and have cut back on my use of water. What is there to show for it? Higher water rates, fines/penalties, and more restrictions.

I have an irrigation line in my back yard that at one time allowed for re-claimed water to be used for our slopes and back yards. That pipe was cut many years ago, yet re-claimed water still feeds the golf course which can only get to it via the easements on our properties.
