

Update on Emergency Water Conservation Regulation

Office of Research, Planning, and Performance

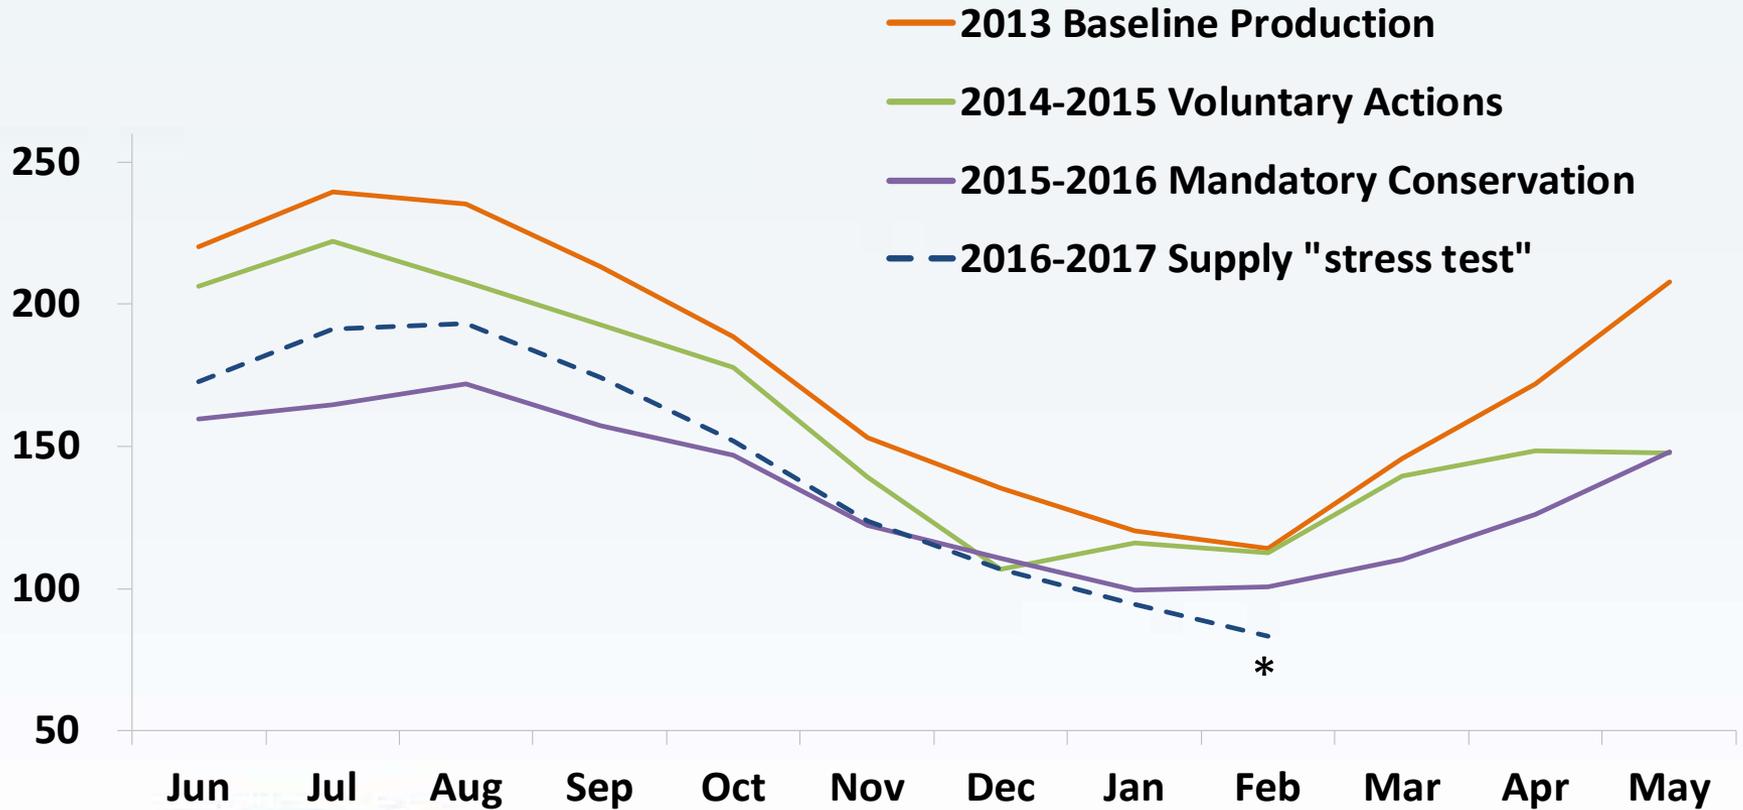

April 4, 2017 – Item 8

February 2017 Status of Implementation

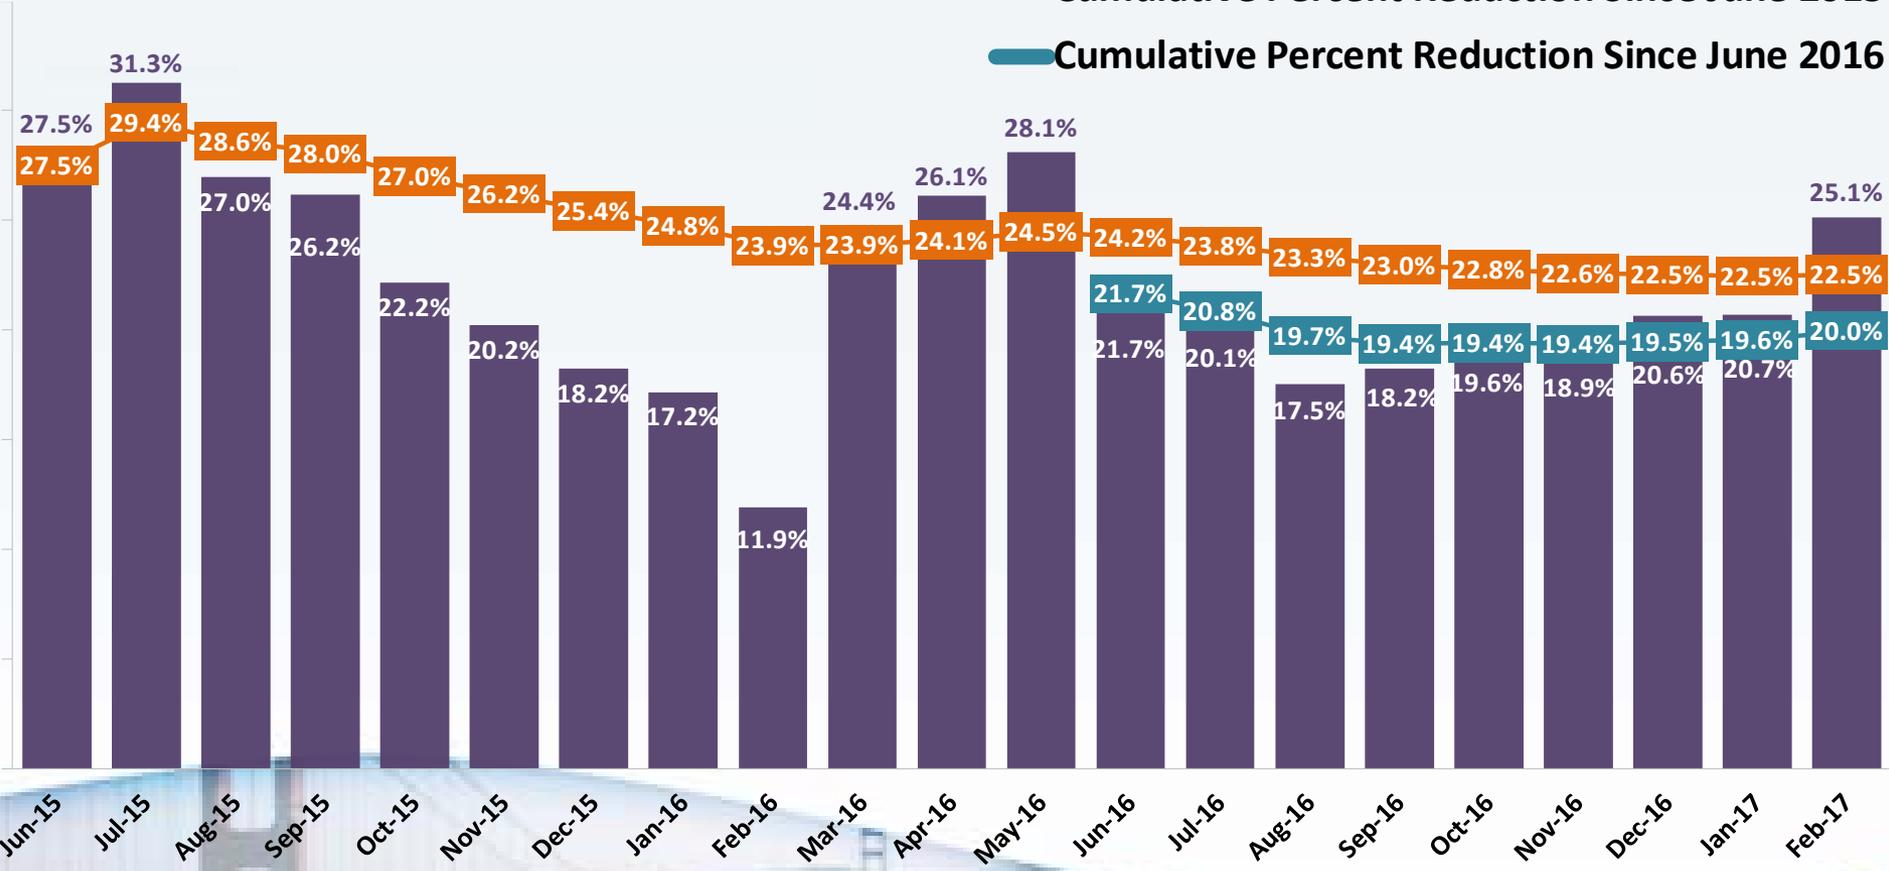

Statewide Urban Water Production (Billion gallons)

* Tentative February 2017 water production (95% suppliers reporting)

Statewide Water Production Percent Reduction (Compared to 2013)

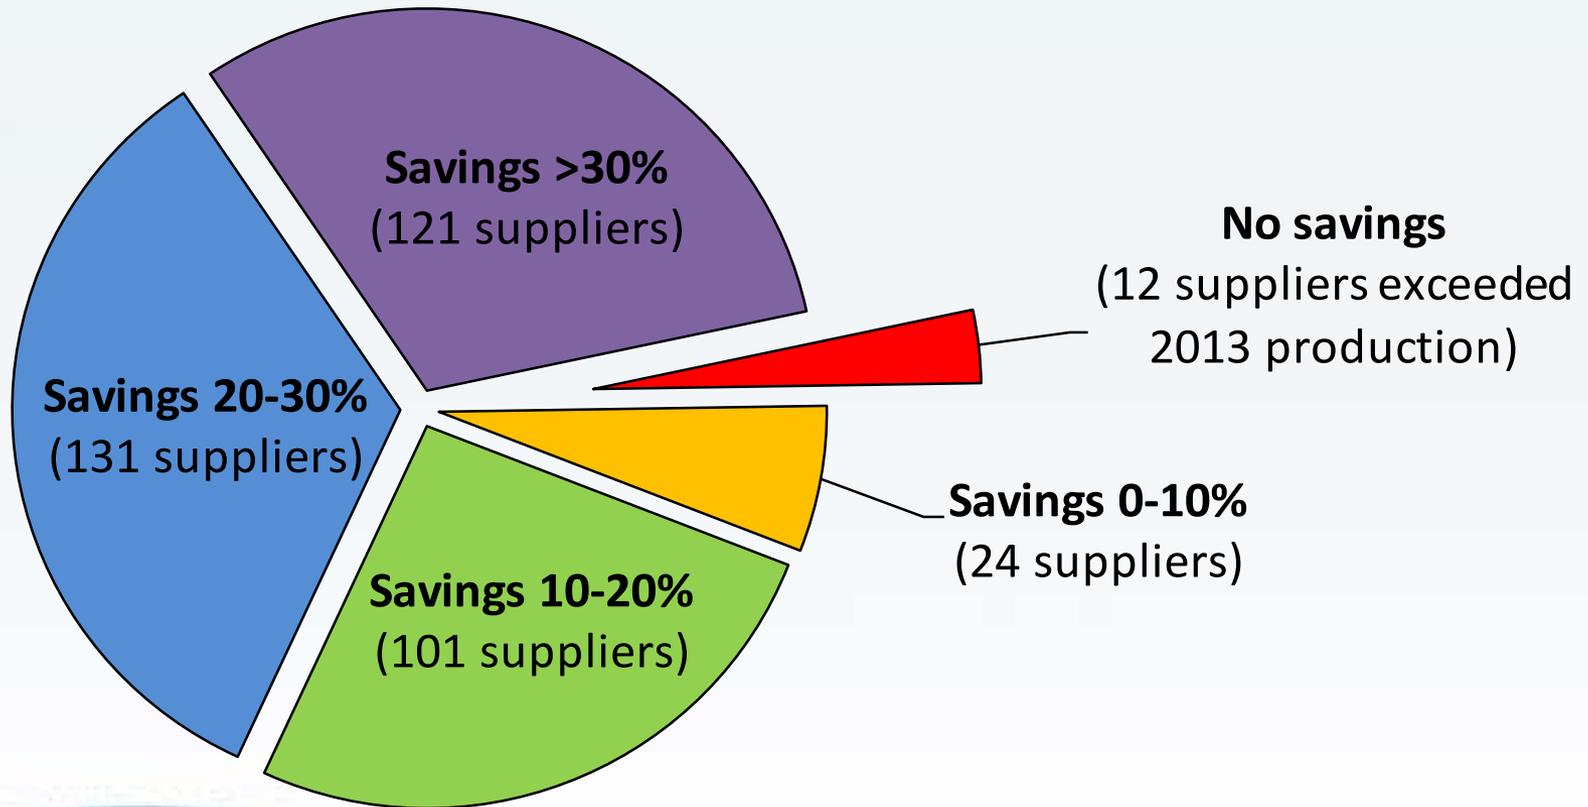

- Monthly Percent Reduction
- Cumulative Percent Reduction Since June 2015
- Cumulative Percent Reduction Since June 2016

Average Statewide February 2017 R-GPCD = 57.5

Monthly Water Savings Achieved by Suppliers

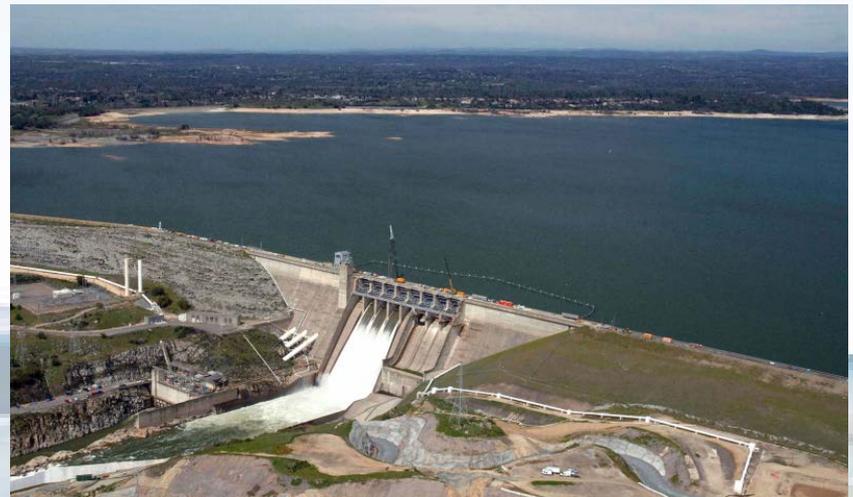

(February 2017)

Statewide Cumulative Savings

(June 2015 – February 2017)

- 22.5 percent since June 2015: 2,597,681 acre-feet (846.5 billion gallons)
 - Enough to provide 34% of state population with water for one year
- *20 percent since June 2016: 988,452 acre feet (322.1 billion gallons)*

Conservation Compliance & Enforcement

Progressive enforcement to achieve compliance.

Since June 2015, Office of Enforcement has issued:

- 12 Conservation Orders (3 remain in effect)
- 7 Alternative Compliance Orders (4 remain in effect)
- 9 Informational Orders (supply “stress tests”)
- 4 Administrative Civil Liability (ACLs) fines:
 - One paid, 3 Supplemental Environmental Projects (SEPs)

Supplemental Environmental Projects (SEPs)

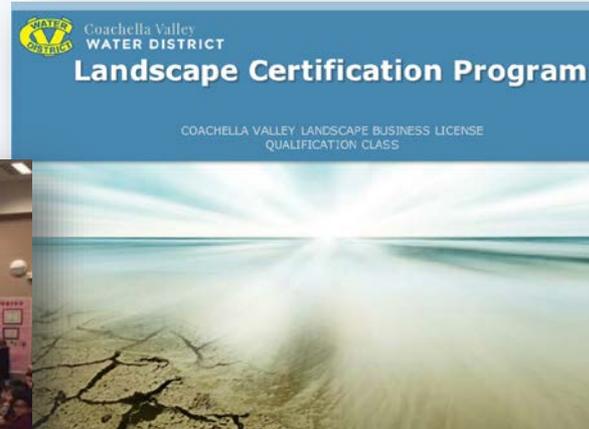

Indio Water Authority

- Public outreach & customer portal
- Completed in December 2016

Coachella Valley Water District

- Certified landscaper program
- Completed in March 2017

City of Redlands

- Irrigation retrofit rebate
- Educational program for school-aged children & families
- Completion expected in Summer 2017
