

Urban Water Conservation Report for August 2017

Informational Item 5

October 3, 2017

EMERGENCY conservation regulation

Drought proclamation lifted, and regulation partially rescinded in April 2017. Part of regulation remains in effect through November 25:

- Prohibits wasteful water uses
- Requires monthly reporting

August 2017 **URBAN USE**

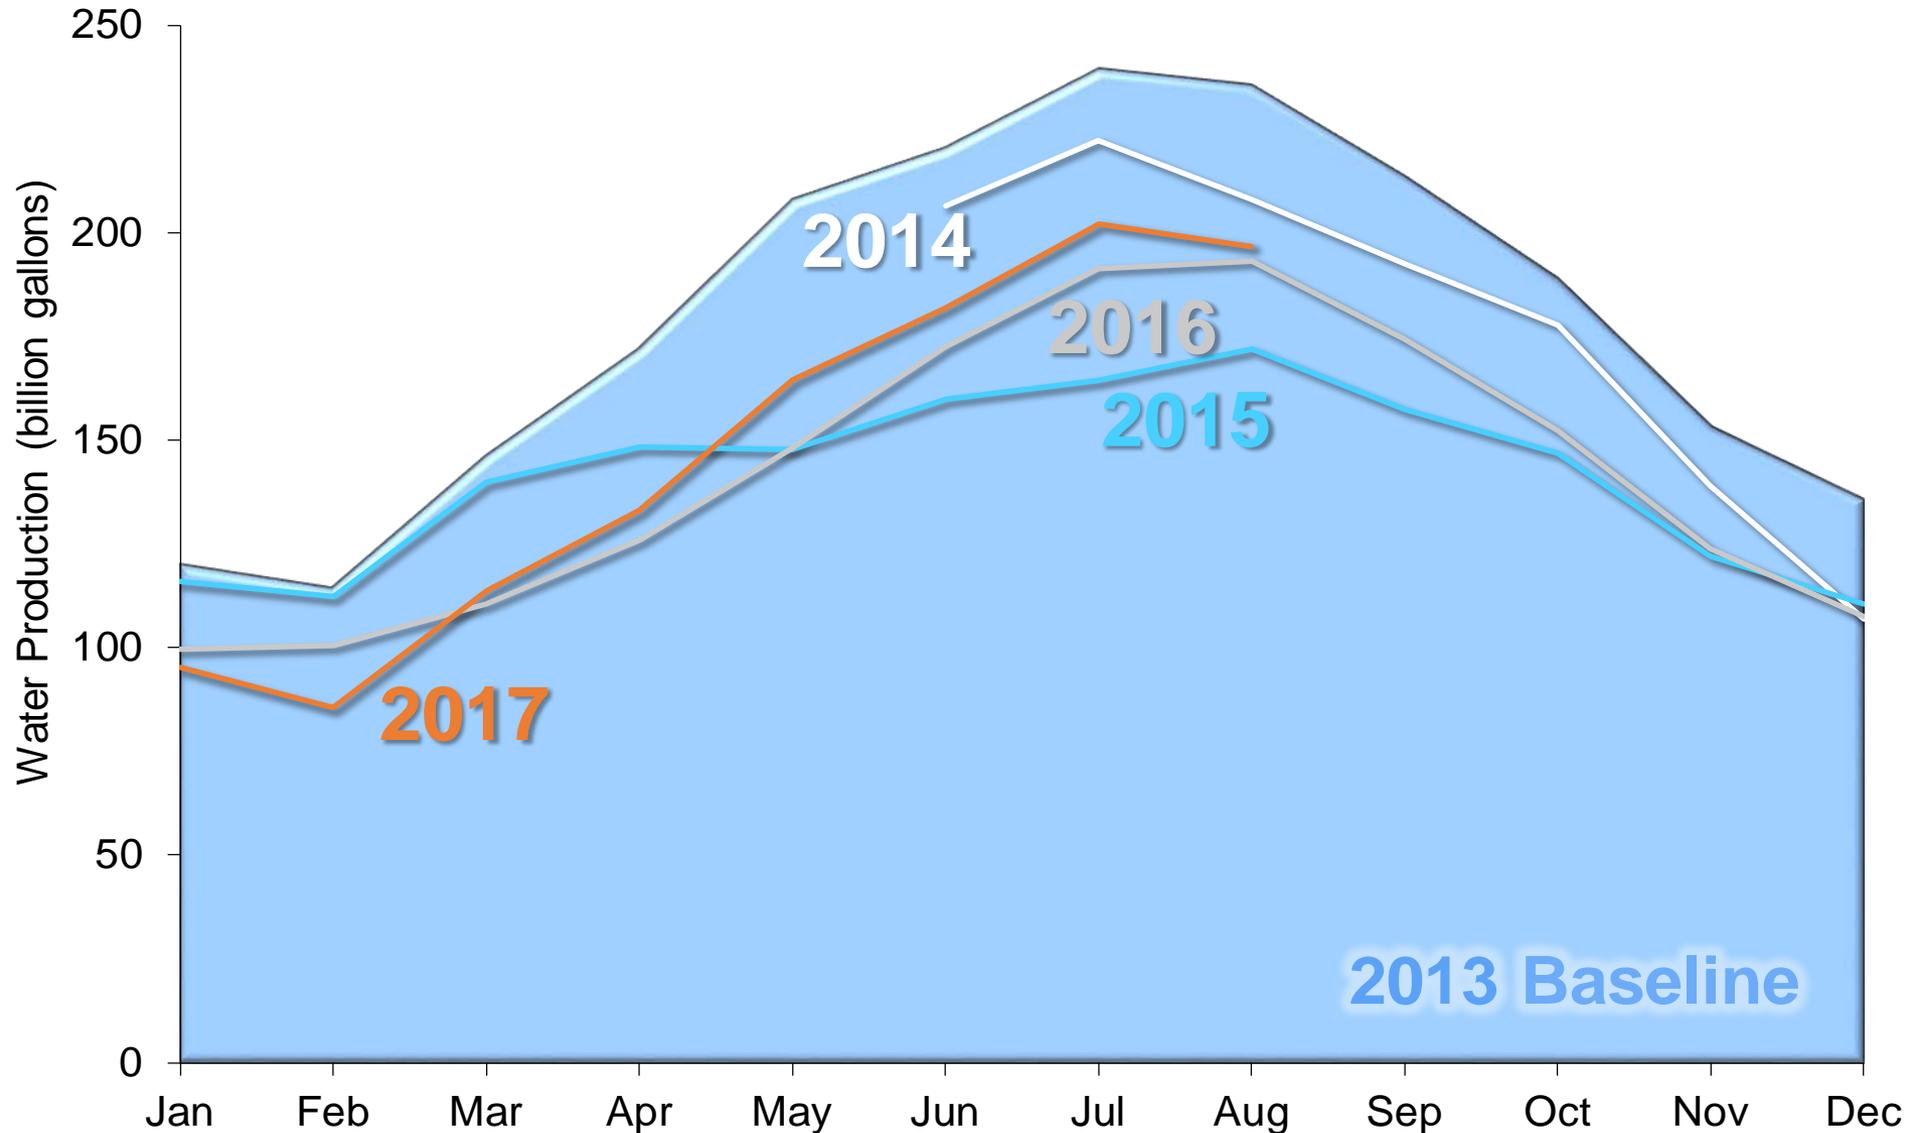

96% of suppliers reporting.

34 billion gallons saved
(104,330 acre-feet).

Enough for 521,000 people.

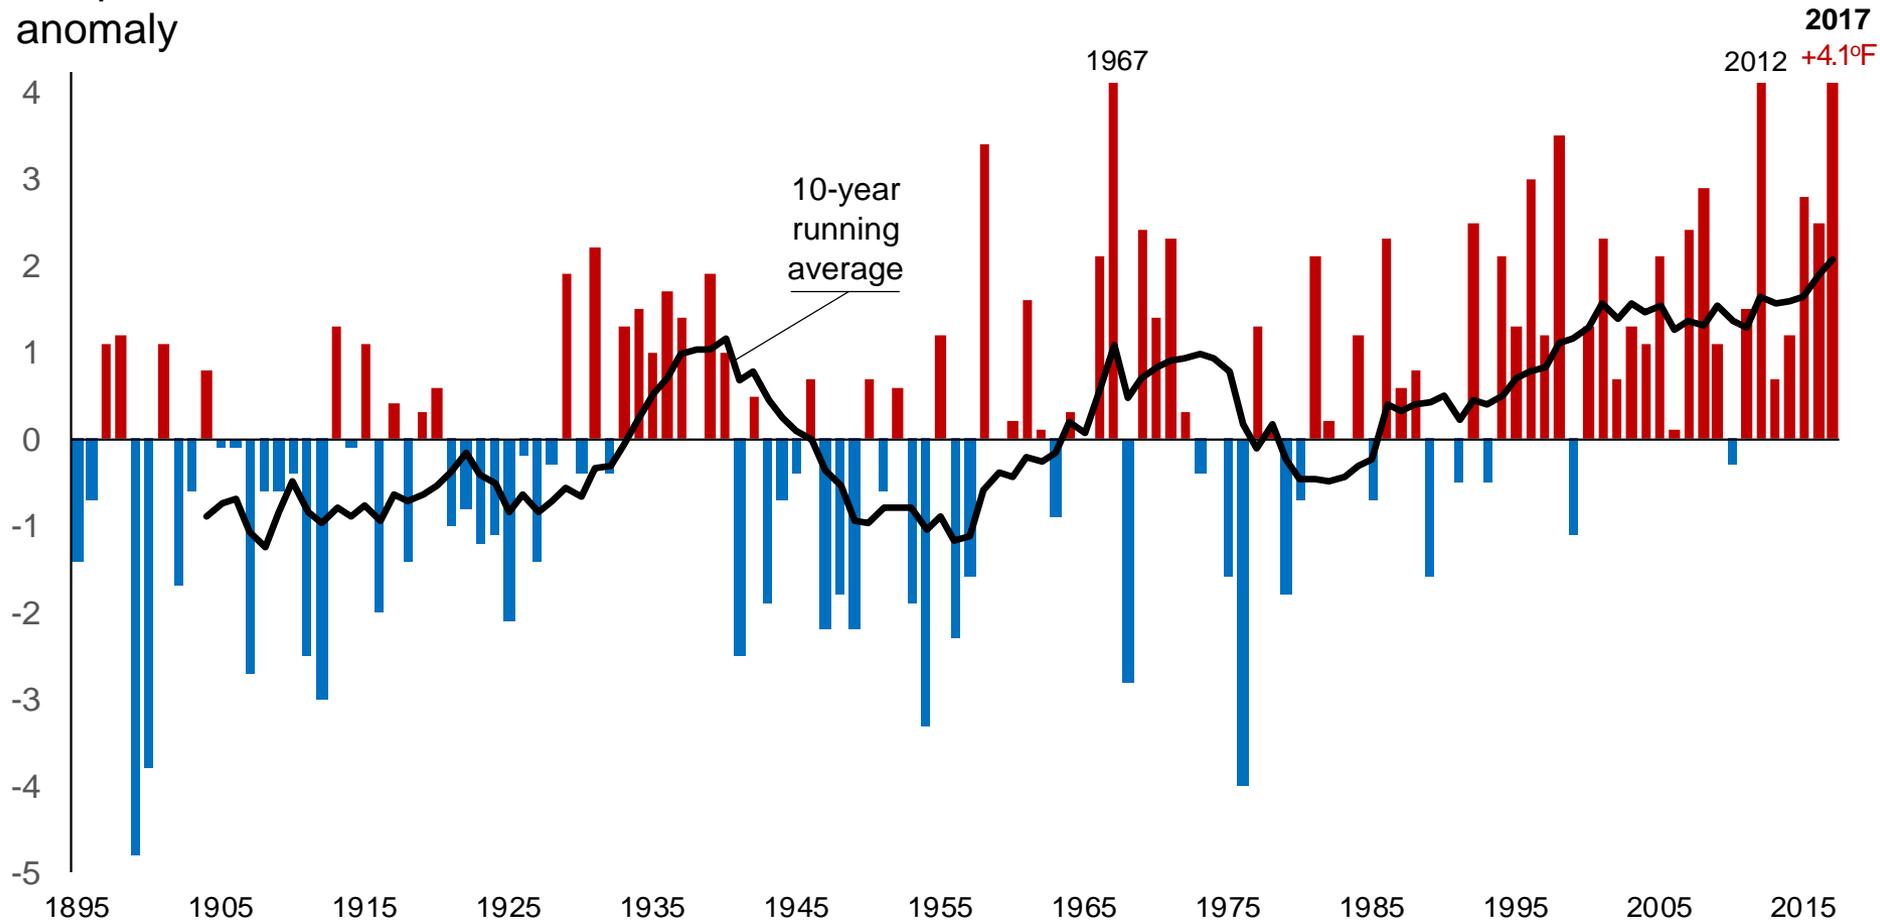

California urban water production

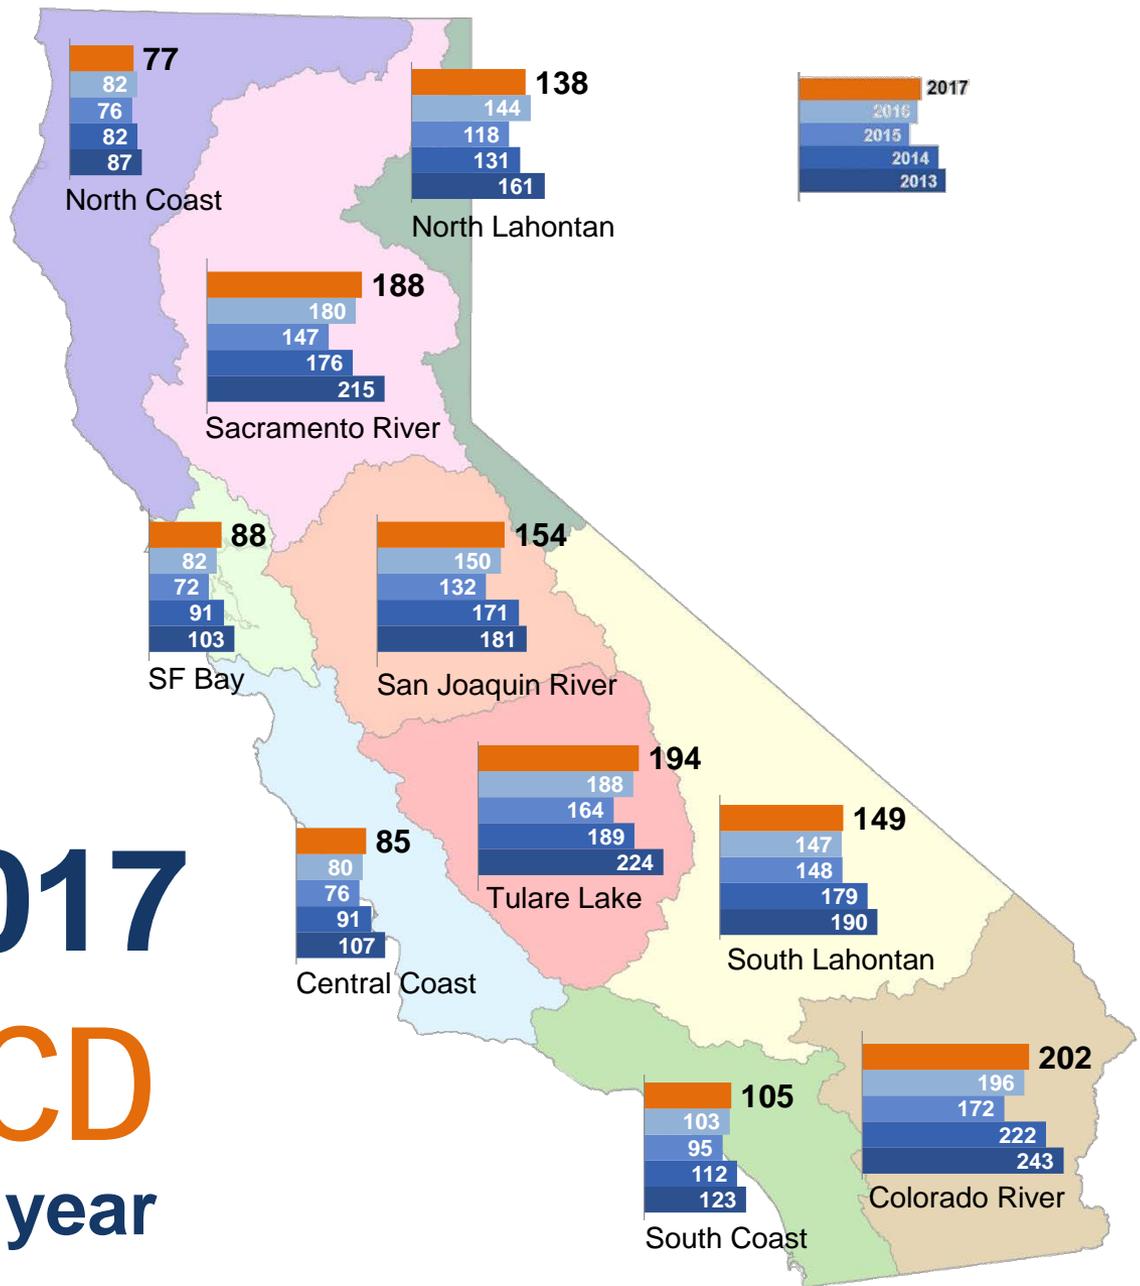

August 2017 Statewide

Tied for the hottest August on record

Temperature anomaly

August 2017
117 RGPCD
3% more than last year

Next STEPS

Follow-up with non-reporters

Develop long-term regulation for reporting and prohibitions

Continue conservation reporting
