Dear Members of the State Water Control Board

I am commenting on your proposed "Wetland and Riparian Area Protection Policy"

Of the 4 alternatives that the Board is considering, as potential ways to protect California's wetlands, I am in strong agreement with alt. 4. Please specify Alternative 4 as your Preferred Alternative. It is the only alternative that will adequately protect our state's valuable wetlands & streamside riparian areas.

Like many other concerned Californians, I have been alarmed in recent years as too many California wild places specifically wetlands, including seasonal wetlands, have been paved over or otherwise destroyed for development. As our population grows, now is the time to assure strong regulations to keep our wetlands intact.

Thank for supporting alternate 4.

Sincerely,

Victoria N. Hoover
