## State Water Resources Control Board

---

### CLEAN WATER ACT SECTION 401 WATER QUALITY CERTIFICATION ORDER NO. WQ 2021-0038-DWQ AND NOTICE OF APPLICABILITY FOR ENROLLMENT UNDER STATE WATER BOARD GENERAL ORDER FOR THE CORPS' NATIONWIDE PERMITS (ORDER NO. [WQ] 2020-0039-EXEC)

---

**Effective Date:** September 1, 2021

**Program Type:** Fill/Excavation

**Project Type:** Oil and Gas

**Project:** eTs 45579 L406MP 17.76 Aggen Span Maintenance  
Regulatory Measure ID: 444036  
WDID: SB21021IN

**Applicant:** Southern California Gas Company  
**Applicant Contact:** Albert J. Garcia  
Director of Environmental Services  
555 West 5<sup>th</sup> Street  
Los Angeles, CA 90013  
Phone: (213) 244-2958  
Email: AGarcia6@socalgas.com

**State Water Board Staff:** Ashley Powell  
Environmental Scientist  
1001 I Street  
Sacramento, CA 95814  
Phone:  
Email: Ashley.Powell@Waterboards.ca.gov

**State Water Board Contact Person:**

For further assistance, please call State Water Resources Control Board (State Water Board) Staff listed above or (916) 341-5478 and ask to speak with the Wetlands Permitting and Enforcement II Unit Supervisor.

This document serves as a Notice of Applicability (NOA) for enrollment under the State Water Board General Order for the Nationwide Permits (Order No. [WQ] 2020-0039-EXEC; SWRCB ID SB20031GN; hereafter referred to as the General Order) at the request of Southern California Gas Company (Applicant). The General Order can be accessed at [the Clean Water Act Section 401 - Certification and Wetlands Program, General Orders webpage](https://www.waterboards.ca.gov/water_issues/programs/cwa401/generalorders.html#yr_2020) (https://www.waterboards.ca.gov/water\_issues/programs/cwa401/generalorders.html#yr\_2020). On July 28, 2021, the State Water Board received a complete Notice of Intent (NOI) requesting authorization for the Applicant's eTs 45579 L406MP 17.76 Aggen Span Maintenance Project (Project). The Applicant submitted a certification request as defined by 40 CFR section 121.5 concurrently to the State Water Board and Corps on August 17, 2021. After reviewing the NOI, the State Water Board has determined that the Project meets General Order requirements for Nationwide Permit 12: Oil or Natural Gas Pipeline Activities.

This order also serves as an individual certification of the Corps Nationwide Permit 12 under the authority of Clean Water Act Section 401.

### **I. Project Description**

As described in the Project NOI and supplemental information (hereafter referred to as the Application), which is incorporated herein by reference, the purpose of the Project includes vegetation removal, pipeline inspection, paint abatement, coating removal, and recoating that requires temporary scaffolding installation.

### **II. Project Location**

The Project is located approximately 0.3 miles east of Prince Road and 0.6 miles north of CA 118/East Los Angeles Avenue, in Somis, Ventura County, California. The Project coordinates are 34.256095°N, -119.044814°W.

### **III. Receiving Waters Information**

The Project is located within the jurisdiction of the Los Angeles Regional Water Quality Control Board. Receiving waters and groundwater potentially impacted by this Project are listed in Table 1. These waters are regulated in accordance with the applicable water quality control plan (Basin Plan) for the region and other plans and policies of the California Water Boards, which may be accessed online at [the State Water Boards' Plans and Policies webpage](http://www.waterboards.ca.gov/plans_policies/) (http://www.waterboards.ca.gov/plans\_policies/).

**Table 1: Receiving Water Information**

Impact Site ID	Waterbody Name	Impacted Aquatic Resource Type	Water Board Hydrologic Units	Receiving Waters	Receiving Waters Beneficial Uses	303(d) Listing Pollutants
Drainage 1	Honda Barranca	Stream Channel	180701030 106	Calleguas Creek Reach 5	FRSH, WARM, WILD Potential: MUN	ChemA, Chlordane, Chlorpyrifos, DDT, Diazinon, Dieldrin, Endosulfan, Nitrogen, PCBs, Sedimentation /Siltation, Toxaphene, Toxicity, Trash

**IV. Direct Impacts to Waters of the State**

Total Project fill/excavation quantities for all impacts are summarized in Table 2.

**Table 2: Total Project Fill/Excavation Quantity to Stream Channels**

Temporary Impact <sup>1</sup>	Permanent Impact - Physical Loss of Area	Permanent Impact - Degradation of Ecological Condition Only
0.01 acres 0.0 cubic yards 20 linear feet	0.0 acres 0.0 cubic yards 0.0 linear feet	0.0 acres 0.0 cubic yards 0.0 linear feet

**V. Description of Indirect Impacts to Waters of the State**

The State Water Board recognizes the potential for indirect impacts to waters of the state associated with the Project. Potential indirect adverse effects include but are not limited to: increased sediment loading to streams from riparian and/or upland areas used for access or staging areas, possibility of introducing invasive species into the

<sup>1</sup> Includes only temporary direct impacts to waters of the state and does not include upland areas of temporary disturbance which could result in a discharge to waters of the state. Temporary impacts, by definition, are restored to pre-project conditions and therefore do not include a physical loss of area or degradation of ecological condition.

Project areas, and changing timing of runoff delivery to streams in the Project area. The Project, as designed, will not have significant indirect impacts to waters of the state.

## **VI. Conditions**

### **A. Scope of Authorization**

- i. The Project may proceed only as described in the Application submitted to the State Water Board by the Applicant and in accordance with the conditions in State Water Board General Order No. [WQ] 2020-0039-EXEC and this NOA. This Certification and coverage under the General Order is no longer valid if the Project (as described) is modified. A copy of the General Order and its attachments can be found on the State Water Resources Control Board's [General Order Website](https://www.waterboards.ca.gov/water_issues/programs/cwa401/generalorders.html#yr_2020) ([https://www.waterboards.ca.gov/water\\_issues/programs/cwa401/generalorders.html#yr\\_2020](https://www.waterboards.ca.gov/water_issues/programs/cwa401/generalorders.html#yr_2020)).

Compliance with 40 CFR § 121.7(d)(2) - This condition is necessary to assure that any discharge under this Order will comply with water quality requirements as described in the General Order. Water Code section 13264 prohibits any discharge that is not specifically authorized in an order. The conditions set forth in State Water Board Water Quality General Order No. [WQ] 2020-0039-EXEC are further justified in Attachment C of that General Order.

### **B. Standard Conditions** (These conditions are also set forth in State Water Board General Order No. [WQ] 2020-0039-EXEC, in Section VI.A.1-A.3.)

- i. Every certification action is subject to modification or revocation upon administrative or judicial review, including review and amendment pursuant to Section 13330 of the Water Code and Article 6 (commencing with Section 3867) of this Chapter.
- ii. Certification is not intended and shall not be construed to apply to any activity involving a hydroelectric facility and requiring a FERC license or an amendment to a FERC license unless the pertinent certification application was filed pursuant to Subsection 3855(b) of this Chapter and that application specifically identified that a FERC license or amendment to a FERC license for a hydroelectric facility was being sought.
- iii. Certification is conditioned upon total payment of any fee required under this Chapter and owed by the applicant.

Compliance with 40 CFR § 121.7(d)(2) – Each standard condition in Section VI.B is necessary to assure that any discharge authorized under the general license or permit will comply with water quality requirements. Water quality requirements include state regulatory requirements for point source discharges into waters of the United States.

California Code of Regulations, title 23, Chapter 28 sets forth regulations pertaining to water quality certifications for point source discharges to waters of the United States. These conditions were included to comply with section 3860, which sets forth conditions that must be included in all water quality certifications.

### **C. Mitigation for Temporary and Permanent Impacts**

- i. All temporarily affected areas will be restored to pre-construction contours and conditions upon completion of construction activities in compliance with the General Order and according to the restoration plan submitted by the Applicant in the Application.
- ii. The Applicant has provided a letter of credit in favor of the State Water Board to provide security against a default in providing the required compensatory mitigation. By January 15, 2022, the Applicant shall submit a mitigation plan to the State Water Board in accordance with section VI.F.2.e.ii of the General Order. By June 1, 2022, the applicant shall submit proof of credit purchase in accordance with section VI.F.2.e.ii.3 of the General Order.
- iii. Total required Project compensatory mitigation information for permanent physical loss of area shall be greater than or equal to the Project's permanent impact totals listed in Table 2, above, in the form of mitigation bank or in-lieu fee credit purchases in quantities consistent with the mitigation ratios provided in section VI.F.2.e.ii.2 of the General Order.

Compliance with 40 CFR § 121.7(d)(2) – Mitigation is required to ensure compliance with Executive Order W-59-93 that requires no net loss of the structure or function of California's wetland resources.

### **VII. California Environmental Quality Act (CEQA)**

The State Water Board has determined that the Project is exempt from review under the California Environmental Quality Act (CEQA) pursuant to California Code of Regulations, title 14, section 15301. Additionally, the State Water Board finds that no exceptions to the exemptions apply to the activities approved by this NOA.

### **VIII. Certification Fees**

A fee payment of \$2066 was received by the State Water Board on July 6, 2021. The fee amount was determined as required by California Code of Regulations, title 23, sections 3833(b)(3) and 2200(a)(3) and was calculated as category E - Low Impact Discharges (fee code 87).

## **IX. Public Notice**

The State Water Board provided public notice of the Application pursuant to California Code of Regulations, title 23, section 3858 from June 30, 2021 to July 21, 2021. The State Water Board did not receive any comments during the comment period.

## **X. Reporting and Notification Requirements**

Notices and reporting shall be provided to the State Water Board according to section VI.E, "Application for Coverage and Termination," of the General Order.

The Applicant shall submit Report Types 2 and 3, as described in Attachment B, "Report and Notification Requirements," of the General Order. The Applicant must also submit Report Types 4 through 9 if the Project encounters the conditions described in these Report Types. The Applicant must submit all reports and information required under this Certification according to the Report Submittal Instructions found in Attachment B, "Report and Notification Requirements," of the General Order.

Compliance with 40 CFR § 121.7(d)(2) – These reporting and notification requirements are necessary to confirm that the requirements set by this certification are satisfied, and that the requirements are sufficient to protect beneficial uses and water quality objectives. Monitoring and reporting requirements are authorized by Water Code sections 13267 and 13383.

## **XI. Water Quality Certification**

I hereby issue this Notice of Applicability for the eTs 45579 L406MP 17.76 Aggen Span Maintenance Project, certifying that as long as all of the conditions listed in the General Order are met, any discharge from the referenced Project will comply with the applicable provisions of Clean Water Act sections 301 (Effluent Limitations), 302 (Water Quality Related Effluent Limitations), 303 (Water Quality Standards and Implementation Plans), 306 (National Standards of Performance), and 307 (Toxic and Pretreatment Effluent Standards).

As a water quality certification and enrollment under State Water Board General Order No. [WQ] 2020-0039-EXEC, this Certification and Notice of Applicability serve as waste discharge requirements pursuant to the Porter-Cologne Water Quality Control Act (Wat. Code, § 13000 et seq.). State Water Board Order No. [WQ] 2020-0039-EXEC serves as waste discharge requirements in accordance with State Water Board Water Quality General Order No. 2003-0017-DWQ. The State Water Board will file a Notice of Exemption (NOE) at the State Clearinghouse within five (5) working days of issuance of this NOA.

Except insofar as may be modified by any preceding conditions, all NOA actions are contingent on: (a) the discharge being limited and all proposed mitigation being completed in strict compliance with the conditions of the General Order and the attachments to the General Order; and, (b) compliance with all applicable requirements of Statewide Water Quality Control Plans and Policies, and the Regional Water Boards' Water Quality Control Plans and Policies.
