

Supplemental Environmental Project (SEP) Report Card		Private Sewer Lateral Rehabilitation Grant Program
Regional Water Board	Region 5S - Sacramento	OUTCOMES: <input checked="" type="checkbox"/> Satisfactory <input type="checkbox"/> Unsatisfactory
Total Project Cost	\$25,129	
SEP Funding	\$25,500	
Approval Date	10/1/2013	
Project Category	Other (Rehabilitation)	

Summary

The City of Colfax is providing private sewer lateral rehabilitation grants for targeting the reduction of inflow and infiltration to its collection system. Reduction to inflow and infiltration in the collection system will improve groundwater and surface water quality by repairing faulty or leaking laterals, and also reduce wet weather peak flows to the wastewater treatment plant. Eight low-income homes' sewer laterals were video-inspected and improvements were made where necessary.

Water Quality Outcomes

The city's Private Sewer Lateral Rehabilitation Grant Program will benefit the water quality by repairing low-income owner's laterals that have contributed to the largest amount of inflow and infiltration to the collection system.
