## State Water Resources Control Board

To all Wastewater Agencies and Interested Individuals:

### STATE FISCAL YEAR (SFY) 2016-17 WASTEWATER USER CHARGE SURVEY REPORT

The State Water Resources Control Board (State Water Board) has conducted a new survey of sewer rates and connection (capacity) fees. The report is presented in PDF and Excel formats. The PDF format includes a cover letter, a copy of the original survey form, a statistical summary of the sewer rates and connection fees, and data pre-sorted by agency, population, county, and treatment level. The Excel format includes the raw data submitted by the agencies. The statistical summary includes only information from agencies charging a flat rate. Variable rate information was not included in the summary because the rates may change from month-to-month. Variable rate information has been included in the raw data submitted by the agencies.

A total of 963 questionnaires were distributed to various wastewater agencies, and 591 questionnaires were completed for the SFY 2016-17 survey. The data was collected from November 30, 2016 to March 11, 2017, but the fees represent charges for SFY 2016-17. The raw data is presented as reported by the agencies; care should be exercised in using this report because the data has not been independently verified by State Water Board staff.

If you have any questions about this report, please contact Mr. Melky Calderon at (916) 341-5646, or at [DFA-Survey@waterboards.ca.gov](mailto:DFA-Survey@waterboards.ca.gov).

Sincerely,

A handwritten signature in blue ink that reads "Leslie S. Laudon".

Leslie S. Laudon, Deputy Director  
Division of Financial Assistance
