SUBJECT: PROPOSITION 1 (PROP 1) STORM WATER GRANT FUNDING AWARD –
STORM WATER RESOURCE PLAN CONCURRENCE LETTER

Dear Mr. Alva:

Thank you for submitting the County of Los Angeles' (County) functionally equivalent Storm Water Resource Plan (SWRP) and the completed Self-Certification Checklist (Checklist) to the State Water Resources Control Board's (State Water Board) Division of Financial Assistance. This letter addresses the SWRP and Checklist submitted with the Prop 1 Storm Water Grant Program (SWGPP) Round 1 Implementation application for Ladera Park Stormwater Capture Project (PIN 36305) awarded on December 1, 2016.

State Water Board staff completed a review of the Checklist and referenced pages provided with the SWRP. State Water Board staff concurs that the County's SWRP is consistent with the minimum requirements of the California Water Code (Water Code) sections 10561-10573 and the corresponding mandatory requirements in the State Water Board's SWRP Guidelines¹. By this concurrence, the County and other eligible entities with projects in the SWRP are eligible to receive funding from a bond act approved by voters after January 1, 2014 for storm water and dry weather runoff capture projects included in the County's SWRP planning area.

The State Water Board staff's review was for funding eligibility related to a bond act only. The review of the submitted SWRP and Checklist does not include a technical evaluation or analysis of the SWRP or any supporting documents, and this letter provides no approval of these documents.

Please do not hesitate to contact Ruben Mora at (916) 341-5387 should you have any additional questions.

Sincerely,

Leslie S. Laudon, Deputy Director
Division of Financial Assistance

¹ This concurrence letter does not address whether the functionally equivalent SWRP is consistent with all of the non-mandatory recommendations in the SWRP Guidelines.
