

Produced Water Pond Status Report July 30, 2016

The following tables summarize the status of produced water ponds in California as of July 15, 2016.

- 1) Summary Table
2) Detailed Status Report Table
3) Ponds Removed from This Report Table

Summary Table

Summary Table with columns: Regional Water Board, Active Pond (Permitted, Unpermitted), Inactive Pond (Permitted, Unpermitted), Total Ponds (Permitted, Unpermitted), Number of Ponds Under Enforcement Actions

Detailed Status Report Table

Detailed Status Report Table with columns: Regional Water Board, Field Name, Field Operator, Global ID, July 2016 Pond Status, July 2016 Field Status, July 2016 Waste Discharge Requirement Permit, July 2016 Permit Status, Information Order, Information Order Status, Clean Up and Abatement, Cleanup and Abatement Order, Notice of Violation Date, Notice of Violation Status

Produced Water Pond Status Report July 30, 2016

Footnotes

1: Waste Discharge Requirement (WDR) - California Water Code Section 13374 outlines that Waste Discharge Requirements (permits) may be issued by Regional Water Boards to regulate point discharges of fluids, including oil field produced water ponds. All facilities covered by a WDR must meet water quality objectives set by the Regional Water Board and are inspected regularly.

2: WDR permits are pending for active unpermitted ponds. The Central Coast Regional Water Board is permitting unpermitted ponds, when appropriate, on a case-by-case basis. The Central Valley Regional Water Board is in the process permitting unpermitted ponds, when appropriate, under general orders. Ponds that are not permitted under the pending Central Valley Regional Water Board general orders must be closed by December 31, 2016.

3: Cleanup and Abatement Order (CAO) - California Water Code section 13304 allows Regional Water Boards to issue an order to a discharger to clean up and abate the effects of a discharge of contaminant(s) or threatened pollution or nuisance.

4: Information Order (13267 letter) - California Water Code Section 13267 allows Regional Water Boards to require dischargers to furnish technical or monitoring reports as necessary. The technical reports are used to evaluate the nature, extent, circumstances, and impacts of discharges to waters of the state. The technical reports are used to evaluate the nature, extent, circumstances, and impacts of discharges to waters of the state.

5: Notice of Violation (NOV) - These letter notices are issued by Regional Water Boards to operators who have not responded to 13267 orders within the required time, have responded late, or have provided incomplete responses.
