KEY	Description of Minimum Element for Alternative Watershed Plan
A	<i>Identification of the causes or sources of nonpoint source pollution impairment, water quality problem, or threat to water quality;</i>
B	<i>Watershed project goal(s) and explanation of how the proposed project(s) will achieve or make advancements towards achieving water quality goals;</i>
C	<i>Schedule and milestones to guide project implementation;</i>
D	<i>Proposed management measures (including a description of operation and maintenance requirements) and explanation of how these measures will effectively address the nonpoint source pollution impairment identified above; and</i>
E	<i>Water quality results monitoring component, including description of process and measures (e.g., water quality parameters, stream flow metrics, biological indicators) to gauge project success.</i>
