Subject: Comment Letter – Grazing Regulatory Action Project

I would like to send my input in favor of adopting the proposed draft resolution for the discontinuation of discussions regarding a statewide approach to addressing water quality impacts from livestock. After attending numerous GRAP meetings held in northern California and the Central Coast there is not sufficient data and science to support their findings.

Our San Luis Obispo County Board of Supervisors has also written a letter opposing all views of GRAP and was sent to the SWRCB in June of this year. In addition the San Luis Obispo County Cattleman's Association (largest in CA) also sent opposition letters opposing any further discussion or movement on this topic.
