**Subject:** Scrap GRAP

Dear Water Board members,

Please accept the resolution formally discontinuing your exploration of a statewide Grazing Regulatory Action Project (GRAP) on September 16.

I support the California Cattlemen's Association's three concerns that are paramount: (1) the faulty science behind the CWA Section 303(d) List of Impaired Waters and a lack of documentation that impairment was actually the result of grazing; (2) failure to account for robust water quality management already undertaken by ranchers and (3) failure to recognize the many ecosystem and economic benefits of grazing.

Thank you,

Joanne E. Williamson  
Hollister Ranch Cattle Cooperative Board member
