Subject: {SSO Data Review Committee:143} Revised Draft MRP for the Sanitary Sewer Systems WDRs - UC San Diego Comments

To clarify the email subject that was just sent, the Comments are FINAL, not DRAFT.

Russell,

UC San Diego has the following comments on the Revised Draft MRP for the Sanitary Sewer Systems WDRs:

1. Page 2, Reporting, Requirement: Suggest that: SSO Technical Report is reported within **90** Calendar Days.
2. Page 2, Water Quality Monitoring, Method: Identify time period for water quality results to be uploaded in CIWQS. Suggest: **90** Calendar Days.
3. Page 5, Section 5. SSO Technical Report: Suggest that the SSO Technical Report Certification is within **90** Calendar Days.
4. Page 10, D. WATER QUALITY MONITORY REQUIREMENTS: Suggest that the word "large" is identified in the introduction as 50,000 gallons.
5. Page 10, E.2.ii: Request that items d, e, f ,and g be deleted. UC San Diego owns all the land and buildings that is covered by the SSS WDR Order and, therefore, do not record this information.

If you have any questions or need additional information, please contact me.

Thank you,
Valerie
