

STATEWIDE INDUSTRIAL GENERAL PERMIT

DISCHARGER'S GUIDE TO THE STORMWATER MULTIPLE APPLICATION AND  
REPORT TRACKING SYSTEM (SMARTS) DATABASE

**ANNUAL REPORT**

**Last Revised: June 20, 2019**

**Industrial Storm Water General Permit Annual Report:**

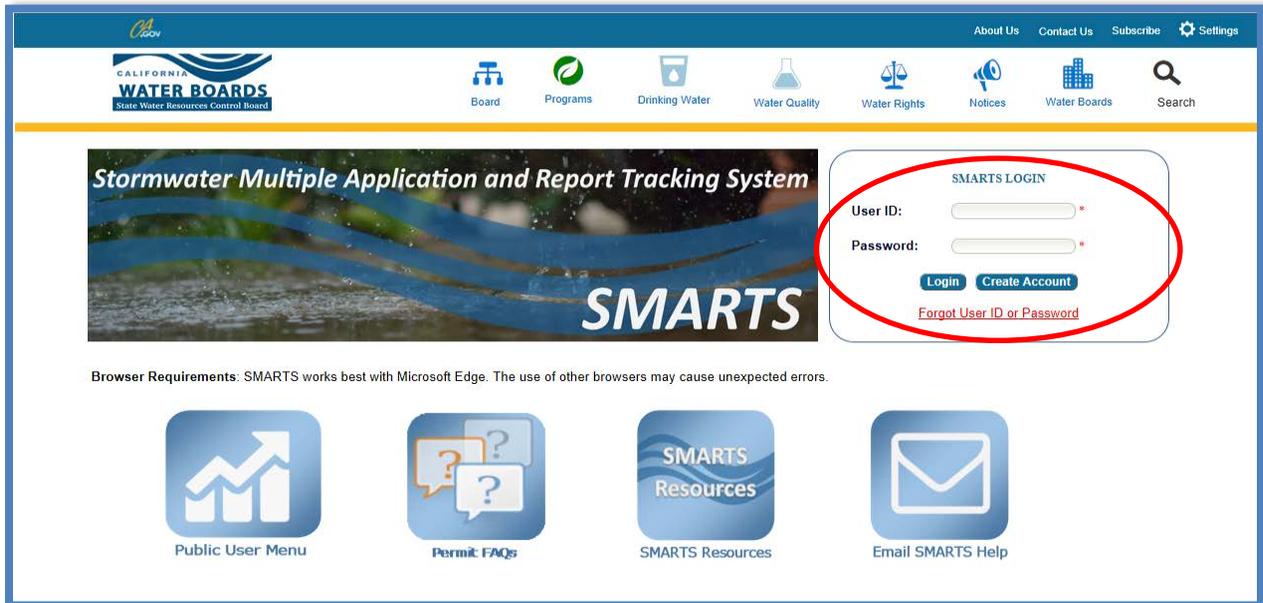

Dischargers are required to certify and submit an Annual Report **no later than July 15 following each reporting year** using the standardized format via the Stormwater Multiple Application and Report Tracking System (SMARTS). The Annual Report is a list of questions for the discharger to complete, which demonstrates that they comply with and address all applicable requirements of the Industrial General Permit (IGP). The Annual Report requires an explanation for any non-compliance of requirements within the reporting year and certification that the Annual Comprehensive Facility Compliance Evaluation (Annual Evaluation) was completed. The Annual Report can be entered by any SMARTS user that is linked to the facility but can only be certified and submitted by the Legally Responsible Person (LRP) or Duly Authorized Representative (DAR) with a valid eAuthorization form on file.

**Commonly-Used Acronyms:**

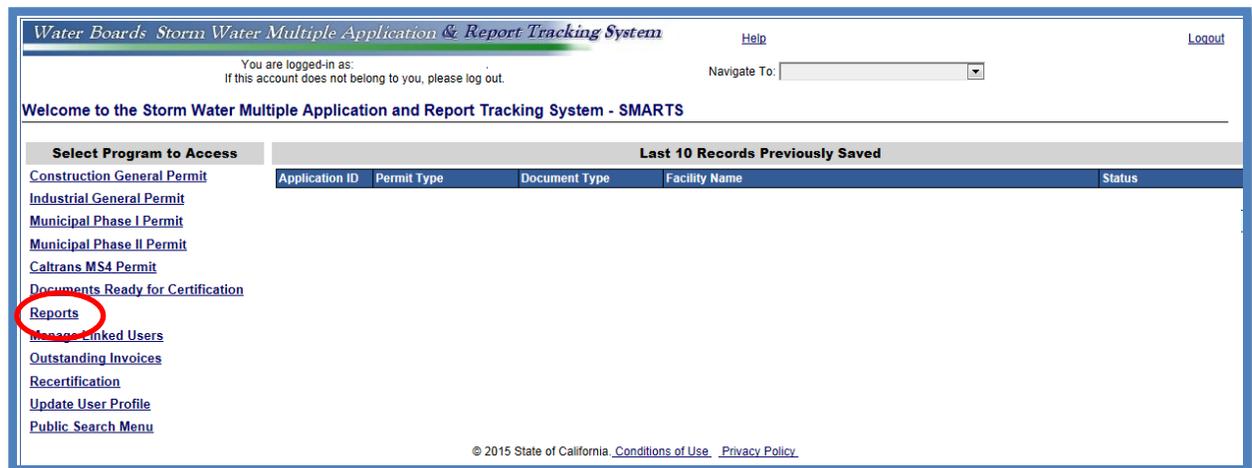

The following are acronyms used in the Statewide Industrial Storm Water General Permit and the SMARTS database:

COI	Change of Information
DAR	Duly Authorized Representative
DEP	Data Entry Person
ERA	Exceedance Response Action
IGP	Industrial Storm Water General Permit
LRP	Legally Responsible Person
NAL	Numeric Action Level
NOI	Notice of Intent (Application for regulatory coverage under the Industrial Storm Water General Permit)
TMDL	Total Maximum Daily Load

1. Please log into SMARTS at the following link using **Microsoft Edge**:  
<https://smarts.waterboards.ca.gov>

2. From the Main menu select "Reports."

3. Search for reports using the appropriate reporting period. Any facility that is linked to your account will display once you select "Search."

- The "Questions" Tab is a three (3) part series, with the sections of questions displayed by hyperlinks.

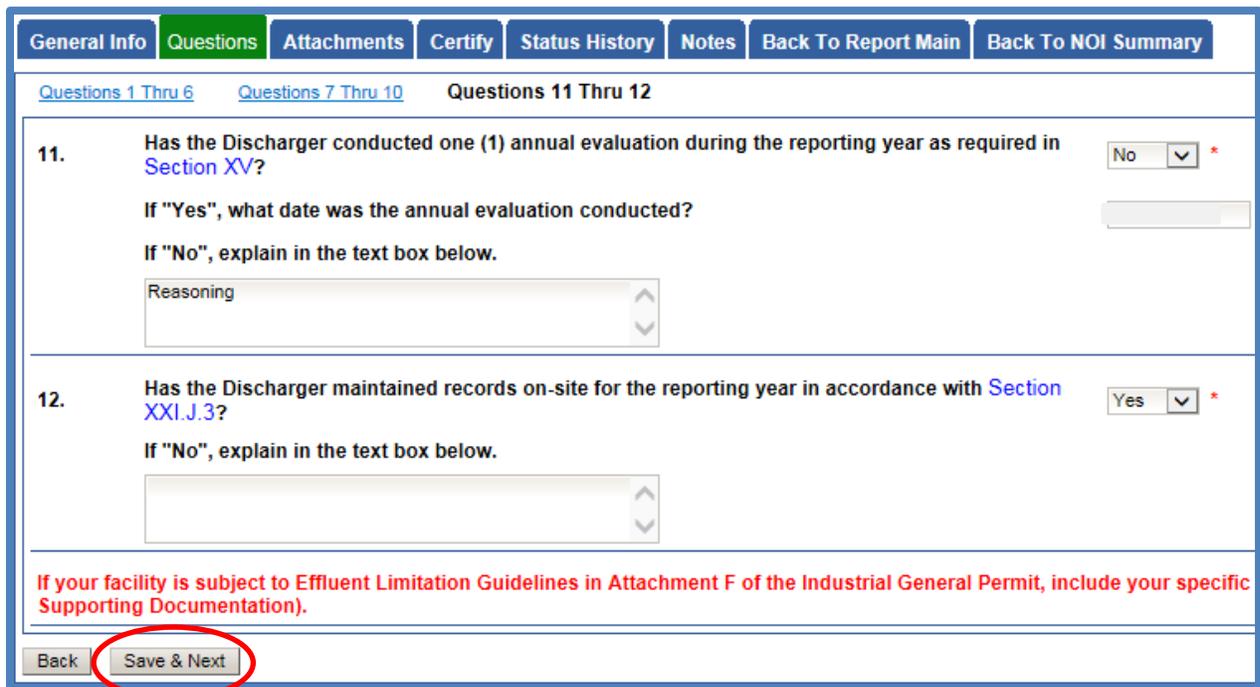

**General Info** | **Questions** | Attachments | Certify | Status History | Notes | Back To Report Main | Back To NOI Summary

[Questions 1 Thru 6](#) | [Questions 7 Thru 10](#) | [Questions 11 Thru 12](#)

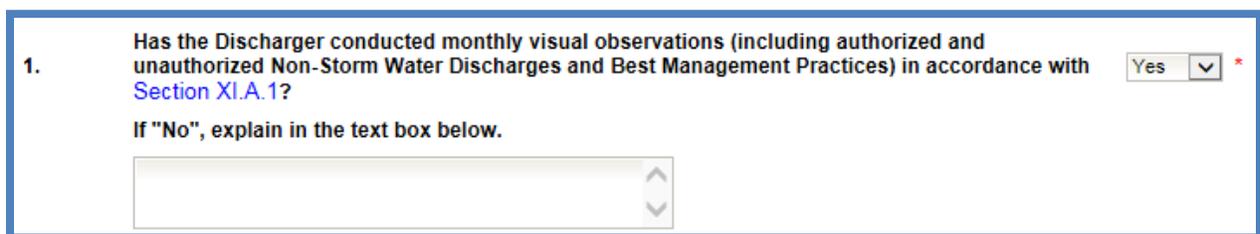

If the facility has any parameters with Level 2 Status<sup>2</sup>, there are 2 additional questions to answer, which are found in the 3rd section of questions.

Click the “Save & Next” button at the bottom of each section of questions to save the answers prior to proceeding to the next section in the series of questions:

8. The Annual Report is composed of a series of questions that are to be answered with “Yes” or “No” responses. The next steps demonstrate each question and provide reference to the applicable section of the Industrial Storm Water General Permit sections. Selecting the blue hyperlink in the Annual Report question in SMARTS will display the referenced Industrial Storm Water General Permit section.
  - a. Question 1

<sup>2</sup> Level 2 Status per Section XII.D of the Industrial Storm Water General Permit.

If each monthly observation was not completed, an explanation is required. Records of these observations are not required to be uploaded but are required to be maintained on site in the Storm Water Pollution Prevention Plan (SWPPP) records for a 5-year period.

b. Question 2

2. Has the Discharger conducted sampling event visual observations at each discharge location where a sample was obtained in accordance with Section XI.A.2? Yes  \*

If "No", explain in the text box below.

If observations were not completed for each sampling event, an explanation is required. Records of these observations are not required to be uploaded but are required to be maintained on site in the SWPPP records for a 5-year period.

c. Question 3

3. Did you sample the required number of Qualifying Storm Events during the reporting year for all discharge locations, in accordance with Section XI.B? Yes  \*

If "No" to , explain in the text box below.

Industrial storm water sampling results are required to be entered as Ad Hoc Reports, which are required to be certified and submitted in SMARTS within 30 days of receiving the Lab analysis report<sup>3</sup>. Lab analysis reports are required to be uploaded to the corresponding Ad Hoc report, not the Annual Report. If sampling was not completed for the reporting year, an explanation is required.

d. Question 4

4. How many storm water discharge locations are at your facility? 4  \*

Enter a numeric value for how many discharge locations are at the facility.

e. Question 5

5. Has the Discharger chosen to select Alternative Discharge Locations in accordance with Section XI.C.3? No  \*

Dischargers are required to identify, when practicable, alternate discharge locations if: (1) the facility's industrial drainage areas are affected by storm water run-on from surrounding areas that cannot be controlled, or (2) discharge locations are difficult to

<sup>3</sup> NOTE: See the Ad Hoc Report Guide for more information on reporting and entering sample analysis.  
[http://www.swrcb.ca.gov/water\\_issues/programs/stormwater/docs/dischargers\\_guide\\_adhocreport.pdf](http://www.swrcb.ca.gov/water_issues/programs/stormwater/docs/dischargers_guide_adhocreport.pdf)

observe or sample (e.g. submerged discharge outlets, dangerous discharge location accessibility). If you answered “Yes” to this question, revisions to the Monitoring Implementation Plan (part of the SWPPP) will need to be uploaded in the Attachments portion of the Annual Report.

f. Question 6

6. **Has the Discharger reduced the number of sampling locations, within a drainage area in accordance with the Representative Sampling Reduction in Section XI.C.4?**  \*

For each drainage area with multiple discharge locations (e.g. roofs with multiple downspouts, loading/unloading areas with multiple storm drain inlets), the Discharger may reduce the number of discharge locations to be sampled if the conditions in Section XI.C.4 in the Industrial Storm Water General Permit are met. If you answered “Yes” to this question, revisions to the Monitoring Implementation Plan (part of the SWPPP) will need to be uploaded in the Attachments portion of this report.

g. Question 6.1

6.1 **Has the Discharger reduced the frequency of sampling at the facility area in accordance with the Sample Frequency Reduction in Section XI.C.7?**  \*

The Discharger is eligible to reduce the number of Qualifying Storm Events sampled each reporting year if the conditions in Section XI.C.7 in the Industrial Storm Water General Permit are met. If you answered “Yes” to this question, revisions need to be made to the SWPPP and are required to be uploaded in the Attachments via a Change of Information form<sup>4</sup>.

h. Question 7

7. **Permitted facilities located within an impaired watershed must assess for potential pollutants that may be present in the facility’s industrial storm water discharge. \***  
**Using the table below, populated based on the facility’s location, indicate the presence of the potential pollutant at the facility.**

Parameter	Pollutant	Present at Facility?
E.Coli and Enterococcus	Bacteria	<input type="text" value="Yes"/>
E.Coli and Enterococcus	Fecal Coliform	<input type="text" value="No"/>

The Discharger must refer to Appendix 3 of the Industrial Storm Water General Permit to identify Clean Water Act section 303(d) listed water body impairments within the facility’s 10-digit Hydrologic Unit Code (HUC-10) watershed, which includes impaired

<sup>4</sup> **NOTE:** See the Change of Information (COI) Guide for more information on completing the form.  
[http://www.swrcb.ca.gov/water\\_issues/programs/stormwater/docs/coi\\_guide.pdf](http://www.swrcb.ca.gov/water_issues/programs/stormwater/docs/coi_guide.pdf)

water bodies with Total Maximum Daily Loads (TMDLs)<sup>5</sup>. Dischargers who have obtained Notice of Intent (NOI) coverage that have 303(d) listed impaired water bodies in the corresponding HUC-10 watershed of the facility must sample for any industrial pollutants identified that have the potential to discharge.

Dischargers are also required to identify pollutants related to the Clean Water Act section 303(d) listed impairments in the HUC-10 watershed in the SWPPP's pollutant source assessment. The SWPPP's pollutant source assessment of the Industrial Storm Water Permit, Dischargers must identify the industrial pollutants related to the receiving waters with (1) Clean Water Act section 303(d) listed impairments identified in Appendix 3, or (2) approved TMDLs, that may be causing or contributing to an exceedance of a water quality standard in the receiving waters (as provided in Section X.G.2.a.ix. of the Industrial Storm Water General Permit). The Industrial Storm Water General Permit requires a Discharger to monitor additional parameters if the discharge(s) from its facility contributes pollutants to receiving waters that are listed as 303(d) listed for those pollutants. See question 8 for follow up to responses entered.

i. Question 8

8. Has the Discharger included the above pollutants in the SWPPP pollutant source assessment and assessed the need for analytical monitoring for the pollutants?  \*  
If "No" what date the parameter(s) will be added to the SWPPP and Monitoring Implementation Plan?  (mm/dd/yyyy)

Dischargers should include a discussion in their SWPPP regarding the potential pollutant sources identified in their HUC-10 watershed and determine if the potential pollutant sources are applicable to their facility. If the answer is "Yes," the Discharger is stating the SWPPP addresses all pollutants from the table in Question 7. If answer is "No," the Revisions to the Monitoring Implementation Plan section of the SWPPP must be updated by the date provided by the Discharger. Once completed, revisions are required to be uploaded in the Attachments via the Change of Information form<sup>6</sup>.

j. Question 9

9. Were all samples collected in accordance with Section XI B.5?  \*  
If "No", explain in the text box below.

If samples were not collected properly, an explanation is required.

<sup>5</sup>The TMDL requirements applicable to the Industrial Storm Water General Permit are in Attachment E of the Industrial Storm Water General Permit.  
[https://www.waterboards.ca.gov/water\\_issues/programs/stormwater/docs/industrial/unoff\\_igp\\_amend.pdf](https://www.waterboards.ca.gov/water_issues/programs/stormwater/docs/industrial/unoff_igp_amend.pdf)

<sup>6</sup>NOTE: See the Change of Information (COI) Guide for more information on completing the form.  
[http://www.swrcb.ca.gov/water\\_issues/programs/stormwater/docs/coi\\_guide.pdf](http://www.swrcb.ca.gov/water_issues/programs/stormwater/docs/coi_guide.pdf)

k. Question 10

10. Has any contained storm water been discharged from the facility this reporting year? No  \*  
If "Yes", explain in the text box below.

For contained storm water (from ponds or capture systems), samples are only collected when there is a discharge of the contained storm water. If you do not have any contained storm water systems, answer "No." If the answer is "Yes," provide when the discharges occurred.

l. Question 11

11. Has the Discharger conducted one (1) annual evaluation during the reporting year as required in [Section XV](#)? Yes  \*  
If "Yes", what date was the annual evaluation conducted? 06/30/2016   
If "No", explain in the text box below.

Please review Section XV. of the Industrial Storm Water General Permit for requirements of the Annual Comprehensive Facility Compliance Evaluation (Annual Evaluation). If you completed this evaluation, answer "Yes" and provide the date when it was completed. If it was not completed, provide an explanation.

m. Question 12

12. Has the Discharger maintained records on-site for the reporting year in accordance with [Section XXI.J.3?](#) Yes  \*  
If "No", explain in the text box below.

Records are not required to be uploaded but are required to be maintained on site in the SWPPP for a 5-year period. If they are not being maintained, provide an explanation.

Questions 13 and 14 are specific to facilities that have parameters with Level 2 status. Please review Section XII.D.3.c. of the Industrial Storm Water General Permit for requirements on annually updating the Level 2 Exceedance Response Action Technical Report<sup>7</sup>.

<sup>7</sup> Also referred to as the ERA Technical Report.

n. Question 13

13. Did additional NAL exceedances occur in the same drainage area for the facility's Level 2 parameter(s) (if no Level 2 parameters, select No)? Select ▼ \*

If additional Numeric Action Level<sup>8</sup> exceedances occurred within this reporting year for existing Level 2 parameters, answer “Yes.” If not, answer “No.”

o. Question 14

14. Was the Level 2 ERA Technical Report updated? Select ▼ \*  
Enter an explanation below:

Answer “Yes” if the Level 2 Technical Report was updated due to additional exceedances of the existing Level 2 parameters or for other requirements stated in Section XII.D.3.c. of the Industrial Storm Water General Permit. Answer “No” if the Level 2 Technical Report was not updated. Provide an explanation.

p. Subchapter N Effluent Limitation Guidelines – Annual Report Requirements

The red text displayed after Question 12<sup>9</sup> “**If your facility is subject to Effluent Limitation Guidelines in Attachment F of the Industrial General Permit, include your specific reporting requirements as an attachment to the Annual Report (attach as file type: Supporting Documentation).**” is a note for Dischargers subject to Section XI.D.1.b of the Industrial Storm Water General Permit. Dischargers with applicable Effluent Limitation Guidelines from 40 Code of Federal Regulations parts 419<sup>10</sup> and 443<sup>11</sup> are required to submit volume and mass estimate calculations (completed by a California Licensed Professional Engineer) with their Annual Report. This would be submitted as “Supporting Documentation” in the “Attachments” Tab of the Annual Report.

9. Once all questions are completed, any documentation such as SWPPP revisions or other explanation documentation should be uploaded to the Annual Report. This can be done by clicking on the “Upload Attachment” button. If no attachments are necessary, you may move to the “Certify” Tab by selecting “Next”.

<sup>8</sup> Also referred to as NALs in the Industrial Storm Water General Permit and the SMARTS database.

<sup>9</sup> Or after Question 14 if you are answering questions regarding Level 2 parameters.

<sup>10</sup> Petroleum refining point source category

<sup>11</sup> Paving and roofing materials using tar and asphalt point source category

10. The “Certify” Tab provides a completion check of the Annual Report in progress:

**Storm Water Annual Report Monitoring (SWARM)**

Facility Name:	Mine	Agency:	Test
WDID ID:	5S29I025869	SIC Code(s):	1041-Gold Ores,0213-Hogs
Reporting Period	2015-16	Report Status:	Not Submitted

General Info Questions Attachments **Certify** Status History Notes Back To Report Main Back To NOI Summary

Before certifying your Annual Report, the system must verify that all required sections have been completed. To perform this check, click the button below:

**Perform Completion Check**

The “Perform Completion Check” function will provide the user with a notification of any errors that must be corrected prior to submission of the Annual Report (e.g. All Questions answered). Any user can perform this check. If a Data Entry Person<sup>14</sup> performs the check and the Annual Report is complete, SMARTS only allows the Data Entry Person to notify the Legally Responsible Person or Duly Authorized Representative<sup>15</sup> (via a generated SMARTS email) that the Annual Report must be certified and submitted. A Data Entry Person completing this check will see this:

General Info Questions Attachments **Certify** Status History Notes Back To Report Main Back To NOI Summary

[Review and Print Annual Report](#)

The Annual Report Application appears to be complete. A Data Entry Person cannot certify the application. Please contact the Legally Responsible Person, Approved Signatory, or Duly Authorized Representative to certify and submit the application.

**Send Email to LRP/AS**

On Clicking the Send Email to LRP/AS button, the status of the document is updated as Not Submitted - certification required. An email is sent to the LRP/AS informing them that the data entry is complete.

Once the Data Entry Person selects “Send Email to LRP/DAR”, an email will be sent and the status is “Not Submitted – certification required” will be shown as follows:

**Storm Water Annual Report Monitoring (SWARM)**

Facility Name:	Mine	Agency:	Test
WDID ID:	5S29I025869	SIC Code(s):	1041-Gold Ores,0213-Hogs
Reporting Period	2015-16	Report Status:	<b>Not Submitted - certification required</b>

<sup>14</sup> Also referred to as DEP in the Industrial Storm Water General Permit and the SMARTS database.

<sup>15</sup> Also referred to as LRP or DAR in the Industrial Storm Water General Permit and the SMARTS database.

11. The Annual Report must be certified and submitted by the Legally Responsible Person or Duly Authorized Representative. The Legally Responsible Person or Duly Authorized Representative must identify the Annual Report in SMARTS (same steps as outlined by steps 1-4 of this guide) and select the Annual Report that requires certification:<sup>16</sup>

**Storm Water Annual Report Monitoring (SWARM)**

Facility Name: Mine Operator Name: Test  
Report Period: 2015-16
