

## STATEWIDE INDUSTRIAL GENERAL PERMIT

DISCHARGER'S GUIDE TO THE STORM WATER MULTIPLE APPLICATION AND REPORT TRACKING SYSTEM (SMARTS) DATABASE

# LEVEL 1 EXCEEDANCE RESPONSE ACTION (ERA) REPORT SUBMITTAL

Last Revised: December 01, 2016

#### Storm Water Industrial General Permit - Level 1 Exceedance Response Action (ERA) Report:

The Industrial General Permit (IGP) reporting year is July 1st through June 30th. Annually on July 1st (the end of each reporting year), SMARTS assigns a regulatory "Level" status to each industrial facility based on the required monitoring data. At the beginning of a Discharger's Notice of Intent (NOI) coverage, all Dischargers have Baseline status for all parameters. If sampling results from the previous reporting period indicates that a facility's discharge exceeds an Annual or Instantaneous Maximum Numeric Action Level (NAL) for an applicable parameter, a Level status will be assigned. Dischargers moving from Baseline status to Level 1 for an NAL exceedance are required to complete ERAs. Level 1 status requires the Discharger to:

- (1) Perform a Level 1 ERA Evaluation by October 1 of the year Level 1 status is determined, and
- (2) Submit a Level 1 ERA Report by January 1 following the Level 1 status determination.

A Discharger must obtain the assistance of a Qualified Industrial Storm Water Practitioner (QISP) to complete the Level 1 ERA Evaluation and prepare the Level 1 ERA Report.

To be qualified to assist a Discharger with an ERA Evaluation, and to prepare an ERA Report, a QISP must:

- (1) Have a valid QISP certificate number through the sponsored and approved QISP Training Program provided by California Stormwater Quality Association (CASQA) and administered by the Office of Water Programs at Sacramento State (OWP), or
- (2) Be a licensed engineer by the California Department of Consumer Affairs, Board for Professional Engineers, Land Surveyors, and Geologists, and have completed the QISP selfcertificate review administered by OWP.

The State Water Board and CASQA provide a look-up tool for Dischargers to find a QISP qualified to conduct the above ERA requirements, at the following website: <u>https://smarts.waterboards.ca.gov/smarts/faces/Reports/QispSearch.xhtml</u>

The Level 1 ERA Report must be submitted and certified by the facility's Legal Responsible Party (LRP) or the Duly Authorized Representative (DAR). The following steps guide an LRP or DAR to submit the Level 1 ERA Report prepared by a QISP:

### 1. Please log into SMARTS: <u>https://smarts.waterboards.ca.gov</u> Please use SMARTS in Internet Explorer 11

10. The "Certify" Tab provides a completion check of the Level 1 ERA Report in progress:

Storm Water	ERA Repor	t			
Facility Name:	Mine	Operator Name:	Test	WDID:	5\$341025869
Report Period:	2016-17	Report Status:	Future		
	, the report, the	QISP Certify Status History Back to Report Main system must verify that all required sections have been	n completed. To perform	n this check, click th	e button below:

The "Perform Completion Check" function will provide the user with a notification of any errors that must be corrected prior to submission of the Level 1 ERA Report. (e.g. correct attachments uploaded). Any user can perform this check. If a Data Entry Person (DEP) performs the check and the Level 1 ERA Report is complete, SMARTS only allows the DEP to notify the LRP or DAR (via a generated SMARTS email) that the Level 1 ERA Report must be certified and submitted. A DEP completing this check will see this:

Storm Water ERA Report								
Facility Name: Mir	ne	Operator Na	me:	Test	WDID:	5\$341025869		
Report Period: 201	16-17	Report Statu	s:	Future
