7. Describe the communication and the content of the communication.

Purpose of meetings was to discuss concerns over inclusion of Attachment J (CCRWQCB's Post-Construction Requirements), in the draft Phase II Permit, and their potential impact to Goleta. Discussed concern over 95th% retention requirement, and proposed multiplier, and why we believe that together they create an unnecessary level of protection. Expressed preference for proposed Section E.12 post-construction requirements, and proposed applying them statewide while CCRWQCB continues to refine its PCRs, then using the proposed 2-year Permit reopener to incorporate refined PCRs statewide.
