Supporting water managers into an uncertain future

Efficiency Explorer v1.2

About Tool

Powered by ARGO

Scenario Builder

Supplier

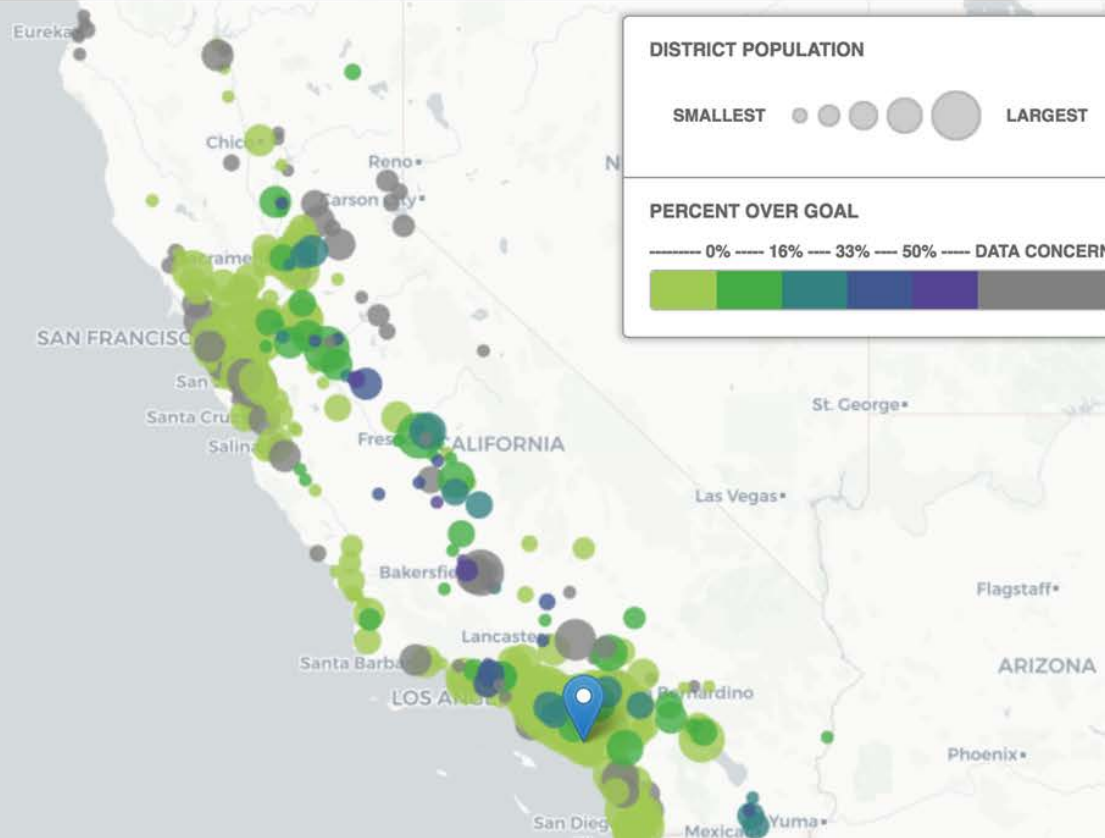

Moulton Niguel Water District

Residential Efficiency Goal: 29453.42 AF

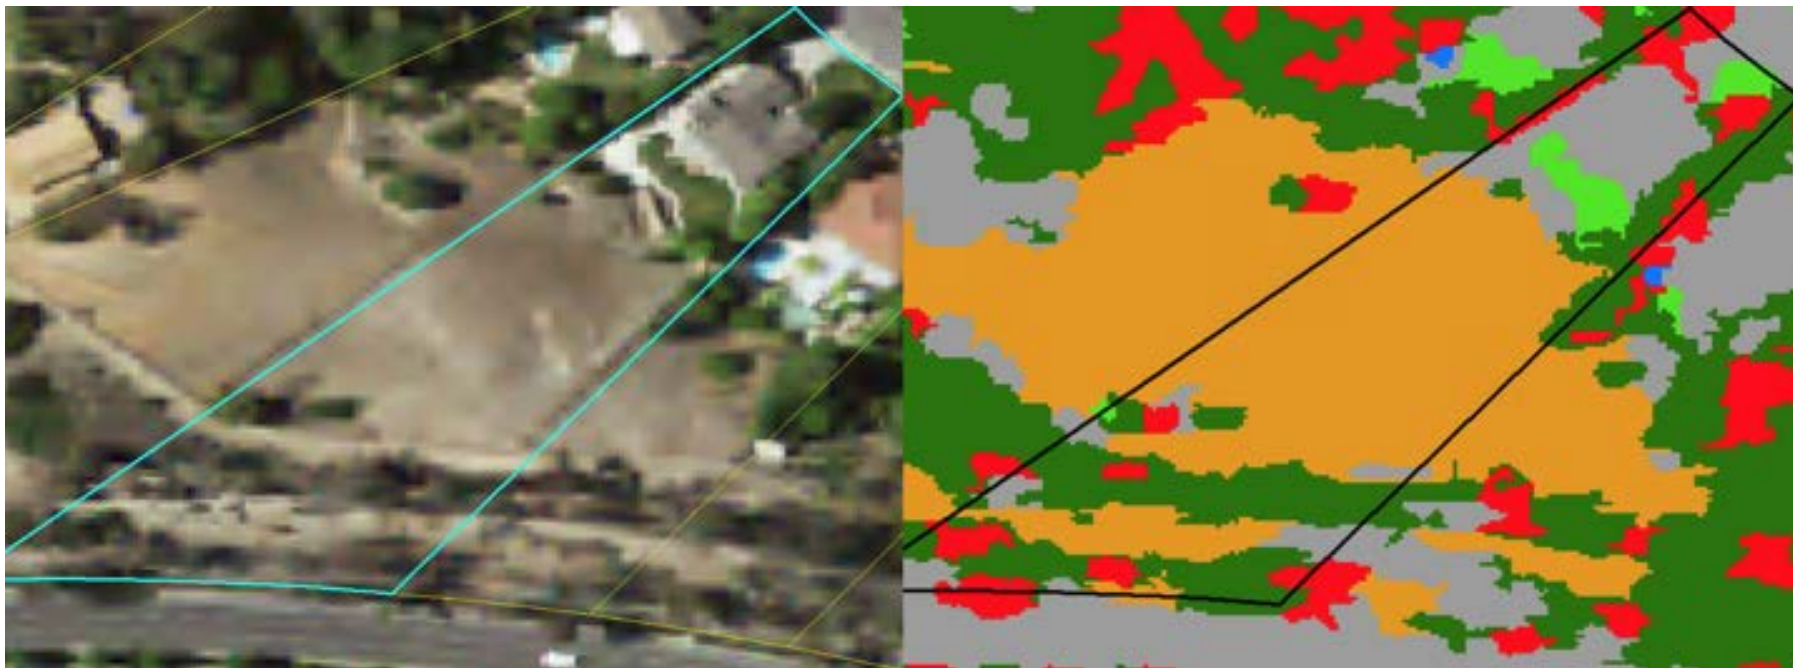

Residential Use: 19005.21 AF

Efficiency: 10448.21 AF *within* goal in this scenario | -35%

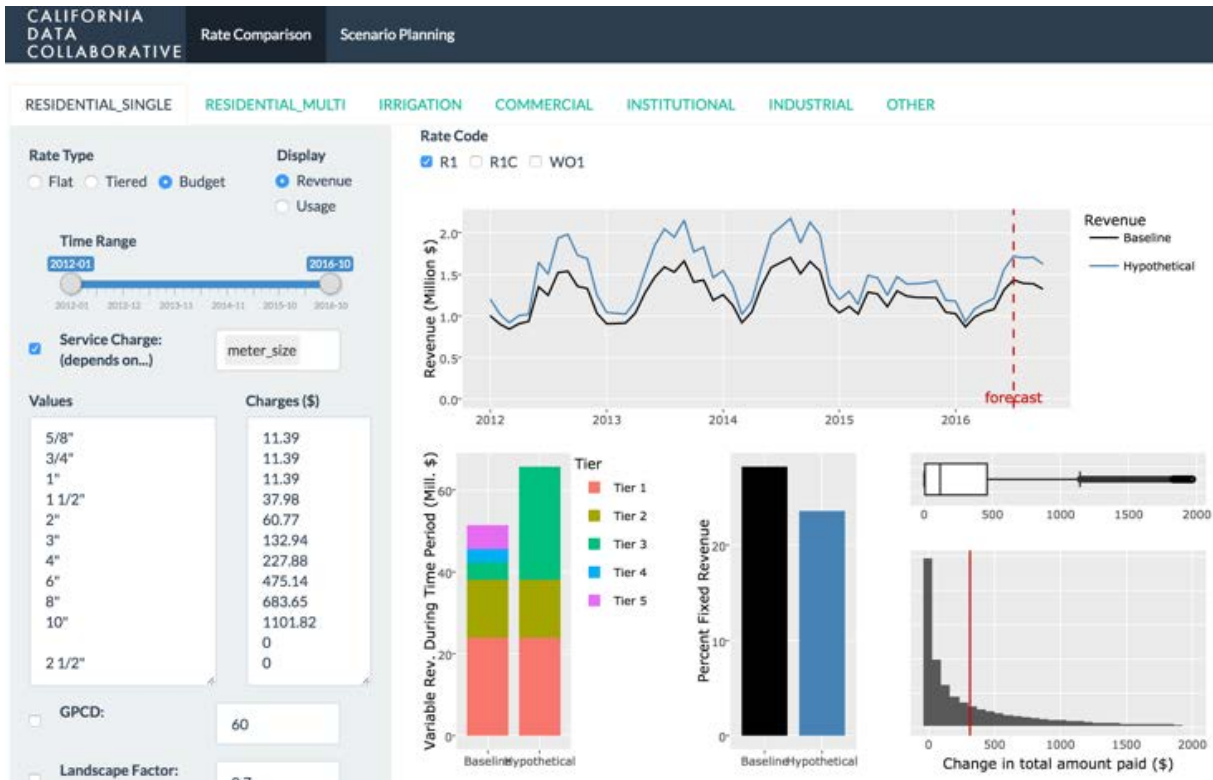

Data Quality: [Useful first approximation](#)

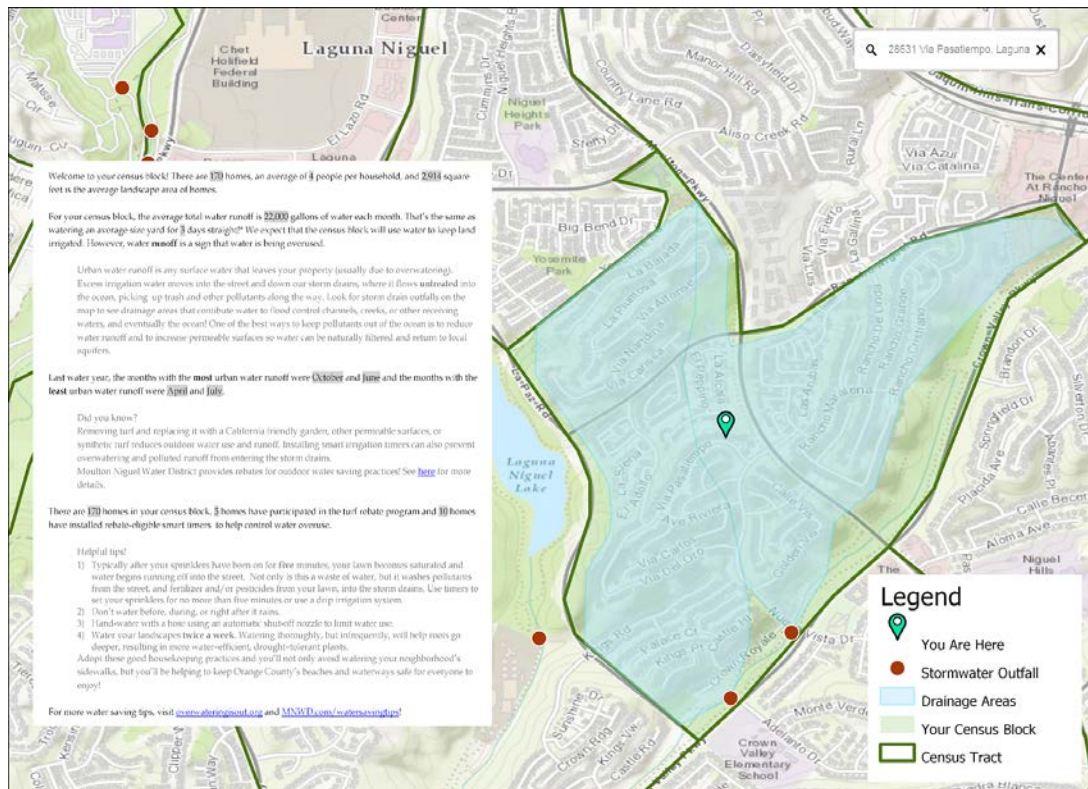

Parcel level landscape area data across CA

Multiple benefits: modeling water rates

Multiple benefits: mapping urban drool

Multiple benefits: integrate low cost sensors

A global network of talent to help achieve your goals
