

Grandfather Clause:

Current ambient water monitoring projects may continue to completion under the December 22, 2002 *Quality Assurance Management Plan for the State of California's Surface Water Ambient Monitoring Program* (QAMP).

Monitoring projects starting after September 1, 2008 must follow the mandates and requirements of the 2008 *Surface Water Ambient Monitoring Program Quality Assurance Program Plan* (QAPrP). Established projects and those that prefer to be Surface Water Ambient Monitoring Program- (SWAMP-) comparable may also choose to operate under this document.
