

SAN FRANCISCO BAY BASIN (REGION 2)

JUNE 21, 1995

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION**

2101 Webster Street, Suite 500
Oakland, CA 94612
(510) 286-1255

Approved by

California State Water Resources Control Board on July 20, 1995.
California State Office of Administrative Law on November 13, 1995.

**WATER
QUALITY
CONTROL
PLAN**

Complete documents on CD.

STATE OF CALIFORNIA

PETE WILSON
Governor

JAMES M. STROCK
Secretary, Environmental Protection Agency

State Water Resources Control Board

John P. Caffrey
Chair

Mary Jane Forster
Member

Marc Del Piero
Vice Chair

James M. Stubchaer
Member

John W. Brown
Member

Walt Pettit
Executive Director

California Regional Water Quality Control Board

San Francisco Bay Region

Peter W. Snyder
County Government
Chair

Pamela W. Lloyd
Water Quality
Member

Craig S.J. Johns
Recreation, Fish and Wildlife
Vice-Chair

Richard L. Maher
Industrial Water Use
Member

Josephine T. De Luca
Public
Member

Denny A. McLeod
Municipal Government
Member

E. Jackson Going Jr.
Water Quality
Member

Loretta K. Barsamian
Executive Officer

This Water Quality Control Plan was prepared under the direction of

Michael P. Carlin
Chief, Basin Planning

by

Randy Y. Lee
Associate Water Resources Control Engineer

Kim A. Taylor
Ph.D., Environmental Specialist III

with assistance from the following Regional Board staff

Thomas R. Gandesbery
Environmental Specialist III

Peggy R. Olofson
Water Resources Control Engineer

Jessica Lacy
Assoc. Water Resources Control Engineer, 1990-1995

Steven R. Ritchie
Executive Officer, 1988-1995

Steven M. Moore
Sanitary Engineering Associate

Linda L. Spencer
Associate Engineering Geologist

Stephen I. Morse
Chief, Toxics Cleanup Division

A. Lynn Suer
Ph.D., Environmental Specialist IV

Thomas E. Mumley
Ph.D., Associate Water Resources Control Engineer

Dyan C. Whyte
Associate Engineering Geologist

and assistance from the following State Board staff

Joanne Cox
Environmental Specialist III

Sheila Vassey
Staff Counsel III

John Ladd
Chief, Basin Planning Unit

Production

Kathryn Ankrum
Technical Editor

Carrie Salazar
GIS Specialist

Darren Campeau
Graphic Designer

CHAPTER 1: INTRODUCTION

The San Francisco Bay Region.....	1-1
The Bay System's Surface and Ground Waters.....	1-1
The Regional Board.....	1-2
Water Quality Control Plan.....	1-2
Watershed Management Planning.....	1-3
The San Francisco Estuary Project.....	1-3

CHAPTER 2: BENEFICIAL USES

Definitions of Beneficial Uses	2-1
Agricultural Supply	2-1
Areas of Special Biological Significance.....	2-1
Cold Freshwater Habitat	2-2
Ocean, Commercial, and Sport Fishing	2-2
Estuarine Habitat	2-2
Freshwater Replenishment	2-2
Groundwater Recharge	2-2
Industrial Service Supply	2-2
Marine Habitat	2-2
Municipal and Domestic Supply.....	2-3
Navigation	2-3
Industrial Process Supply	2-3
Preservation of Rare and Endangered Species.....	2-3
Water Contact Recreation	2-3
Noncontact Water Recreation	2-4
Shellfish Harvesting	2-4
Fish Spawning	2-4
Warm Freshwater Habitat	2-4
Wildlife Habitat	2-4
Present and Potential Beneficial Uses	2-5
Surface Waters.....	2-5
Groundwaters.....	2-5
Wetlands.....	2-6

CHAPTER 3: WATER QUALITY OBJECTIVES

Water Quality Objectives.....	3-1
Objectives for Ocean Waters	3-2
Objectives for Surface Waters	3-2
Bacteria.....	3-2
Bioaccumulation.....	3-2
Biostimulatory Substances.....	3-2
Color.....	3-3
Dissolved Oxygen.....	3-3
Floating Material.....	3-3
Oil and Grease.....	3-3
Population and Community Ecology.....	3-3
pH.....	3-3
Salinity.....	3-3
Sediment.....	3-3
Settleable Material.....	3-3
Suspended Material.....	3-3
Sulfide.....	3-3
Tastes and Odors.....	3-4
Temperature.....	3-4
Toxicity.....	3-4
Turbidity.....	3-4
Un-ionized Ammonia.....	3-4

CHAPTER 3: WATER QUALITY OBJECTIVES CONTINUED

Objectives for Specific Chemical Constituents.....3-5
 Constituents of Concern for Municipal and Agricultural Water Supplies3-5
 Radioactivity.....3-5
 Objectives for Groundwaters.....3-5
 Bacteria.....3-6
 Organic and Inorganic Chemical Constituents.....3-6
 Radioactivity.....3-6
 Taste and Odor.....3-7
 Objectives for the Delta and Suisun Marsh3-7
 Objectives for Alameda Creek Watershed.....3-7

CHAPTER 4: IMPLEMENTATION PLAN

The Watershed Management Approach.....4-1
 Toxic Pollutant Management in the Larger San Francisco Bay Estuary System4-2
 Numerical Water Quality Objectives: Wasteload Allocations4-2
 Toxic Pollutant Accumulation: Mass-Based Strategies4-2
 Scientific Research: Ongoing Refinement of Programs4-3
 Riverine Flows, System Flushing, and Pollutant Loading4-3
 Delta Outflow4-3
 San Luis Drain4-3
 Toxic Pollutant Management in Segments of the San Francisco Bay Estuary.....4-4
 Local Wasteload Allocation.....4-4
 Effluent Toxicity Control Program: Local Toxicity Objectives4-4
 Local Toxic Pollutant Accumulation4-4
 Toxic Pollutant Management in Individual Watersheds4-4
 The Napa Example4-5
 The Corte Madera Creek Example4-5
 Discharge Prohibitions Applicable Throughout the Region.....4-5
 Surface Water Protection and Management—Point Source Control.....4-6
 Types of Point Sources4-6
 Waste Discharge Permitting Program4-6
 Effluent Limitations.....4-7
 Technology- and Water Quality-Based Limitations4-7
 Site-Specific Objectives4-7
 Best Professional Judgement4-7
 Effluent Limitations.....4-8
 Discharges to Ocean Waters4-8
 Discharges to Inland Surface Waters, Enclosed Bays, and Estuaries4-8
 Limitations for Conventional Pollutants.....4-8
 Limitations for Selected Toxic Pollutants.....4-8
 Alternate Limits4-8
 Whole Effluent Toxicity Limits and Control Program4-9
 Acute Toxicity4-9
 Chronic Toxicity4-9
 Toxicity Identification/Reduction Evaluation (TIE/TRE).....4-10
 Effluent Toxicity Characterization Program.....4-10
 Calculation of Water Quality-Based Effluent Limitations4-11
 Dilution Ratios.....4-11
 Deep Water Discharges.....4-11
 Shallow Water Discharges.....4-12
 Fresh Water vs. Marine Water.....4-13
 Background Concentrations4-13
 Implementation of Effluent Limitations4-13
 (a) Performance-Based Limits.....4-13
 (b) Site-Specific Objective Incorporation.....4-13
 (c) Averaging Periods.....4-13
 (d) Method Detection Limits, Practical Quantitation Levels (PQL),
 and Limits of Quantification (LOQ).....4-14
 (e) Selection of Parameters4-14
 (f) Compliance Schedules.....4-14
 Stormwater Discharges.....4-14
 Wet Weather Overflows4-15
 Federal Combined Sewer Overflow Control Policy4-15
 Conceptual Approach4-16
 Surface Impoundment Overflow Protection4-17
 Discharge of Treated Groundwater.....4-17

CHAPTER 4: IMPLEMENTATION PLAN CONTINUED

Municipal Facilities.....	4-18
City And County of San Francisco	4-18
South Bay Municipal Dischargers (San Jose/Santa Clara, Palo Alto, and Sunnyvale) ...	4-18
Fairfield-Suisun Sewer District (FSSD)	4-20
Livermore-Amador Valley.....	4-21
East Bay Municipal Utility District (EBMUD) and Local Agencies	4-24
Industrial Facilities.....	4-25
Pretreatment and Pollution Prevention	4-25
California Pretreatment Program.....	4-25
Pollution Prevention.....	4-26
General Pollution Prevention Programs	4-26
Targeted Pollution Prevention Programs	4-27
Direct Industrial Discharger Pollution Prevention Program.....	4-27
Surface Water Protection and Management—Nonpoint Source Control Measures.....	4-28
Urban Runoff Management	4-28
Management of Pollutant Discharge From Storm Drains.....	4-29
Baseline Control Program.....	4-29
Comprehensive Control Program.....	4-30
Highway Runoff Control Program.....	4-31
Industrial Activity Control Program.....	4-31
Tier I: General Permitting	4-32
Tier II: Specific Watershed Permitting	4-32
Tier III: Industry-Specific Permitting	4-32
Tier IV: Facility-Specific Permitting	4-32
Construction Activity Control Program	4-32
Agricultural Wastewater Management	4-33
Animal Confinement Operations	4-33
Dairy Waste Management.....	4-33
Dairy Waste Regulation	4-34
Irrigation Operations.....	4-35
Reclamation	4-35
Regulatory Requirements.....	4-35
Source Quality Control.....	4-36
Governmental Coordination.....	4-36
Municipal Wastewater Sludge Management	4-37
On-Site Wastewater Treatment and Disposal Systems.....	4-37
Policy on Discrete Sewerage Facilities.....	4-38
Individual System Guidelines.....	4-38
Alternative On-Site Wastewater Systems	4-38
Graywater Disposal Systems	4-39
Erosion and Sediment Control.....	4-40
Dredging and Disposal of Dredged Sediment	4-41
Background	4-41
Regulatory Framework	4-42
Environmental Impacts of Dredging and Disposal in the Aquatic Environment	4-42
Dredging Study Programs	4-43
Dredging Management Program.....	4-43
Long-Term Management Strategy.....	4-43
The LTMS Process.....	4-43
Ocean Studies.....	4-44
In-Bay Studies.....	4-44
Upland and Non-tidal/Reuse Studies.....	4-44
Wetland Restoration Using Dredged Material	4-44
Sonoma Baylands.....	4-45
Montezuma Wetlands Restoration Project.....	4-45
Regional Board Policies on Dredging and Dredged Sediment Disposal	4-45
Mines and Mineral Producers	4-47
Inactive Sites.....	4-47
Active Sites.....	4-48
Goal.....	4-48
Program	4-48
Vessel Wastes	4-49
Wetlands Protection and Management	4-49
Regional Wetlands Management Plan	4-50
Determination of Applicable Beneficial Uses for Wetlands	4-50
Hydrology	4-50
Wetland Fill	4-50
Oil Spills	4-51

CHAPTER 4: IMPLEMENTATION PLAN CONTINUED

Groundwater Protection and Management.....4-52
 Groundwater Program Goals.....4-52
 Application of Water Quality Objectives.....4-52
 Regulation of Potential Pollution Sources4-53
 Shallow Drainage Wells.....4-53
 Hazardous and Nonhazardous Waste Disposal.....4-55
 CCR Title 23, Chapter 154-56
 Resource Conservation and Recovery Act (RCRA).....4-57
 Toxic Pits Cleanup Act4-57
 Solid Waste Assessment Tests4-58
 Landfill Expansions.....4-58
 Bayfront Landfill Expansions into Wetlands4-58
 Cleanup of Polluted Sites4-58
 Program Areas.....4-59
 Underground Storage Tank Program4-59
 Spills, Leaks, Investigation, and Clean-up Program (SLIC)4-60
 Department of Defense and Department of Energy Program4-60
 U.S. EPA Superfund Program.....4-60
 Aboveground Petroleum Storage Act4-61
 Requirements for Site Investigation and Remediation.....4-61
 Progress of the Regional Board's Program.....4-62
 Setting Clean-up Levels.....4-62
 Groundwater Clean-up Levels4-62
 Soil Clean-up Levels4-63
 Non-attainment of Groundwater Clean-up Levels.....4-64
 Future Regulatory Management Strategies.....4-64
 Groundwater Protection Programs.....4-64
 Groundwater Resource Study4-65
 Integrated Environmental Management Project4-65
 State Board Groundwater Protection Planning Contract4-65
 Emerging Program Areas4-66
 Wetland Planning4-66
 Pilot Regulatory Program.....4-66
 Sediment.....4-66

CHAPTER 5: PLANS AND POLICIES

State Water Resources Control Board Statewide Plans and Policies.....5-1
 Regional Board Plans and Policies.....5-2
 Cooperative Agreements.....5-3
 Regional Monitoring, Data Use, and the Aquatic Habitat Program.....5-3
 Discharger Reporting and Responsibilities.....5-4
 Delta Planning.....5-4
 Dredging.....5-4
 Nonpoint Source Pollution.....5-5
 On-Site Waste Disposal and Waste Discharge.....5-5
 Shellfish.....5-5
 Vessel Wastes.....5-7
 Water Reclamation.....5-7
 Wetlands.....5-7
 Groundwater.....5-7

CHAPTER 6: SURVEILLANCE AND MONITORING

Regional Monitoring Program.....6-1
 State Mussel Watch and Toxic Substances Monitoring Programs.....6-2
 Sacramento-San Joaquin Rivers and Northern San Francisco Bay
 Estuary Water Quality Surveillance.....6-2
 Groundwater Monitoring Networks.....6-2
 Compliance Monitoring6-3
 Complaint Investigation.....6-3
 Biennial Water Quality Inventory.....6-3
 Other Monitoring Programs.....6-3
