Re: Comment Shasta River Increase Flows

Fax to: Song Her Clerk to the board (916) 341-5620 fax

Dear SWRCB:

I, thought you were mandated to protect these rivers. I, don't see why there is a question as to increase the water flow to the Shasta River.

45 CFS is nothing compared to the unimpaired flow. The Klamath River is what Pacific Fishing Management Council is using to shut down the commercial salmon fishing.

There are people standing over me with shovels of dirt ready to bury me! Please increase the flows now.

Dean Estep  
Ft. Bragg, Commercial Fisherman
