Mr. Jeffrey Shu
State Water Resources Control Board
Division of Water Quality
P.O. Box 100
Sacramento, CA 95812-0100

August 30, 2010

Mr. Shu:

Please add to the record the attached proposal compiled by fisheries expert Pat Higgins to list the Shasta River as a flow impaired water body, as well as several of its tributaries. Klamath Riverkeeper is joined in this submission by the Pacific Coast Federation of Fisherman's Associations, the Institute for Fisheries Research, the Environmental Protection Information Center and the Klamath Forest Alliance.

Additionally, Klamath Riverkeeper fully endorses the separate proposal submitted by the Klamath Basin Tribal Water Quality Work Group to list the Scott River as flow impaired on California's 2012 303d list.

Klamath Riverkeeper is also submitting an isolated lab result from a Dwinnell Reservoir water sample collected by one of our staff members, Malena Marvin, last June. The lab results from this sample are attached, as is a data submission form to accompany our submissions.

Please let me know if you have any questions.

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read 'Erica Terence'.
