Subject: Procedure for Requesting State Water Board Review of SF Bay Regional Water Board 303(d) Listing Recommendations

Upon approving the 2016 303(d) List, the Regional Water Board is required to submit the water body fact sheets, responses to comments, and all other information it considered during the hearing, to the State Water Resources Control Board (State Water Board).

If any person or entity seeks to have the State Water Board review a listing recommendation made by the Regional Water Board with respect to one or more waterbodies, the individual or entity must submit a request to the State Water Board to review of the specific listing recommendation no later than 30 days after the date of the Regional Water Board's approval. Send requests for specific review by emailing the specific listing recommendations and the concerns related to those recommendations to WQAssessment@waterboards.ca.gov (must be no more than 15 megabytes); or mail or hand delivery at:

Surface Water Quality Assessment Unit
State Water Resources Control Board, Division of Water Quality
P.O. Box 100, Sacramento, CA 95812-2000 (mail)
1001 I Street, 15th Floor, Sacramento, CA 95814 (hand delivery)

Please also indicate in the subject line, "Request for Review of specific Regional Board listing recommendation – 303(d) List portion of the 2016 California Integrated Report."

Before the State Water Board approves the 2016 303(d) List, the State Water Board shall provide advance notice and an opportunity for public comment. The public comment will be limited to the listing recommendations that are timely requested for review unless the State Water Board elects to consider recommendations on other waters.

Upon approval by the State Water Board, the statewide 2016 List shall be submitted to U.S. EPA for approval as required by the Clean Water Act.
