Subject: Additional 2002 303 (d) data for Mandalay Beach Closures

Regional Board 4 (RB4) would like to include additional data which may be used to facilitate the removal of Mandalay Beach from the 303 (d) list as being impaired for REC-1 uses for beach closures. RB4 received a letter from Ventura County Environmental Health Division (EHD) stating that there has been only a single four-day beach closure on one of these two beaches since 1999, and therefore they now meet EPA and RB 4 beach closure criteria and should be delisted for beach closures. * In addition, Mandalay Beach coliform data was analyzed and found to have lower levels of coliform than those required for listing, therefore showing again that this beach is not impaired for REC - 1 uses by coliforms. This data is attached. It is the opinion of RB4 staff that this new data should be included in the 2002 303(d) analysis for a complete review of Mandalay Beach.

*This letter will be faxed to Craig Wilson at 916.341.5463 today.

Lisa Carlson

"The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at <http://www.swrcb.ca.gov/news/echallenge/html> ."
