**Subject:** Reanalysis of proposed beach listings

Craig and Melenee,

Here is our reanalysis of our 2002 proposed beach listings, per the BWQWG's draft listing methodology. Interestingly, it did not change any of our proposed listings or delistings, except that we evaluated each shoreline monitoring site individually (rather than lumping the data for all sites on a beach into one dataset), resulting in some sites on a beach not being proposed for listing, while others on the same beach continue to be proposed for listing. As I remember, our proposal is to list the extent of impairment as extending 50 yards on each side of the sampling point. Let me know if you have any questions.

The summary is that we still propose listing certain monitoring locations for the following beaches:

- San Buenaventura Beach
- Seaside Park, including Surfer's Point (also known as Promenade Park)
- Channel Islands Harbor Beach/Hobie Beach
- Ormond Beach
- Peninsula Beach
- Rincon Beach
- Avalon Beach
- Castlerock Beach

We still propose delisting one beach for bacteria:

Surfer's Knoll

Regards,  
Renee
