CALIFORNIA REGIONAL WATER
QUALITY CONTROL BOARD
LOS ANGELES REGION

Dear Ms. Neiter,

This report is a request to modify the 303(d) list for the Los Angeles Region. On November 5th, 2006 a field study was performed at Peck Road Park Reservoir (Id: 4053000.) The study found that excessive amounts of trash and other waste products not listed on the current 303(d) list are currently present at the site. I am requesting that a trash TMDL be assigned to this water body as well as more importance be paid to the current TMDL's for DDT, Chlordade, and lead seeing as resident of surrounding community use the water body as a resource for fish. Thank you for your time.

Sincerely,

Dylan Porter
