

Los Angeles Regional Water Quality Control Board

NOTICE OF HEARING
AND OPPORTUNITY TO COMMENT

To: Interested Persons

From: Renee Purdy, Section Chief *RatP*
Regional Programs

Date: February 8, 2017

Subject: Notice of Public Hearing and Opportunity to Comment on the Proposed Revisions to the Clean Water Act Section 303(d) List for the Los Angeles Region and the 2016 Integrated Report

The California Regional Water Quality Control Board, Los Angeles Region (Los Angeles Water Board) will hold a public hearing to consider proposed revisions to the Clean Water Act Section 303(d) list of impaired waterbodies in the Los Angeles Region (303(d) list) on April 6, 2017.

The Los Angeles Water Board is expected to take formal action on proposed revisions to the 303(d) list and to hear further information on water quality assessments in the Los Angeles Region per Clean Water Act Section 305(b). Proposed revisions to the 303(d) list, supporting documentation, and a tentative Board Resolution, are available on the Los Angeles Water Board's website at:

http://www.waterboards.ca.gov/losangeles/water_issues/programs/303d_list.shtml.

The federal Clean Water Act (CWA) gives states the primary responsibility for protecting and restoring water quality. Under CWA Section 305(b), states are required to report biennially to the United States Environmental Protection Agency (USEPA) on the water quality conditions of the state's surface waters. The USEPA then compiles these assessments into their biennial "National Water Quality Inventory Report" to Congress. Under CWA Section 303 (d), states are required to review, makes changes as necessary, and submit to the USEPA a list identifying water bodies not meeting water quality standards and identifying the water quality parameter (i.e., pollutant) not being met (303(d) list). Placement on this list generally triggers development of a pollution control plan called a total maximum daily load (TMDL) for each water body/pollutant pair on the list.

California reports the 305(b) water quality assessment and the 303(d) list of impaired waters in a single report called the Integrated Report. The Los Angeles Water Board is responsible for developing the 2016 Integrated Report for waters within the Los Angeles Region of California.

Pursuant to section 6.2 of the "Water Quality Control Policy for Developing California's Clean Water Act Section 303(d) List," waterbodies which make up the 303(d) list are subject to public review and approval by the Los Angeles Water Board. Other assessed waterbodies in the Integrated Report are provided to the public and to the Los Angeles Water Board as additional waterbody information.

Following adoption of the 303(d) list by the Los Angeles Water Board, the 2016 Integrated Report will be transmitted to the State Water Resources Control Board (State Water Board), where it will be considered by the State Water Board in combination with other Regional Water Boards' Integrated Reports.

The California 303(d) list will require final approval by USEPA. If USEPA determines that changes are needed to the submitted report they will initiate further public review before finalizing and publishing the report.

I. HEARING DATE AND LOCATION

The Los Angeles Water Board will hold a public hearing to consider the proposed revisions to the 303(d) list. The Los Angeles Water Board is expected to take formal action. The Los Angeles Water Board is scheduled to consider this matter at its regularly scheduled board meeting on:

Date: Thursday, April 6, 2017
Time: 9:00 a.m.
Place: City of Simi Valley
Council Chambers
2929 Tapo Canyon Road
Simi Valley, CA 93063

Please check the Los Angeles Water Board's website (<http://www.waterboards.ca.gov/losangeles/>) for the most up-to-date public hearing date and location as they are subject to change.

II. AVAILABILITY OF DOCUMENTS

The tentative resolution, proposed 303(d) list changes and supporting documentation are available on the Los Angeles Water Board's website at:

http://www.waterboards.ca.gov/losangeles/water_issues/programs/303d_list.shtml.

These documents are also available for inspection and copying between the hours of 8:00 a.m. and 4:30 p.m. at the following address:

California Regional Water Quality Control Board
Los Angeles Region
320 W. 4th Street, Suite 200
Los Angeles, CA 90013

Arrangements for reviewing the documents at the Los Angeles Water Board offices may be made by calling the Los Angeles Water Board at (213) 576-6600. Comments and responses to comments and other subsequent relevant documents will be available online as they are generated.

III. PUBLIC COMMENTS AND SUBMITTAL OF EVIDENCE

Persons wishing to comment on the tentative resolution, proposed 303(d) list changes and supporting documentation, or submit evidence for the Los Angeles Water Board to consider, are invited to submit them in writing.

To be evaluated and responded to by Los Angeles Water Board staff, included in the Los Angeles Water Board's agenda binder, and fully considered by the Los Angeles Water Board members in advance of the hearing, all written comments and evidence must be *received* by the Los Angeles Water Board no later than **5:00 p.m. on March 9, 2017**. Written comments submitted untimely will not be accepted or responded to by the Los Angeles Water Board. Failure to comply with these requirements is grounds for the Los Angeles Water Board to refuse to admit the proposed written comment or evidence into the administrative record.

Interested persons are encouraged to submit comments electronically and in Microsoft Word format. Send comments by e-mail to: losangeles@waterboards.ca.gov. Please indicate in the subject line, "**Comment Letter – Revisions to the Los Angeles Region 303(d) list.**" Written comments sent by mail should be addressed to:

California Regional Water Quality Control Board
Los Angeles Region
ATTN: Jun Zhu
320 W. 4th Street, Suite 200
Los Angeles, CA 90013

Interested persons are also invited to attend the hearing and present oral comments. Oral comments should, to the extent possible, summarize written comments. Time limitations on oral comments will be imposed. At the discretion of the Los Angeles Water Board Chair, oral comments may be limited to three minutes each, depending on the number of persons wishing to be heard. Interested persons requesting more than three minutes should contact Los Angeles Water Board staff, as provided in Section V. below, no later than 5:00 p.m. on March 9, 2017 to state how much time they believe is necessary for their oral comments.

IV. FUTURE REVIEW BY STATE WATER BOARD

To request the State Water Resources Control Board (State Water Board) or Executive Director of the State Water Board review specific listing recommendations approved by the Los Angeles Water Board, the request must be submitted to the State Water Board within 30 days after the Los Angeles Water Board approval. Such requests may be submitted electronically, in pdf text format (if less than 15 megabytes in total size), to the Clerk to the State Water Board via email at commentletters@waterboards.ca.gov. If the file is greater than 15 megabytes in total size, then the comment letter may be submitted by fax at (916) 341-5620.

Written comment letters to the State Water Board may also be mailed to:

Jeanine Townsend, Clerk to the Board
State Water Resources Control Board
1001 I Street, 24th Floor
Sacramento, CA 95814

Please also indicate in the subject line, "**Request for Review – Regional 303(d) Listing recommendations.**"

The State Water Board, when considering approval of a Regional Water Board's approval of a 303(d) list, may refuse to accept any comments that were not timely raised before the Regional Water Board. Therefore, interested persons are strongly encouraged to make all comments on this proposed action to the Los Angeles Water Board before or during the public hearing.

V. LOS ANGELES WATER BOARD STAFF CONTACTS

For additional information regarding these proposed actions, please contact Dr. Jun Zhu at Jun.Zhu@waterboards.ca.gov or (213) 576-6681 or Dr. L.B. Nye, at LB.Nye@waterboards.ca.gov or at (213) 576-6785.

**State Of California
California Regional Water Quality Control Board, Los Angeles Region**

RESOLUTION NO. R17-XXX

April 6, 2017

**Approval of Recommendations for the Federal Clean Water Act (CWA)
Section 303(d) List**

WHEREAS, the California Regional Water Quality Control Board, Los Angeles Region finds that:

3. Section 303(d) of the CWA and Title 40, Code of Federal Regulations Section 130.7 require states to develop and submit to the U.S. Environmental Protection Agency (U.S. EPA) for approval a list of water bodies for which water quality standards (beneficial uses and water quality objectives) are not attained, or are not expected to be attained, with the implementation of certain technology-based controls. This list is commonly referred to as the "303(d) List" or the "List of Impaired Waters."
2. Section 305(b) of the CWA requires states to monitor, assess and submit biennially to the U.S. EPA a report assessing statewide surface water quality.
3. The California Integrated Report includes the requirements of CWA Section 305(b) and Section 303(d).
4. The 303(d) List must include a description of the pollutants causing impairment and a completion date for prioritizing the development of a Total Maximum Daily Load (TMDL) for each pollutant.
5. Only the 303(d) List portion of the California Integrated Report requires approval by the State Water Resources Control Board (State Water Board) and the U.S. EPA. Neither agency approves the 305(b) Report portion of the California Integrated Report.
6. The process for developing and approving the 303(d) List, including requests for review of specific listing recommendations by a Regional Water Quality Control Board is outlined in the *Water Quality Control Policy for Developing California's Clean Water Act Section 303(d) List* (Listing Policy).
7. Upon approval, the Los Angeles Water Board's recommended 303(d) List will be submitted to the State Water Board and compiled into a statewide 303(d) List. The

**T
E
N
T
A
T
I
V
E**

statewide 303(d) List is subject to the approval of the State Water Board and the U.S. EPA.

8. In accordance with sections 6.2 and 6.3 of the Listing Policy, before the Executive Director of the State Water Board or the State Water Board approves the California section 303(d) List, the State Water Board shall provide advance notice and opportunity for public comment. Public comment will be limited to listing recommendations that are timely requested for review pursuant to section 6.2 of the Listing Policy unless the Executive Director or the State Water Board elects to consider recommendations on other waters. To request that the State Water Board or Executive Director review specific listing recommendations approved by a Regional Water Board, the request must be submitted to the State Water Board within 30 days after the Regional Water Board approval.
9. In January of 2010, the State Water Board solicited water quality data from the public with a formal “Notice of Public Solicitation of Water Quality Data and Information for the California Integrated Report,” which was sent to interested persons subscribed to the State Water Board’s Integrated Report e-mail distribution list. In addition, the Los Angeles Water Board sent the notice to persons subscribed to the Los Angeles Water Board’s Basin Plan Amendments and TMDL e-mail distribution lists.
10. In developing the 2016 Integrated Report for CWA Section 305(b) and the Section 303(d) List, the Los Angeles Water Board considered all readily available data and information submitted to the State Water Board during the State Water Board data solicitation period of January 14, 2010 to August 30, 2010.
11. After reviewing all relevant evidence submitted, Los Angeles Water Board staff has:
 - For 305(b), made overall beneficial use support ratings for the water bodies that have been assessed for this 2016 assessment cycle. Categories 1, 2, 3, 4, and 5 of the Los Angeles Water Board’s Integrated Report reflect the outcome of the overall use support ratings.
 - For 303(d), made recommendations to add, remove or change the 2016 CWA Section 303(d) List of Impaired Waters for the Los Angeles Water Board’s 2016 Integrated Report. The 303(d) List is reflected in Categories 4a, 4b, and 5 of the Integrated Report.
12. On February 8, 2017, the Los Angeles Water Board provided public notice of the 2016 Integrated Report for the Los Angeles Region and a 30-day comment period; issued a Notice of Hearing to interested persons; and published notice of the 2016 Integrated Report and the hearing in the Los Angeles Times and Ventura County Star.

T
E
N
T
A
T
I
V
E

13. Los Angeles Water Board staff responded in writing to the written comments received during the public comment period and revised staff's recommendations for additions, deletions, and changes to the 303(d) List, the supporting 2016 Integrated Report, and water body fact sheets as appropriate.
14. No action is required by the Los Angeles Water Board for staff's assessment of non-impaired water bodies under Section 305(b).
15. On April 6, 2017, the Los Angeles Water Board held a Public Hearing to consider and approve the recommendations for the 303(d) List. The Los Angeles Water Board considered all evidence provided by Los Angeles Water Board staff and the public.

THEREFORE BE IT RESOLVED THAT:

1. The Los Angeles Water Board hereby approves the recommendations for the 2016 303(d) List for the Los Angeles Region.
2. The Executive Officer is to transmit the Los Angeles Water Board's proposed recommendations for the 2016 Integrated Report with its supporting information and evidence including approved revisions, to the State Water Board for its consideration and incorporation into the final 2016 California Integrated Report.

I, Samuel Unger, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of a resolution adopted by the California Regional Water Quality Control Board, Los Angeles Region, on April 6, 2017.

Samuel Unger
Executive Officer

1. Introduction

The federal Clean Water Act (CWA) gives states the primary responsibility for protecting and restoring water quality. Under CWA Section 305(b), states are required to report biennially to the United States Environmental Protection Agency (USEPA) on the water quality conditions of their surface waters. The USEPA then compiles these assessments into their biennial “National Water Quality Inventory Report” to Congress. Under CWA Section 303(d), states are required to review, makes changes as necessary, and submit to the USEPA a list identifying waterbodies not meeting water quality standards and identifying the water quality parameter (i.e., pollutant) not being met (303(d) list). Placement on this list generally triggers development of a pollution control plan called a total maximum daily load (TMDL) for each waterbody/pollutant pair on the list.

In 2002, the USEPA issued guidance to states requiring that the 305(b) water quality assessment and the 303(d) list of impaired waters be integrated into a single report. This report is called the Integrated Report, and it satisfies both the CWA Section 305(b) and Section 303(d) requirements. The Los Angeles Regional Water Quality Control Board (Los Angeles Water Board) is responsible for developing and adopting the 2016 Integrated Report for waters within the Los Angeles Region of California. Following adoption by the Los Angeles Water Board, the 2016 Integrated Report will be transmitted to the State Water Resources Control Board (State Water Board), where it will be considered by the State Water Board in combination with other Regional Water Board Integrated Reports.

The purpose of this staff report is to describe the assessment process (the procedures used by the State Water Board and Los Angeles Water Board staff to analyze data and information), provide a report of surface water quality in the Los Angeles Region as required by CWA Section 305(b), and provide Los Angeles Water Board staff recommendations for additions, deletions, and changes to the California CWA Section 303(d) List.

The results of the staff analysis are presented as staff recommendations in the form of fact sheets that contain a decision and supporting lines of evidence for each water body/pollutant pair assessed. A summary of staff recommendations can be found in Section 4. The fact sheets are available in Appendix G of this Staff Report.

2. Legal Requirements and Policy

This section provides a summary of the federal and state legal requirements and applicable policies for the 2016 Integrated Report.

2.1 Federal Requirements

2.1.1 CWA Section 303(d) – Impaired Waters

Section 303(d) of the Clean Water Act requires states to identify waters that do not meet applicable water quality standards after the application of certain technology-based controls.¹ The Section 303(d) List must include a description of the pollutants causing the violation of water quality standards (40 CFR §130.7(b)(iii)(4)) and a priority ranking of the water quality limited segments, taking into account the severity of the pollution and the uses to be made of the waters.

Water quality standards include the designated beneficial uses of a waterbody, the adopted water quality objectives to protect those uses (numeric and narrative), and the State's Antidegradation Policy (State Water Board Resolution No. 68-16) (SWRCB 1968).

Federal regulation defines a "water quality limited segment" as "any segment [of a surface waterbody] where it is known that water quality does not meet applicable water quality standards, and/or is not expected to meet applicable water quality standards, even after application of technology-based effluent limitations required by CWA Sections 301(b) or 306" (40 CFR 130.2(j)).

States are required to review the Section 303(d) List in even-numbered years, make changes as necessary, and submit the list to the USEPA for approval. A TMDL is generally developed for a water quality limited segment. A TMDL is the sum of the individual waste load allocations for point sources, load allocations for nonpoint sources, and natural background (40 CFR 130.2(i)).

2.1.2 CWA Section 305(b) – Water Quality Assessment

Under CWA Section 305(b), states are required to report biennially to the USEPA on the water quality conditions of their surface waters. The USEPA then compiles these assessments into their biennial "National Water Quality Inventory Report" to Congress.

2.1.3 The Integrated Report and Waterbody Categories

In 2002, the USEPA issued guidance to states requiring that the 305(b) water quality assessment and the 303(d) list of impaired waters be integrated into a single report. This report is called the Integrated Report, and it satisfies both the CWA Section 305(b) and Section 303(d) requirements.

To meet CWA Section 305(b) requirements of reporting on water quality conditions, the Integrated Report places each assessed waterbody segment into one of five non-overlapping

¹ Technology-based controls are defined in CWA Section 301. They include effluent limits (primary and secondary treatment requirements) for industrial discharges and discharges from publicly owned treatment works.

categories based on the overall beneficial use support of the water segment and the need for a TMDL. Water segments are evaluated for at least one of six “core” beneficial uses including: municipal and domestic supply, aquatic life support, fish consumption, shellfish harvesting, contact recreation, and non-contact recreation.

Table 1. Integrated Report Categories

Category	Description
1	All assessed beneficial uses supported and no beneficial uses known to be impaired.
2	There is insufficient information to determine beneficial use support.
3	There is insufficient data and/or information to make a beneficial use support determination but information and/or data indicates beneficial uses may be potentially threatened.
4	At least one beneficial use is not supported but TMDL is not needed.
4a	A TMDL has been developed and approved by U.S.EPA for any waterbody-pollutant combination and the approved implementation plan is expected to result in full attainment of the water quality standard within a specified time frame..
4b	Another regulatory program is reasonably expected to result in attainment of the water quality standard within a reasonable, specified time frame.
4c	The non-attainment of any applicable water quality standard for the waterbody segment is the result of pollution and is not caused by a pollutant.
5	At least one beneficial use is not supported and a TMDL is needed.

A waterbody will often have multiple pollutants impairing multiple beneficial uses. In these cases, when the waterbody has TMDLs for all the impaired uses, the waterbody is placed in category 4a; when the waterbody is lacking a TMDL for at least one impairment, the waterbody is placed in category 5.

2.2 California Requirements

On September 30, 2004, the State Water Board adopted the “Water Quality Control Policy for Developing California’s Clean Water Act Section 303(d) List,” also known as the Listing Policy (SWRCB 2004a) in accordance with California Water Code Section 13191.3(a). The Listing Policy identifies the process by which the State Water Board and the Regional Water Quality Control Boards will comply with the listing requirements of CWA Section 303(d). The Listing Policy became effective in December 2004. Justification of each portion of the Listing Policy is presented in the Final Functional Equivalent Document (SWRCB, 2004b) that was developed to support the provisions of the Listing Policy.

The objective of the Listing Policy is to establish a standardized approach for developing California’s Section 303(d) List with the overall goal of achieving water quality standards and

maintaining beneficial uses in all of California's surface waters. TMDLs will generally be developed as needed for the waters identified under the provisions of the Listing Policy.

The Listing Policy outlines a "weight of evidence" approach that provides the rules for making decisions based upon different kinds of data, an approach for analyzing data statistically, and requirements for data quality, data quantity, and the administration of the listing process. Decision rules for listing and delisting are provided for chemical-specific water quality standards; bacterial water quality standards; health advisories; bioaccumulation of chemicals in aquatic life tissues; nuisance such as trash, odor, and foam; nutrients; water and sediment toxicity; adverse biological response; and degradation of aquatic life populations and communities. The Listing Policy also requires that situation specific weight of evidence listing or delisting factors be used if available information indicates water quality standards are attained or not attained and the other decision rules do not support listing or delisting.

The Listing Policy also provides direction related to:

- The definition of readily available data and information.
- Administration of the listing process including data solicitation and fact sheet preparation.
- Interpretation of narrative water quality objectives using numeric evaluation guidelines.
- Data quality assessments.
- Data quantity assessments including waterbody specific information, data spatial and temporal representation, aggregation of data by reach/area, quantitation of chemical concentrations, evaluation of data consistent with the expression of water quality objectives or criteria, binomial model statistical evaluation, evaluation of bioassessment data, and evaluation of temperature data.

The Listing Policy requires that *all* surface waters that do not meet water quality standards be placed on the Section 303(d) List. The Policy also states that the California 303(d) List includes (1) waters still requiring a TMDL under Category 5, and (2) waters where the water quality limited segment is being addressed under Category 4. Waterbodies in the "Water Quality Limited Segments Being Addressed" category must meet either of the following conditions:

1. A TMDL has been approved by USEPA and is expected to result in full attainment of the standard within a reasonable, specified time frame (Category 4a).
2. It has been determined that an existing regulatory program is reasonably expected to result in the attainment of the water quality standard within a reasonable, specified time frame (Category 4b).

Waterbodies that are impaired by a non-pollutant source (Category 4c) do not require a TMDL and the State Water Board, in accordance with the Listing Policy, does not consider waters in Category 4c as a part of the 303(d) List. This means that, for California, waters that fall into the Integrated Report Categories 4a, 4b, and 5 are considered part of the California 303(d) List. The USEPA considers Category 5 waterbodies as the only category that constitutes the 303(d) List.

2.3 TMDL Scheduling

In conformance with Section 5 of the Listing Policy, a TMDL completion schedule date is required for all waterbody-pollutant combinations placed on the 303(d) List. Water Board staff relied on guidance from the USEPA (1997), which states that “schedules should be expeditious and normally extend from eight to thirteen years in length, but could be shorter or slightly longer depending on State-specific factors.” Therefore, the timeline for completing TMDLs for waterbodies listed for the first time as part of the 2016 Integrated Report is estimated to be no longer than thirteen years, which equates to an estimated completion date of 2029. Expected TMDL completion dates are proposed by Los Angeles Water Board staff in the fact sheets of this report (Appendix G).

2.4 2010 303(d) List of Impaired Waters

The 2010 303(d) list was adopted by the Los Angeles Water Board on July 16, 2009, in Resolution No. R09-004; adopted by the State Water Board on August 4, 2010, in Resolution No. 2010-0040; and approved by the USEPA on October 11, 2011. The 2010 list included data submitted through February 28, 2007. The 2010 303(d) list is the most recent list which included updates from the Los Angeles Region.

2.5 Changes to California’s Integrated Report 303(d) and 305(b) Process

In February 2013, the State Water Board announced a new strategy for the development of the State’s Integrated Report including establishing three groups of Regional Water Boards and submitting an Integrated Report for one group per listing cycle (i.e. every two years). This strategy was formally described in an *Integrated Report Update Memo* in November 2013 (SWRCB, 2013). The Listing Policy was amended to reflect this and other changes on February 3, 2015.

Therefore, the 2012 Integrated Report consisted of data submitted for the North Coast Regional Water Quality Control Board (Region 1), the Lahontan Regional Water Quality Control Board (Region 6), and the Colorado River Basin Regional Water Quality Control Board (Region 7). On July 30, 2015, the USEPA issued its final decision this update to the 303(d) list and this 2012 303(d) list replaced the 2010 303(d) list as California's current 303(d) list.

The Central Coast Regional Water Quality Control Board (Region 3), the Central Valley Regional Water Quality Control Board (Region 5), and the San Diego Regional Water Quality Control Board (Region 9) recently approved Integrated Reports including a 303(d) list for their respective regions. Region 9 approved its 303(d) list in October 2016 and Regions 3 and 5 approved their 303(d) lists in December 2016. These updates to the 303(d) list were to be approved by the State Water Board as the 2014 303(d) list.

The 2016 Integrated Report will consist of data for the San Francisco Bay Regional Water Quality Control Board (Region 2), the Los Angeles Water Board (Region 4), and the Santa Ana Regional Water Quality Control Board (Region 8). Each of these Regions is expected to approve

their lists by April 2017. Until the 2014 and 2016 303(d) list updates are approved by the USEPA, the current list is the 2012 303(d) list.

Due to the volume of data received during the 2010 data solicitation period, the State Water Board determined that no additional data would be solicited or analyzed until all the 2010 data are assessed. Each of the 2012, 2014 and 2016 303(d) lists have assessed only data from the 2010 data solicitation.

In addition, changes to the procedures included in the February 2015 amendment to the Listing Policy, included a requirement that all data be submitted to the California Environmental Data Exchange Database (CEDEN); this change will significantly improve the efficiency of the listing and delisting process so that even with regional updates only once every six years, California will have a more comprehensive assessment and 303(d) list than in the past. The CEDEN website has a new page dedicated to the 303(d) list: http://www.ceden.org/303d_list.shtml.

The data solicitation for the 2018 303(d) list was released on November 3, 2016. The 2018 303(d) list will address Regions 1, 6, and 7.

The Los Angeles Water Board will develop its next Integrated Report, including an updated 303(d) list, in 2022. Los Angeles Water Board staff estimates that the 2022 303(d) list will include data submitted through 2021.

2.6 Public Review and Board Approval of the 2016 303(d) List

Pursuant to section 6.2 of the Listing Policy, waterbodies listed in Category 4a, 4b, or 5, which make up the 303(d) list, are subject to public review and approval by the Los Angeles Water Board. Waterbodies listed in Categories 1, 2, 3, or 4c are provided to the public and to the Los Angeles Water Board as additional waterbody information. All categories will be submitted to the State Water Board for inclusion into the California Integrated Report. Once compiled, the State Water Board will provide public notice of the California Integrated Report for additional public review prior to approval by the State Water Board, as outlined in section 6.3 of the Listing Policy. Waterbodies in Categories 4a, 4b, and 5 will be considered for inclusion in the California 303(d) list.

It is anticipated that the State Water Board will approve the 2014 list updates of Regional 3, 5 and 9 and the 2016 list updates of Regions 2, 4, and 8, during the same State Water Board hearing in 2017.

The California 303(d) list will require final approval by USEPA. If USEPA determines that changes are needed to the submitted report they will initiate further public review before finalizing and publishing the report.

3. Development of the 2016 Los Angeles Region 303(d) List

This section provides a review of the data analysis for the Los Angeles Region’s 2016 Integrated Report.

3.1 Data Solicitation for the 2016 303(d) List

In January of 2010, the State Water Board solicited data from the public with a formal “Notice of Public Solicitation of Water Quality Data and Information for the California Integrated Report” (Notice), which was sent to interested persons subscribed to the State Water Board’s Integrated Report e-mail distribution list. In addition, the Los Angeles Water Board sent the notice to persons subscribed to the Los Angeles Water Board’s Basin Plan Amendments and TMDL e-mail distribution lists. Data used as part of the 2016 Integrated Report were received through August 30, 2010. Data sources include government agencies, municipalities, environmental groups, citizen groups, receiving water data from the National Pollutant Discharge Elimination System (NPDES) dischargers and data collected by the Regional and State Water Boards under the Surface Water Ambient Monitoring Program (SWAMP).

All data and information submitted are available as part of the electronic administrative record (Appendix H). Data and information pertaining to specific waterbody-pollutant assessments are provided in the fact sheets (Appendix G) and link directly to the administrative record.

3.2 Data Processing and Analysis

All readily available data and information in the administrative record was considered in the development of the 2016 Integrated Report. However, only high-quality data supported by a Quality Assurance Project Plan was used to make determinations of water quality standards attainment. In the absence of quality assurance documentation, data is used only as supporting evidence and is not the basis of a listing decision.

Fact sheets and overall beneficial use support determinations were developed in the California Water Quality Assessment (CalWQA) database. Lines of evidence (LOE) summarize: water quality data, information pertaining to where and when the water quality monitoring took place, the pollutant sampled, the beneficial use affected, the water quality objective or guideline protective of the beneficial use, the number of samples collected, and how many samples exceeded the objective or guideline. Potential sources are identified in fact sheets in some cases, otherwise, the potential source was marked “Source Unknown”.

Data were aggregated by waterbody segment following the requirements of Section 6.1.5.4 of the Listing Policy, and assessments were performed on the individual segments. Waterbodies were segmented to account for hydrologic features.

Spatial and temporal representation of data was assessed using the requirements and guidance of the Listing Policy. The available data were used to represent concentrations during the averaging period associated with the particular pollutant and water quality objective, as required by Section 6.1.5.6 of the Listing Policy. For example, if only one data point was available during a 4-day period, it was used to represent the four-day average concentration for that period.

Following data assessment, Los Angeles Water Board staff determined whether or not the waterbody was attaining relevant water quality standards. Decision recommendations were completed to summarize all relevant LOEs for a waterbody-pollutant combination and, based on the statistical evaluation described in the Listing Policy, to state if the exceedances of water quality standards constituted an impairment of a beneficial use and, thus, necessitated a 303(d) listing.

3.3 Water Quality Standards Used in the Data Assessment

Beneficial uses for waters in the Los Angeles Region are identified in Table 2-1, 2.1a and 2.3 of the Los Angeles Regional Water Quality Control Plan (Basin Plan).

Water Board staff assessed data using regulatory limits when available. The most common regulatory limits used include water quality objectives in the Basin Plan or any statewide Water Quality Control Plans applicable to the waterbody, including objectives for toxic chemicals promulgated by the USEPA under the California Toxics Rule (40 CFR §131.38). When numeric regulatory limits were not available, evaluation guidelines were considered to interpret narrative water quality objectives. Evaluation guidelines are selected in conformance with section 6.1.3 of the Listing Policy.

3.4 Determination of Beneficial Use Support and Integrated Report Categories

To meet CWA Section 305(b) requirements of reporting on water quality conditions, the Integrated Report places each assessed waterbody segment into one of five non-overlapping categories based on the overall beneficial use support of the water segment and the need for a TMDL. Water segments were evaluated for at least one of six “core” beneficial uses including: municipal and domestic supply, aquatic life support, fish consumption, shellfish harvesting, contact recreation, and non-contact recreation. For each core beneficial use associated with each waterbody segment, a rating of fully supporting, not supporting, or insufficient information was assigned based on the assessment of readily available data and information.

Table 2. Los Angeles Integrated Report Waterbody Categories, 2016 303(d) List

Category	Description	Waterbody Segments
1	All assessed beneficial uses supported and no beneficial uses known to be impaired.	34
2	There is insufficient information to determine beneficial use support.	56
3	There is insufficient data and/or information to make a beneficial use support determination but information and/or data indicates beneficial uses may be potentially threatened.	15
4	At least one beneficial use is not supported but TMDL is not needed.	
4a	A TMDL has been developed and approved by U.S.EPA for any waterbody-pollutant combination and the approved implementation plan is expected to result in full attainment of the water quality standard within a specified time frame.	74
4b	Another regulatory program is reasonably expected to result in attainment of the water quality standard within a reasonable, specified time frame.	0
4c	The non-attainment of any applicable water quality standard for the waterbody segment is the result of pollution and is not caused by a pollutant.	0
5	At least one beneficial use is not supported and a TMDL is needed.	140
Total waterbodies assessed		319

Detailed Category Reports can be found in Appendices B-F.

Pursuant to Section 2 of the Listing Policy, waterbodies remain in Category 5 until all 303(d)-listed pollutants are addressed by USEPA-approved TMDLs or by another regulatory program that is expected to result in the reasonable attainment of the water quality standards, at which point the waterbody will be placed into Category 4a or 4b. Impaired waters are placed in Category 4c if the impairment is not caused by a pollutant but rather caused by pollution, such as flow alteration or habitat alteration. Waterbodies placed in Category 4c are not included as part of the 303(d) list and do not require the development of a TMDL.

Waterbody-pollutant combinations listed in Category 5 (Appendix B) show the TMDL requirement status. If a “TMDL is still needed” for the waterbody-pollutant combination, the TMDL requirement status is labeled 5A. If the waterbody-pollutant combination is “being addressed by a USEPA approved TMDL”, the TMDL requirement status is labeled 5B. If the waterbody-pollutant combination is “being addressed by an action other than a TMDL”, the TMDL requirement status is labeled 5C. These labels were created for internal tracking and are not Integrated Report sub-categories required by the USEPA.

4. Proposed Changes to the Section 303(d) List

While, due to the changes to the 303(d) process described in Section 2.5, data review was restricted to data collected prior to September 2010, a significant number of changes to the Los Angeles Region's 303(d) list are proposed. The 200 proposed new listings include:

- Additional PCB and pesticide listings arising from California's Surface Water Ambient Monitoring Program (SWAMP) water quality sampling conducted in 2009 focusing on lakes and reservoirs. For example, staff has proposed new listings for Castaic Lake (PCBs), Pyramid Lake (chlordane, dieldrin, DDT and PCBs) and Echo Park Lake (dieldrin).
- Additional pesticide and other pollutant listings in Ventura County waters draining agricultural lands including the Santa Clara Drain, Tapo Canyon, Wheeler Canyon and Boulder Cove, arising from the Ventura County Agricultural Irrigated Lands Group water quality monitoring.
- Additional toxicity listings in the Los Angeles River arising from water quality sampling conducted the City of Los Angeles' Bureau of Sanitation, required pursuant to the City's NPDES permits.
- Various other proposed listings arising from special studies or ongoing water quality monitoring programs.

Most of the proposed new listings are new waterbody segment-pollutant combinations where a TMDL will be needed. These waterbodies would then be in Category 5. However, several of the proposed new listings identify additional impairments in watersheds already being addressed by a TMDL for that pollutant. For example, the proposed new listings for DDE and DDD in Calleguas Creek Reach 3 and the proposed chlordane, DDE and DDD listings in Hondo Barranca are being addressed by the Calleguas Creek Organochlorine Pesticides, PCBs and Siltation TMDL. In addition, the proposed Los Angeles River Reach 3 indicator bacteria listing is already being addressed by the Los Angeles River Bacteria TMDL. These waterbodies would then be in Category 4a unless another waterbody pollutant combination requires a TMDL such that the waterbody would remain in Category 5.

The proposed 40 delistings include:

- Several proposed delistings for indicator bacteria at Santa Monica Beaches, including Abalone Cove Beach, Bluff Cove Beach, Outer Cabrillo Beach, Manhattan Beach and Hermosa Beach. It is important to note that the Santa Monica Bay Bacteria TMDL remains in effect for those beaches even if the delistings are fully approved.
- Various other proposed delistings arising from special studies or ongoing water quality monitoring programs.

In a number of cases, in both fresh and marine waters, listings for “coliform bacteria” were renamed “indicator bacteria” based on USEPA’s recommendation and for statewide consistency.

In addition, because 21 TMDLs including 252 listings, have gone into effect since the development of the 2010 303(d) list, a number of Category changes are proposed to change waterbody-pollutant combinations from “requiring a TMDL” (Category 5A) to “being addressed by a USEPA approved TMDL” (Category 5B or, if all waterbody-pollutant combinations have been addressed for that waterbody, Category 4a).

For detailed information on proposed changes, refer to the waterbody-pollutant “fact sheets” in Appendix G.

As discussed in Section 2.6, it is anticipated that the State Water Board will approve the 2014 list updates of Regions 3, 5 and 9 and the 2016 list updates of Regions 2, 4, and 8, during the same State Water Board hearing in 2017. Table 3, below, shows the 303(d) list changes approved by Regional Water Boards 3, 5 and 9 and the 303(d) list changes proposed, at this time, for approval by the staff of Regional Water Boards 2, 4, and 8.

Table 3. Summary of 2014 and 2016 Changes to the California 2012 303(d) List

2014-2016 INTEGRATED REPORT						
REGION	2012 303(d) LIST	2014 and 2016 303(d) List proposed changes				
	Total 303(d) Listings (Categories 4a, 4b and 5)	Regional Water Board 303(d) Listing Recommendations		Miscellaneous Changes*		Total proposed 303(d) Listings (Categories 4a, 4b and 5)
		New Listings	New Delisting	Resulting in Listings	Resulting in Delistings	
1	159	0	0	0	0	159
2	333	42	8	0	6	361
3	712	269	48	0	23	910
4	823	200	40	0	0	983
5	730	269	45	0	0	954
6	155	0	0	0	0	155
7	68	0	0	0	0	68
8	132	33	13	0	0	152
9	445	244	14	0	0	675
Totals	3557	1057	168	0	29	4417

*Miscellaneous changes include adjustments to the 303 (d) list when waterbody reaches are combined or split resulting in a decrease or increase in the number of listings.

2016 CALIFORNIA 303(d) LIST OF WATER QUALITY LIMITED SEGMENTS*

Category 5 criteria: 1) A water segment where standards are not met and a TMDL is required, but not yet completed, for at least one of the pollutants being listed for this segment.

* USGS HUC = US Geological Survey Hydrologic Unit Code. Calwater = State Water Resources Control Board hydrological subunit area or even smaller planning watershed.

** TMDL requirement status definitions for listed pollutants are: A= TMDL still required, B= being addressed by USEPA approved TMDL, C= being addressed by action other than a TMDL, ALT= being addressed by USEPA approved TMDL alternative

*** Dates relate to the TMDL requirement status, so a date for A= TMDL scheduled completion date, B= Date USEPA approved TMDL, and C= Completion date for action other than a TMDL

2016 CALIFORNIA LIST OF WATER QUALITY LIMITED SEGMENTS
BEING ADDRESSED BY USEPA APPROVED TMDLS

Category 4A Criteria: 1) A water segment where ALL its 303(d) listings are being addressed; and 2) at least one of those listings is being addressed by a USEPA approved TMDL.

* USGS HUC = US Geological Survey Hydrologic Unit Code. Calwater = State Water Resources Control Board hydrological subunit area or even smaller planning watershed.

** "Addressed By" is defined as: B = Being addressed by USEPA approved TMDL and C = Being addressed by action(s) other than a TMDL

REGION	WATER BODY NAME	WATER TYPE	WATERSHED* • CALWATER / USGS HUC	POLLUTANT ◦ POTENTIAL SOURCES <i>Relevant Notes</i>	ESTIMATED AREA ASSESSED	FIRST YEAR LISTED	ADDRESSED BY**	USEPA TMDL APPROVAL DATE

2016 CALIFORNIA WATERS WITH INSUFFICIENT INFORMATION TO ASSESS BENEFICIAL USE SUPPORT BUT SOME USES MAY BE POTENTIALLY THREATENED

Common Beneficial Uses	Applicable California Beneficial Uses
Aquatic Life Support	Cold Freshwater Habitat, Estuarine Habitat, Fish Migration, Fish Spawning, Freshwater Replenishment, Inland Saline Water Habitat, Limited Warmwater, Marine Habitat, Preservation of Areas of Special Biological Significance, Preservation of Rare & Endangered Species, Warm Freshwater Habitat, Wetland Habitat, Wildlife Habitat
Drinking Water Supply	Municipal & Domestic Supply
Fish Consumption	Commercial or recreational collection of fish, shellfish, or organisms, Subsistence Fishing
Secondary Contact	Non-Contact Recreation
Shellfishing	Shellfish Harvesting
Swimming	Water Contact Recreation

Category 3 Criteria: A water with water quality information that is insufficient to determine an appropriate decision recommendation, but the available data and information that does exist indicates beneficial uses may be potentially threatened.

* USGS HUC = US Geological Survey Hydrologic Unit Code. Calwater = State Water Resources Control Board hydrological subunit area or even smaller planning watershed.

2016 CALIFORNIA WATERS WITH INSUFFICIENT INFORMATION TO ASSESS BENEFICIAL USE SUPPORT

Common Beneficial Uses	Applicable California Beneficial Uses
Aquatic Life Support	Cold Freshwater Habitat, Estuarine Habitat, Fish Migration, Fish Spawning, Freshwater Replenishment, Inland Saline Water Habitat, Limited Warmwater, Marine Habitat, Preservation of Areas of Special Biological Significance, Preservation of Rare & Endangered Species, Warm Freshwater Habitat, Wetland Habitat, Wildlife Habitat
Drinking Water Supply	Municipal & Domestic Supply
Fish Consumption	Commercial or recreational collection of fish, shellfish, or organisms, Subsistence Fishing
Secondary Contact	Non-Contact Recreation
Shellfishing	Shellfish Harvesting
Swimming	Water Contact Recreation

Category 2 Criteria: A water with water quality information that is insufficient to determine an appropriate decision recommendation, for reasons such as: monitoring data have poor quality assurance, not enough samples in a dataset, no existing numerical objective or evaluation guideline, the information alone cannot support an assessment, etc.

* USGS HUC = US Geological Survey Hydrologic Unit Code. Calwater = State Water Resources Control Board hydrological subunit area or even smaller planning watershed.

REGION	WATER BODY NAME	WATER TYPE	WATERSHED* • CALWATER / USGS HUC	COMMON BENEFICIAL USE ◦ <i>California Beneficial Use</i> <u>Pollutant Assessed</u>	ESTIMATED AREA ASSESSED

2016 CALIFORNIA WATERS SUPPORTING ALL ASSESSED BENEFICIAL USES

Common Beneficial Uses	Applicable California Beneficial Uses
Aquatic Life Support	Cold Freshwater Habitat, Estuarine Habitat, Fish Migration, Fish Spawning, Freshwater Replenishment, Inland Saline Water Habitat, Limited Warmwater, Marine Habitat, Preservation of Areas of Special Biological Significance, Preservation of Rare & Endangered Species, Warm Freshwater Habitat, Wetland Habitat, Wildlife Habitat
Drinking Water Supply	Municipal & Domestic Supply
Fish Consumption	Commercial or recreational collection of fish, shellfish, or organisms, Subsistence Fishing
Secondary Contact	Non-Contact Recreation
Shellfishing	Shellfish Harvesting
Swimming	Water Contact Recreation

Category 1 Criteria: 1) A water that fully supports at least one of its California beneficial uses; 2) has other uses that are not assessed or lack sufficient information to be assessed; and 3) No assessed uses are not supported.

* USGS HUC = US Geological Survey Hydrologic Unit Code. Calwater = State Water Resources Control Board hydrological subunit area or even smaller planning watershed.

LOS ANGELES REGION

320 W. 4th Street
Los Angeles, CA 90013
(213) 576-6600

Public Notice No. 17-005
Meeting: April 6, 2017

NOTICE OF PUBLIC HEARING AND BOARD MEETING
9:00 A.M., Thursday, April 6, 2017

*Metropolitan Water District of Southern California
(Board Room)
700 North Alameda Street
Los Angeles, California 90012*

Proposed Revisions to the Clean Water Act Section 303(d) List of Impaired waterbodies in the Los Angeles Region

NOTICE IS HEREBY GIVEN that the California Regional Water Quality Control Board, Los Angeles Region (Los Angeles Water Board) will hold a public hearing to consider proposed revisions to the Clean Water Act Section 303(d) list of impaired waterbodies in the Los Angeles Region (303(d) list). On April 6, 2017, the Los Angeles Water Board is expected to take formal action on proposed revisions to the 303(d) list and to hear further information on water quality assessments in the Los Angeles Region per Clean Water Act Section 305(b). Proposed revisions to the 303(d) list, supporting documentation, and a proposed Board Resolution, are available on the Los Angeles Water Board's website at: http://www.waterboards.ca.gov/losangeles/water_issues/programs/303d_list.shtml.

Interested persons are invited to submit written comments and evidence on the proposed action. Written comments and evidence must be received by the Los Angeles Water Board by **5:00 p.m. on March 9, 2017** for consideration. Failure to comply with these requirements is grounds for the Los Angeles Water Board to refuse to admit the proposed written comment or exhibit into evidence (California Code of Regulations, Title 23, Section 649.4). Interested persons are encouraged to submit written comments and evidence in Microsoft Word format by e-mail to: losangeles@waterboards.ca.gov. Please indicate in the subject line of the email, **"Comment Letter – Revisions to the Los Angeles Region 303(d) list."** Written comments and evidence sent by mail should be addressed to:

California Regional Water Quality Control Board
Los Angeles Region
Attention: Jun Zhu
320 West Fourth Street, Suite 200
Los Angeles California, 90013

Interested persons may also make oral comments at the hearing. To the extent possible, oral comments should summarize any written comments. Time limitations on oral comments will be imposed by the Board.

Information regarding item continuances, deadline adjustments, and venue changes are available on the Los Angeles Water Board's website: <http://www.waterboards.ca.gov/losangeles/>. Board agendas are available ten days before the Board hearing date. For additional information, contact Jun Zhu at (213) 576-6681.

Proposed Revisions to the
Clean Water Act Section 303(d)
List of Impaired waterbodies
in the Los Angeles Region

NOTICE IS HEREBY GIVEN that the California Regional Water Quality Control Board, Los Angeles Region (Los Angeles Water Board) will hold a public hearing to consider proposed revisions to the Clean Water Act Section 303(d) list of impaired waterbodies in the Los Angeles Region (303(d) list). On April 6, 2017, the Los Angeles Water Board is expected to take formal

action on proposed revisions to the 303(d) list and to hear further information on water quality assessments in the Los Angeles Region per Clean Water Act Section 305(b). Proposed revisions to the 303(d) list, supporting documentation, and a proposed Board Resolution, are available on the Los Angeles Water Board's website at: http://www.waterboards.ca.gov/losangeles/water_issues/programs/303d_list.shtml.

Interested persons are invited to submit written comments and evidence on the proposed action. Written comments and evidence must be received by the Los Angeles Water Board by 5:00 p.m. on March 9, 2017 for consideration. Failure to comply with these requirements is grounds for the Los Angeles Water Board to refuse to admit the proposed written comment or exhibit into evidence (California Code of Regulations, Title 23, Section 649.4). Interested persons are encouraged to submit written comments and evidence in Microsoft Word format by e-mail to: losangeles@waterboards.ca.gov. Please indicate in the subject line of the email, "Comment Letter - Revisions to the Los Angeles Region 303(d) list." Written comments and evidence sent by mail should be addressed to:

California Regional Water
Quality Control Board
Los Angeles Region
Attention: Jun Zhu
320 West Fourth Street, Suite
200
Los Angeles California, 90013

Interested persons may also make oral comments at the hearing. To the extent possible, oral comments should summarize any written comments. Time limitations on oral comments will be imposed by the Board.

Information regarding item continuances, deadline adjustments, and venue changes are available on the Los Angeles Water Board's website: <http://www.waterboards.ca.gov/losangeles/>. Board agendas are available ten days before the Board hearing date. For additional information, contact Jun Zhu at (213) 576-6681. 2/8/17

Proposed Revisions to the Clean Water Act Section
303(d) List of Impaired waterbodies in the Los
Angeles Region

NOTICE IS HEREBY GIVEN that the California Regional Water Quality Control Board, Los Angeles Region (Los Angeles Water Board) will hold a public hearing to consider proposed revisions to the Clean Water Act Section 303(d) List of Impaired waterbodies in the Los Angeles Region (303(d) list). On April 6, 2017, the Los Angeles Water Board is expected to take formal action on proposed revisions to the 303(d) list and to hear further information on water quality assessments in the Los Angeles Region per Clean Water Act Section 305(b). Proposed revisions to the 303(d) list, supporting documentation, and a proposed Board Resolution, are available on the Los Angeles Water Board's website at: http://www.waterboards.ca.gov/losangeles/water_issues/programs/303d_list.html.

Interested persons are invited to submit written comments and evidence on the proposed action. Written comments and evidence must be received by the Los Angeles Water Board by 5:00 p.m. on March 9, 2017 for consideration. Failure to comply with these requirements is grounds for the Los Angeles Water Board to refuse to admit the proposed written comment or exhibit into evidence (California Code of Regulations, Title 23, Section 643.4). Interested persons are encouraged to submit written comments and evidence in Microsoft Word format by e-mail to: losangeles@waterboards.ca.gov. Please indicate in the subject line of the email, "Comment Letter - Revisions to the Los Angeles Region 303(d) list." Written comments and evidence sent by mail should be addressed to:

California Regional Water Quality Control Board
Los Angeles Region
Attention: Jun Zhu
320 West Fourth Street, Suite 200
Los Angeles California, 90013

Interested persons may also make oral comments at the hearing. To the extent possible, oral comments should summarize any written comments. Time limitations on oral comments will be imposed by the Board.

Information regarding item continuances, deadline adjustments, and venue changes are available on the Los Angeles Water Board's website: www.waterboards.ca.gov/losangeles/. Board agendas are ten days before the Board hearing date. For additional information, contact Jun Zhu at (213) 576-6661.
