Protection

21 December 2001

TO: Interested Parties

NOTICE OF AVAILABILITY OF FINAL STAFF REPORT ON RECOMMENDED CHANGES TO CALIFORNIA'S CLEAN WATER ACT SECTION 303(D) LIST

The California Regional Water Quality Control Board, Central Valley Region (Regional Board) staff is noticing the availability of the *Final Staff Report on Recommended Changes to California's Clean Water Act Section 303(d) List* (Report). The Report identifies those surface waters within the Central Valley region that Regional Board staff believes do not meet applicable water quality standards. Copies of the report and the appendices can be found at <http://www.swrcb.ca.gov/rwqcb5/TMDL/>.

The Report has been submitted to the State Water Resources Control Board (SWRCB) for their consideration. As required by Section 303(d) of the Clean Water Act, the SWRCB will provide the United States Environmental Protection Agency (US EPA) with a revised list of surface waters considered by the State to be impaired (not attaining water quality standards). It is anticipated that this submission will be provided to US EPA no later than October 1, 2002, as required by federal regulations. The submission will be based on information and data available to the SWRCB and the Regional Water Quality Control Boards.

Questions on the SWRCB's process for consideration of revisions to the 303(d) list can be directed to Craig J. Wilson at (916) 341-5560. Questions on the Regional Board's Report can be directed to Joe Karkoski at (916) 255-3368.
