Subject:	copper boat paint in San Diego
MESSAGE	
Dear GovernorThe San Diego Regional water quality control board is = planning on using new regs. for the Shelter Island basin re: bottom = paint for boats. This paint has been deemed legal by the E.P.A. and this = issue was tossed out in San Fransisco bay. Why cant San Diego be = treated thê same. As a second gen. boater and native of S.D. i think = these proposed regs are insane. Thank you for doing such a great job= you have one hell of a task in front of you.=20 Kurt Roll
