Subject: Orange and San Diego County maps of assessed coastline segments
Attachments: All SDcounty pdfs Rev_120609.zip; All OrgCounty pdfsrev_120609.zip

Hi Alan,

Here are all your maps of all coastline segments.

The maps for Orange County were revised to correct some overlap of names that made them hard to read.

For San Diego county there is only one location in Map #1 because that location , San Mateo Canyon, it is too far from the rest of the sampling points to include it on another map.

Please let me know if you want some changes.

Nancy
