**PHONE #:** 760-744-1050

**RECORD OF CONVERSATION OR ACTION TAKEN (including method of communication):**

Called and left message 9/15/2009. Generally liked the database but did not have a lot of time to review. Agrees with the request to extend the comment period because the JURMP report is due at the end of September.

Questioned why Lake San Marcos was recommended for delisting of for phosphorous. See Decision 4374. Looks like the data was analyzed incorrectly.

**PERSON CONTACTED (if any):** Ruth Kolb

**COMPANY / AFFILIATION:** City of San Diego

**PHONE #:** 858-541-4328

**RECORD OF CONVERSATION OR ACTION TAKEN (including method of communication):**

Left message on 9/14/09. Returned call on 9/17/2009. Spoke with Ruth on 9/22/2009. She had some issues with tables in Appendix A and B. She did not understand some of the language and what the purpose was of the Integrated Report over the 303d list. I briefly explained the 5 categories and some of the database standard language.

She did have some issues with using the database. She had trouble downloading the documents to her laptop. Also when she printed the fact sheets, some fact sheets printed out multiple copies of the same sheet. I spoke with Jeffrey S about some of her issues and we sent her some instructions which may help viewing the downloaded documents. We are not sure why multiple fact sheets are printing out.

**SUBJECT:** 305(b) and 303(d) List Integrated Report Comments Follow Up

**PERSON CONTACTED (if any):** Todd Snyder

**COMPANY / AFFILIATION:** County of San Diego

**PHONE #:** (858) 694-3482

**RECORD OF CONVERSATION OR ACTION TAKEN (including method of communication):**

I called Todd Snyder about the County of San Diego submitting comments for the 305(b) and 303(d) List Integrated Report. Todd Snyder informed me that they are working on a report with a deadline of the end of September and they have not commented on the 305(b) and 303(d) List Integrated Report yet. I asked when they believe they would have comments for the San Diego Regional Board (SDRWQCB) and he said hopefully by October 1<sup>st</sup>. Todd Snyder asked if the SDRWQCB will respond to the comments if they are given to the SDRWQCB by October 1<sup>st</sup>. I replied that the SDRWQCB responds to all comments and responds in writing if the comments are submitted to the SDRWQCB by the SDRWQCB's requested deadline. We work diligently on responding in writing to comments submitted after the requested date and we respond in writing to as many comments as practicable with the time available. I expressed my opinion that the SDRWQCB hopes to have written responses to their comments before the October 14 public hearing especially if the comments are given to us by the first week of October. And, that I hoped this would give them enough time to respond to the SDRWQCB's responses to comments.

One May 1, 2007, I left a phone message with Bill Paznokas of the California Department of Fish and Game requesting available data for the upcoming Integrated List. A few days later, Bill Paznokas returned my call and said on his voice message that, in regards to ocean waters, he did not have data that we do not already have for review. He was not the correct representative for inland waters. A few days following his message, I sent him an e-mail requesting contact information for an inland representative at his agency.

One May 12, 2007, I left a phone message with Paul Brown of the San Diego Unified Port District requesting available data for the upcoming Integrated List. A few days later, Paul Brown returned my call and forwarded me by e-mail a study the Port conducted on antifouling paint emissions. I reviewed the report, entitled "Copper Loading Assessment from In-Water Hull Cleaning Following Natural Fouling, Shelter Island Yacht Basin, San Diego Bay, San Diego, California." The report did not contain data for receiving water quality monitoring.

Todd,

Amy sent me your email question (see below) about extending the comment period for our 305b/303d Integrated Report. We appreciate your sending us a written response and request to extend the comment period. The Regional Board remains very interested in engaging our stakeholders in an effective dialog to develop our 2008 update of our 303 List but we must also ensure that the draft Integrated Report is scheduled for consideration by our Board in the near future.

I received a copy of our request this morning and have discussed your request with our Branch Chief (Dave Gibson). I anticipate that he will discuss this topic further with our senior management so a decision on the schedule for the agenda item and comment period is under consideration by our management.

We will let you know if there is a change in our currently anticipated schedule, thanks for your input on this topic! John

Amy,

Thanks for the response. Does this mean that a final decision has been made not to extend the public comment period? Or is that still under consideration.

Thanks,

Hello Todd Snyder,

As a follow up to our phone conversation, the public notice states "Submittal of written comments is requested by 5:00 p.m. on September 14, 2009, so that written responses may be developed prior to the public hearing. However, written comments will be accepted until the close of the public hearing on Wednesday, October 14, 2009." This can be found on our website: [http://www.waterboards.ca.gov/sandiego/water\\_issues/programs/303d\\_list/ref\\_reports/r9\\_notice\\_of\\_filing.pdf](http://www.waterboards.ca.gov/sandiego/water_issues/programs/303d_list/ref_reports/r9_notice_of_filing.pdf)

We accept comments until the close of the public hearing. We respond to every comment we receive up until the close of the public hearing and respond in writing as much as practicable if comments are received after the requested date. Please let us know if you would like to set up a meeting to talk in person about comments or our responses to comments.

Thank you,

Thanks, John. Much appreciated. With regards to a sit down meeting prior to the hearing, we would be very interested in that as well. We're still going through many of the listing decisions, so our comments are not fully developed yet.
