The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) is considering providing recommendations for changes to both the Clean Water Act (CWA) Section 303(d) list of impaired waterbodies, and CWA Section 305(b) report on the water quality of waterbodies within the San Diego Region. Clean Water Act Section 305(b) requires each state to report biennially to the United States Environmental Protection Agency (U.S. EPA) on the water quality condition of its waters. CWA Section 303(d) requires each State to develop, update, and submit biennially to the U.S. EPA a list of waterbodies or segments that are "impaired or threatened" which either do not meet, or not expected to meet, water quality standards. In addition, waterbodies on the 303(d) list can be delisted when evidence proves that the impairment(s) does not exist and the waterbody is meeting water quality standards, or that the impairment listing is flawed. Impaired waterbodies or segments on the 303(d) list must be addressed through the development of TMDLs or by other means as described in the State's Water Quality Control Policy of Addressing Impaired Waters. In conformance with U.S. EPA guidance (U.S. EPA, 2005), the Water Boards are preparing a single state-wide Integrated Report that meets the reporting requirements of CWA sections 303(d) and 305(b). These changes are not subject to the California Environmental Quality Act (CEQA). The San Diego Water Board wishes to obtain public input on this matter.

**Wednesday, October 14, 2009  
San Diego Water Board Hearing Room  
9174 Sky Park Court, Suite 100  
San Diego, California 92123-4340**

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) is considering providing recommendations for changes to both the Clean Water Act (CWA) Section 303(d) list of impaired waterbodies, and CWA Section 305(b) report on the water quality of waterbodies within the San Diego Region. Clean Water Act Section 305(b) requires each state to report biennially to the United States Environmental Protection Agency (U. S. EPA) on the water quality condition of its waters. CWA Section 303(d) requires each State to develop, update, and submit biennially to the U. S. EPA a list of waterbodies or segments that are "impaired or threatened" which either do not meet, or not expected to meet, water quality standards. In addition, waterbodies on the 303(d) list can be delisted when evidence proves that the impairment(s) does not exist and the waterbody is meeting water quality standards, or that the impairment listing is flawed. Impaired waterbodies or segments on the 303(d) list must be addressed through the development of TMDLs or by other means as described in the State's Water Quality Control Policy of Addressing Impaired Waters. In conformance with U. S. EPA guidance (U. S. EPA, 2005), the Water Boards are preparing a single state-wide Integrated Report that meets the reporting requirements of CWA

sections 303(d) and 305(b).

These changes are not subject to the California Environmental Quality Act (CEQA). The San Diego Water Board wishes to obtain public input on this matter.

#### **PUBLIC HEARING**

The San Diego Water Board will hold a public hearing on October 14, 2009, at a meeting beginning at 9:00 a.m. The San Diego Water Board may deliberate and consider action on the recommendations for changes to the CWA at the close of the public hearing.

#### **REQUEST FOR PUBLIC INPUT**

Interested persons are invited to attend the hearing to present testimony. Oral statements will be heard, but for accuracy, testimony should be presented in writing.

**Submittal of written comments is requested by 5:00 p.m. on September 14, 2009, so that written responses may be developed prior to the public hearing.**

However, written comments will be accepted until the close of the public hearing on Wednesday, October 14, 2009.
