

6.3 RESPONSES TO COMMENTS (COMMENT LETTERS 1 THROUGH 85)

Section 6.3 contains the responses to both written and oral comments, received by the City of Santa Rosa during the 65-day public comment period (from August 31, 1996 to October 7, 1996) on the Draft EIR/EIS for the Santa Rosa Subregional Long-Term Wastewater Project. (Responses are also provided for six additional Comment Letters received by the City through October 14, 1997, after the close of the public comment period.)

Copies of the written comments received by the City through October 14, 1997, as well as the oral comments made at the public hearing held on September 24, 1996 are included as Appendix V in Volumes XVIII and XIX of the Final EIR/EIS. The Comment Letters and Public Hearing Comments are organized within these Volumes as follows:

Comment Letters: 100 series (1 through 132)
Public Hearing Comments: 200 series (200 through 268)
Comment Letters Received after Close of Comment Period: 300 series (300 through 305)

This part of Section 6.3 contains the Responses to Comment Letters 1 through 85. Responses to Comments are individually numbered in sequence corresponding to the numbering assigned to comments within each Comment Letter or Public Hearing Comment in Appendix V. The full text of the written comments along with the comments from the public hearing are included in Volumes XVII and XIX. In addition, to facilitate reading the Response to Comments, a summary of each comment is inserted in italics just prior to each response. This summary does not substitute for the actual comment; the reader is urged to read the full original text of the comments. The responses are prepared in answer to the full text of the original comment, and not to the abbreviated summary.
