I am a new resident of Santa Rosa, a tax-paying homeowner, who is concerned about preserving the natural beauty and treasures that surround us that make this such a special place to live. The idea of substantially increasing the amount of sewage dumped into the Russian River is repugnant to me. We cannot pollute our nest. Even if it means an increase in taxes we cannot be shortsighted into an expedient decision that would ruin a precious irreplaceable resource. Reuse our water, do not foul it.
