Re: Santa Rosa Wastewater Disposal Plan

Dear Mayor Wright & Councilmembers:

As time draws near for decisions regarding future disposal of treated wastewater, the City of Petaluma wishes to reiterate its interest in any selected alternative(s) which would have a direct impact on the City and its constituents. Prior to any decision to bring water to the South County area, there should be a specific determination that any planned storage, transmission or irrigation facilities will not be in conflict with Petaluma's plans. Also, in the event that additional treated water is diverted to the Russian River, assurances must be given that there will be no degradation of the quality of the Russian River water that is delivered to the water consumers in Petaluma. 001 002 003

The City appreciates your consideration in this matter and looks forward to continued cooperation for the benefit of all of our constituents.

Very truly yours,

M. Patricia Hilligoss  
Mayor of Petaluma
