Because of my background as an American Indian and my observations over a long & exposed life I would like to say that this document falls so short - too short & short sighted in the face of a human life. We are not living in our environment in a responsible manner. To need a report of any size let alone a collection of volumes this size to tell us that we would consider operating our Discharges & industrial waste along with the already considerable amount of waste from agriculture & rain run off from roads & freeway is pouring into one of our most precious resources - our river - is another nail in the coffin of our
