① It was a great day. An old friend who dropped every
Episcopal clergyman from Dallas to La Jolla Bay it meant
a lot to me. I saw no other priests. Really.

② At 86 - his first visit to a water table. I took
my family 3 years ago to San Jose, Calif. to see
the first water plant there, except for Angel's in
Africa. And I drank the water! I like it here!

③ I thought a Maya was splendid. In a house
because there of my daughter's wife. I found
a new house in San Jose.

④ If I could help let in know. First, I think
was in the water table place.

RE: September 27 meeting on Sonoma County Wastewater solutions

1) It was a great day. As an old priest (Episcopal) for 55 years I urged every priest who would come to all the waste water plants from San Juan Baptista to Vallejo. I saw no other priest, preacher or rabbi at your splendid meeting though some may have come incognito.

2) At 85+ years old I'm still interested in wastewater. I took my family to Santee, California 35 years ago, to the first tertiary plant, and drank the water there. I'm so proud of your profession. You are priests who devote your lives to keeping us clean and free of disease.

3) I thought the mayor was splendid. I'm a newcomer here but have three daughters and seven grandchildren living in Sebastopol.

4) If I can be of help, let me know. I have visited your Laguna plant and hope to baptize some people from the effluent there soon.

Faithfully Yours,

John J. Weaver
