## DEPARTMENT OF

## COMMUNITY DEVELOPMENT

## How to use:

Please fill out the above and provide your written comments about the Draft EIR/EIS in the space provided below. You may add additional pages if needed. Please write legibly. If you prefer to type your comments on a separate page, please attach to this form. Where possible, please reference the page to which the comment refers. When you have completed your comments, please fold the form so the City's address is showing, tape the edges together, (Do not use staples), and place in the mail.

I am one of the partners of the Kirkland Ranch located at 5898 Carroll Rd. I am against putting a dam or wetlands at or near this location due to the hazards which may occur from the treated sewer water. 001

1) According to data from your own testing the fecal coliform bacteria was way above the maximum allowable to be considered tertiary. It is also questionable the reliability of these tests as apparently tests were not done for viruses, cyclospora, cryptosporidium, and a new strain of pathogenic E. coli. 002

2) If a dam is located above our property and a major earthquake should 003

Santa Rosa Subregional Long-Term Wastewater Project

occur what are the guarantees that our property and homes might not be destroyed by damage to the dam? We are located between two major fault lines.

003 (cont.)

3) Since so many people are against having this treated water near or on their property, a more acceptable alternative may be to pipe it out into the ocean where it would do minimal to no damage to the ecosystem.

004
